Forward-looking statements and use of non-GAAP financial measures

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statement that does not describe historical or current facts is a forward-looking statement. These statements often include the words "believes," "expects," "anticipates," "estimates," "intends," "plans," "goals," "targets," "initiatives," "potentially," "probably," "projects," "outlook," "guidance" or similar expressions or future conditional verbs such as "may," "will," "should," "would," and "could."

Forward-looking statements are based upon the current beliefs and expectations of management, and on information currently available to management. Our statements speak as of the date hereof, and we do not assume any obligation to update these statements or to update the reasons why actual results could differ from those contained in such statements in light of new information or future events. We caution you, therefore, against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. While there is no assurance that any list of risks and uncertainties or risk factors is complete, important factors that could cause actual results to differ materially from those in the forward-looking statements include the following, without limitation:

- Negative economic, business and political conditions, including as a result of the interest rate environment, supply chain disruptions, inflationary pressures and labor shortages, that adversely affect the general economy, housing prices, the job market, consumer confidence and spending habits;
- The general state of the economy and employment, as well as general business and economic conditions, and changes in the competitive environment;
- Our capital and liquidity requirements under regulatory standards and our ability to generate capital and liquidity on favorable terms;
- The effect of changes in our credit ratings on our cost of funding, access to capital markets, ability to market our securities, and overall liquidity position;
- The effect of changes in the level of commercial and consumer deposits on our funding costs and net interest margin;
- Our ability to implement our business strategy, including the cost savings and efficiency components, and achieve our financial performance goals, including the anticipated benefits of the Investors acquisition and HSBC transaction;
- The effects of geopolitical instability, including the wars in Ukraine and Israel, on economic and market conditions, inflationary pressures and the interest rate environment, commodity price and foreign exchange rate volatility, and heightened cybersecurity risks;
- Our ability to meet heightened supervisory requirements and expectations;
- Liabilities and business restrictions resulting from litigation and regulatory investigations;
- The effect of changes in interest rates on our net interest income, net interest margin and our mortgage originations, mortgage servicing rights and mortgages held for sale;
- Changes in interest rates and market liquidity, as well as the magnitude of such changes, which may reduce interest margins, impact funding sources and affect the ability to originate and distribute financial products in the primary and secondary markets;
- Financial services reform and other current, pending or future legislation or regulation that could have a negative effect on our revenue and businesses;
- Environmental risks, such as physical or transition risks associated with climate change, and social and governance risks, that could adversely affect our reputation, operations, business, and customers;
- A failure in or breach of our operational or security systems or infrastructure, or those of our third-party vendors or other service providers, including as a result of cyber-attacks; and
- Management's ability to identify and manage these and other risks.

In addition to the above factors, we also caution that the actual amounts and timing of any future common stock dividends or share repurchases will be subject to various factors, including our capital position, financial performance, capital impacts of strategic initiatives, market conditions, and regulatory considerations, as well as any other factors that our Board of Directors deems relevant in making such a determination. Therefore, there can be no assurance that we will repurchase shares from or pay any dividends to holders of our common stock, or as to the amount of any such repurchases or dividends.

More information about factors that could cause actual results to differ materially from those described in the forward-looking statements can be found in the "Risk Factors" section in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 as filed with the Securities and Exchange Commission.

Non-GAAP Financial Measures:

This document contains non-GAAP financial measures denoted as Underlying. Underlying results for any given reporting period exclude certain items that may occur in that period which Management does not consider indicative of the Company's on-going financial performance. We believe these non-GAAP financial measures provide useful information to investors because they are used by our Management to evaluate our operating performance and make day-to-day operating decisions. In addition, we believe our Underlying results in any given reporting period reflect our on-going financial performance in that period and, accordingly, are useful to consider in addition to our GAAP financial results. We further believe the presentation of Underlying results increases comparability of period-to-period results. The Appendix presents reconciliations of our non-GAAP measures to the most directly comparable GAAP financial measures.

Other companies may use similarly titled non-GAAP financial measures that are calculated differently from the way we calculate such measures. Accordingly, our non-GAAP financial measures may not be comparable to similar measures used by such companies. We caution investors not to place undue reliance on such non-GAAP financial measures, but to consider them with the most directly comparable GAAP measures. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for our results reported under GAAP.

Overview[1]

Solid 2023 full-year results

- Underlying net income of $2.0 billion, with EPS of $3.88 and ROTCE of 13.5%; includes $(0.11) for the Private Bank start-up investment and $(0.51) impact from the Non-Core portfolio

4Q23: Quarter highlights

- Underlying EPS of $0.85 and ROTCE of 11.8%; includes $(0.06) for the Private Bank start-up investment and $(0.15) impact from the Non-Core portfolio
- Underlying PPNR of $721 million, with higher fees, slightly lower NII and stable expenses
- Period-end loans down 3% and average loans down 2% QoQ given commercial balance sheet optimization and lower client demand, as well as Non-Core portfolio run off
- Period-end and average deposits broadly stable

Further balance sheet strengthening

- Strong CET1 ratio of 10.6%[2]; 9.0% adjusted for AOCI opt-out removal; TCE ratio 6.7%, up 79 bps QoQ
- Period-end LDR improved from 84% to 82% QoQ; ~67% consumer deposits; ~71% secured/insured[3]
- Achieved target liquidity profile, with pro forma Category 1 Bank LCR rising from 109% to 117% QoQ
  - Reduced period-end FHLB borrowings by $3.3 billion QoQ to $3.8 billion
- Continue to be well reserved for credit issues: ACL 1.59% vs. ~1.3% pro forma day-one CECL
  - General Office reserve of 10.2% at December 31, 2023
- Executing Non-Core strategy to run off non-strategic lending and high-cost funding
  - $2.6 billion of Non-Core loan portfolio run off in 2H2023
  - $2.7 billion of auto-collateralized funding at year-end; third issuance of $1.5 billion executed in January 2024

Well positioned for medium-term relative outperformance through strategic initiatives

- Citizens Private Bank launched and off to good start; ~$1.2 billion of deposits and ~$0.4 billion in investments at year end
- Well positioned in NYC metro: performance tracking well, gaining market share
- Poised to capitalize on increasing Private Capital opportunity
- TOP 8 program achieved ~$115 million year-end pre-tax run rate benefit; TOP 9 targeting ~$135 million pre-tax run-rate benefit by year end 2024; targeting ~1-1.5% growth in 2024 Underlying expenses, a reduction of ~1.4% excluding the Private Bank impact

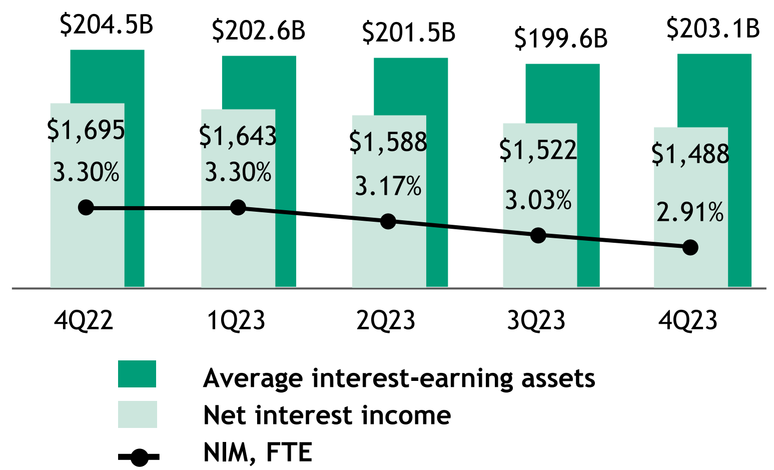
Net interest income

NII and NIM

$s in millions, except earning assets



Linked Quarter

- NII down 2%, reflecting lower NIM, partially offset by a 2% increase in average interest-earning assets, as higher cash and securities were partially offset by lower loans
  - NIM of 2.91% decreased 12 bps, reflecting the impact of increased liquidity (cash and securities - 9 bps) and higher funding costs (6 bps), partially offset by the benefit of Non-Core run off (3 bps)
  - Interest-earning asset yields up 7 bps to 5.20%
  - Interest-bearing deposit costs up 19 bps to 279 bps; cumulative beta of 51%

Noninterest income

Linked Quarter

- Noninterest income increased 2%
  - Capital markets fees increased $20 million given increased bond and equity underwriting and M&A advisory fees, though several M&A deals pushed to Q1
  - Card fees decreased $4 million, primarily reflecting lower interchange and higher rewards expense
  - Trust and investment services fees increased $5 million, reflecting increased sales activity
  - Mortgage banking fees decreased $12 million, driven by lower production fees and MSR valuation, net of hedging, partially offset by higher servicing fees
  - FX and derivative products revenue decreased $5 million, reflecting lower client activity in interest rate hedging

Year-Over-Year

- Noninterest income decreased 1%
  - Capital markets fees decreased $11 million, primarily given lower M&A advisory fees
  - Trust and investment services fees increased $7 million, reflecting increased sales activity and asset management fees
  - Mortgage banking fees increased $3 million, driven by higher MSR valuation, net of hedging, partially offset by lower servicing and production fees
  - FX and derivative products revenue increased $8 million, primarily reflecting increased client activity in commodities hedging

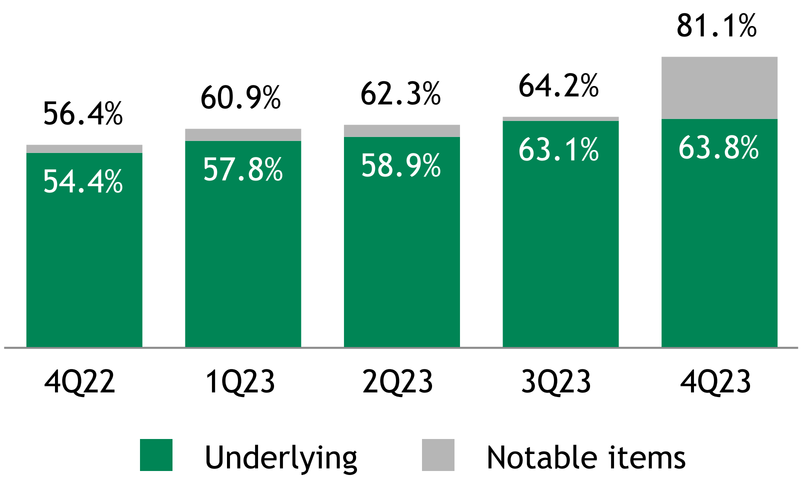
Efficiency ratio



Linked Quarter

- Underlying noninterest expense of $1.27 billion, decreased $4 million; broadly stable including the Private Bank start-up investment
  - Reflects a decrease in salaries and employee benefits given headcount reduction initiatives
  - Equipment and software decreased reflecting lower vendor costs
  - Outside services increased related to strategic initiatives
  - Other operating expense increased primarily due to higher fraud, deposit insurance and travel expenses, partially offset by lower advertising cost
- Reported noninterest expense of $1.61 billion, increased $319 million reflecting notable items of $323 million, namely the industry-wide FDIC special assessment of $225 million, and costs associated with the reduction of ~650 headcount, or ~3.5%, the exit of the Wholesale Mortgage and Auto businesses, and facilities rationalization

Year-Over-Year

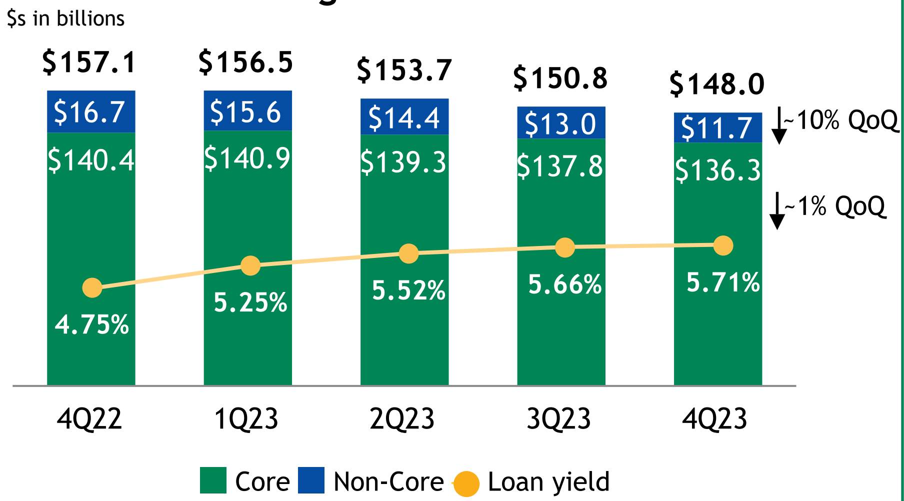
- Underlying noninterest expense of $1.27 billion increased 6%; up 2% excluding $41 million in expenses related to the Private Bank start-up investment
  - Reflects an increase in salaries and employee benefits primarily reflecting the Private Bank start-up investment, partly offset by lower headcount
  - Higher equipment and software expense driven by increased software maintenance and amortization costs
  - Higher other operating expense reflects increased deposit insurance, pension costs and fraud

See pages 45-47 for notes and important information on Non-GAAP Financial Measures, including "Underlying" results. "Underlying" results exclude the impact of notable items described on page 44.

Loans and leases

Loans down modestly reflecting continued balance sheet optimization

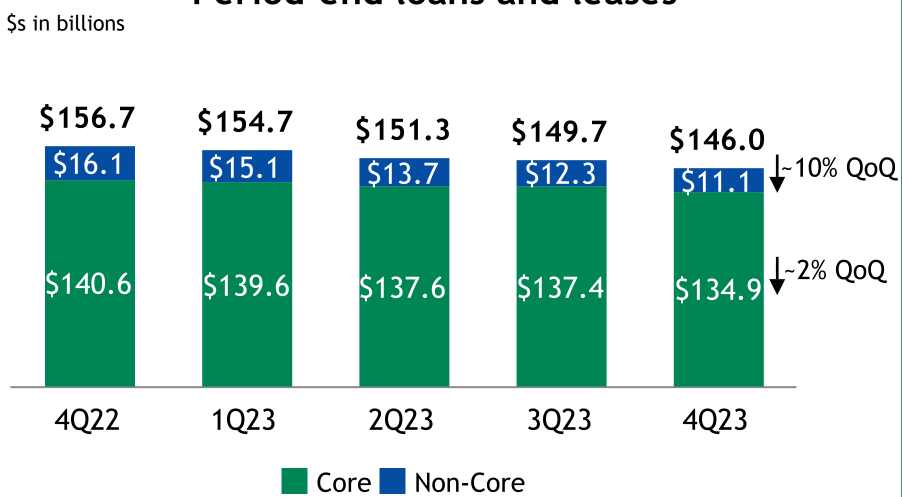
Average loans and leases



Linked Quarter

- Average loans down $2.8 billion, or 2%, driven by planned Non-Core portfolio run off
  - Core loans down 1% with commercial down $2.2 billion, or 3%, given C&I balance sheet optimization actions and lower client demand, and retail, up 1%, driven by growth in mortgage and home equity
- Period-end loans down $3.8 billion, or 3%, driven by planned Non-Core portfolio run off
  - Core loans down 2% with retail growth in mortgage and home equity more than offset by commercial balance sheet optimization actions
- Loan yield of 5.71%, up 5 bps QoQ

Period-end loans and leases



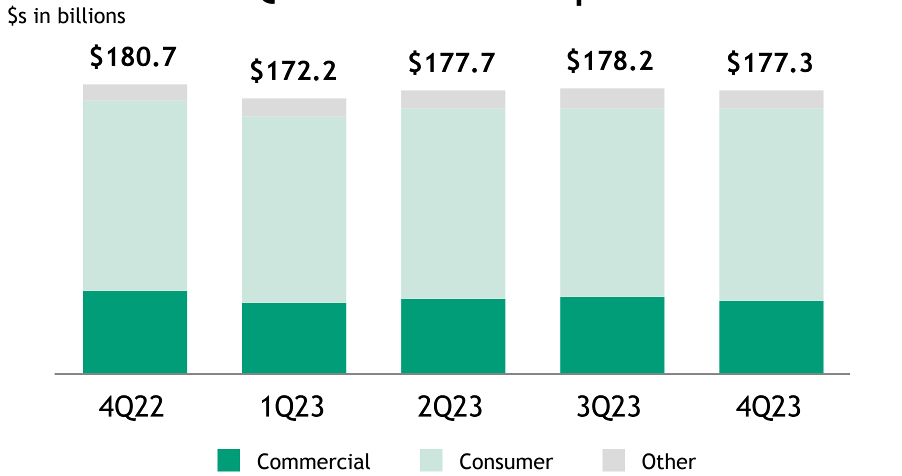
Year-Over-Year

- Average loans down $9.1 billion, or 6%, driven by Non-Core portfolio run off
  - Core loans down 3% with commercial down $6.4 billion, or 8%, driven by C&I balance sheet optimization actions and lower client demand, largely offset by retail, up 4%, driven by growth in mortgage and home equity
- Period-end loans down $10.7 billion, or 7%, driven by Non-Core Portfolio run off
  - Core loans down 4% with commercial down $7.7 billion, or 9%, driven by C&I balance sheet optimization actions and lower client demand, largely offset by retail, up 3%, driven by growth in mortgage and home equity

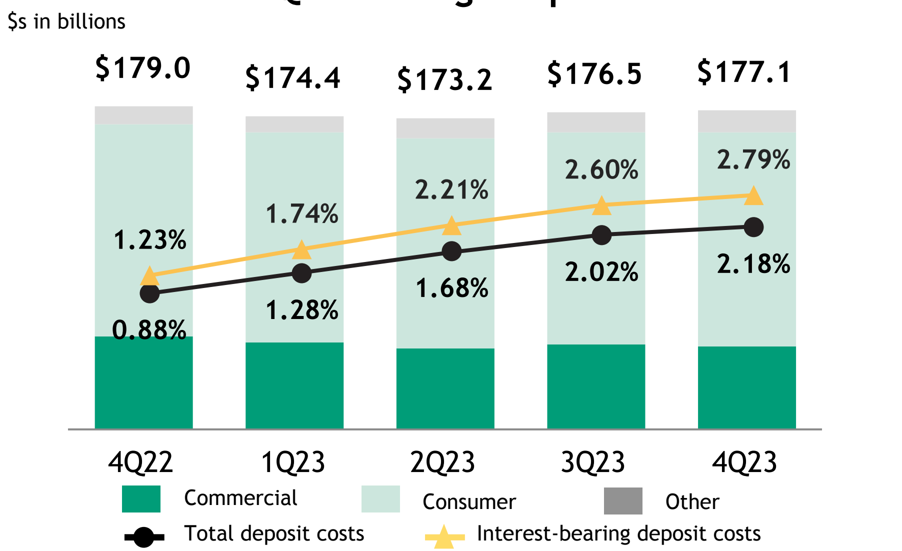
Deposit performance and cost of funds

Deposits broadly stable QoQ

4Q23 Period-end deposits



4Q23 Average deposits



Linked Quarter

- Period-end deposits broadly stable, with lower Commercial offset by an increase in Consumer, driven by the Private Bank
  - Efforts to optimize the liquidity value of deposits continue, with ~$3.5 billion in deposits from financial institutions and municipalities run off during the quarter
- Average deposits broadly stable, up $678 million
  - Consumer deposits up $495 million
  - Commercial down $259 million
- Citizens Access 4Q23 average and period-end balance of $11.0 billion

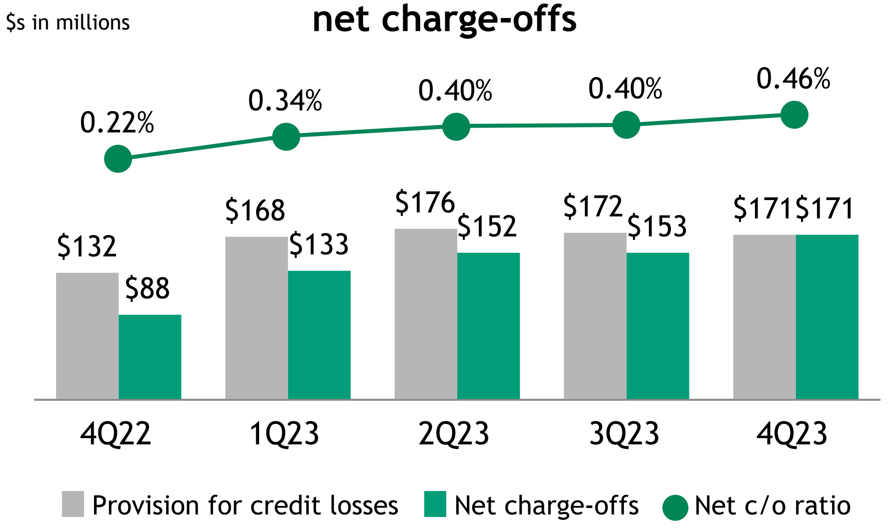
Credit quality overview

Credit provision expense; net charge-offs



Highlights

- NCOs of $171 million, or 46 bps of average loans and leases
- Nonaccrual loans increased 5% QoQ to 93 bps of total loans primarily driven by an increase in C&I and a modest increase in the General Office segment of commercial real estate
  - Trends in credit quality such as criticized loans appear to be broadly stabilizing
- Provision for credit losses of $171 million; ACL coverage ratio of 1.59%, up 4 bps QoQ reflecting stable reserves with lower loan balances given Non-Core run off and balance sheet optimization actions in commercial
- ACL to nonaccrual loans and leases ratio of 170% compares with 179% as of 3Q23 and 237% as of 4Q22

Commentary

- The increase in the ACL reserve coverage to 1.59% primarily reflects the decrease in loan balances and includes higher reserves for CRE exposures, primarily General Office
- The key macroeconomic assumptions underlying the reserve reflect a moderate recession over the two-year reasonable and supportable period
- Qualitative factors and sensitivities are also incorporated in the allowance framework to account for other considerations not fully captured in reserve models

CRE General Office key reserve assumptions

	Current assumptions
Property valuations, peak-to-trough % decline	~67%
Avg. Loss Severity (%)	~46%
Default rate (%)	~21-24%
Scenario losses implied	~$370 million
General Office ACL Coverage	10.2%

CRE General Office commentary

- CRE General Office portfolio of $3.6 billion, down ~$100 million, or 3%, QoQ driven by paydowns and charge-offs
- Strong ACL coverage of General Office; ACL informed by a specific CRE downside macro scenario combined with a loan-by-loan analysis
  - Increased ACL coverage for CRE General Office to 10.2% from 9.5% while absorbing ~$148 million over 2Q, 3Q and 4Q23 NCOs, which is another ~4% of loans
- Capital impacts of higher stress scenarios very modest

Investment thesis

Citizens continues to have a series of unique initiatives that will lead to relative medium-term outperformance

- Citizens Private Bank successfully launched and gathering momentum into 2024
- Well positioned in NYC metro to gain market share; performance tracking well
- All other initiatives tracking well: Private Capital, Citizens Pay, Citizens Access, TOP 9 launched

Citizens has a robust capital, liquidity and funding position

- Committed to maintaining our strong capital and liquidity position, while further strengthening funding and performance with balance sheet optimization, including Non-Core strategy
- Relative strength allows Citizens to take advantage of opportunities
- Focused on deploying capital to best relationship/highest risk-adjusted return areas
- Flexibility to continue returning capital to shareholders

Citizens has performed well since the IPO given its sound strategy, capable & experienced leadership and a strong customer-focused culture

- Track record of strong execution
- Commitment to operating and financial discipline
- Excellence in our capabilities, highly competitive with mega-banks and peers

Citizens is well positioned to deliver ~16 to 18% ROTCE over the medium-term given strategic initiatives and 2025 to 2027 NII tailwinds. Represents attractive opportunity for investors at current valuation and dividend yield

- 96% U.S. Treasury, Gov't or Gov't-backed securities
- ~84% fixed-rate; ~71% fixed-rate with hedges
- ~75% AFS/~25% HTM

Investment portfolio strategy

- Maintain strong liquidity profile
  - LCR under Category I Bank rules at 12/31/23 in excess of requirements
  - Given likely regulatory changes with AOCI opt-out removal, actions were taken in 4Q to lower portfolio duration and protect capital from AFS mark-to-market volatility
    - Added $5.4B pay-fixed swaps at ~3.8% WA pay rate
    - Majority of cash flows invested on a floating-rate basis

Balance sheet optimization - capital

5A Capital ratios remain near top of peer group

- Strong capital position and BSO activities have facilitated significant capital return to shareholders
  - ~95% shareholder payout ratio in 2023 on an Underlying basis reflects ~$808 million in dividends and ~$906 million in share repurchases
- Well positioned for changing regulatory environment
  - CET1 ratio under current rules of 10.6%[1], and 9.0% adjusted for AOCI opt-out removal; among the strongest within the peer group
  - Expect both ratios to converge to the 10.0-10.5% range over the medium term

12/31/2026	$(1.6)	$(1.6)
Burn-off by YE2026	~56%	~38%

Commentary

- Expect significant capital generation via accretion to AOCI as unrealized losses "burn off"
  - ~$1 billion in unrealized losses related to securities and pension expected to "burn off" by YE2026, adding ~60* bps to the CET1 ratio adjusted for AOCI opt-out removal
- Recent hedging actions in Q4 to reduce duration of securities portfolio protects capital by limiting volatility in AOCI
  - Immediate 50 bps parallel increase in rates would negatively impact CET1 ratio adjusted for AOCI opt-out removal by ~25 bps

*CET1 adjusted for AOCI opt-out removal accretion based on forward curve in early January; CET1 ratio impact for illustrative purposes assumes the RWA balance at 12/31/23

**Unrealized losses in swap portfolio includes both active and terminated swaps

*Based on the forward curve in early January; includes impacts from variation margin and daily compounding effects with SOFR

- **Increase in the 2024 swap position is incorporated in the FY24 NII guidance**
- **Significant contribution to NII over 2025 to 2027 as the Fed normalizes rates and swaps run off**
  - **Estimated incremental annual benefit of ~$371 million in 2025; ~$368 million in 2026; and ~$182 million in 2027**
  - **The funded balance sheet is inherently asset sensitive which partly offsets these benefits**

Notable items[1]

Quarterly and full-year results reflect notable items primarily related to integration costs associated with recent acquisitions, as well as TOP revenue and efficiency initiatives and other expense reduction actions. In addition, fourth quarter 2023 includes a notable item for the FDIC special assessment. Full-year 2022 results include notable items representing the day-one CECL provision expense ("double count") related to the HSBC and ISBC transactions. These notable items have been excluded from reported results to better reflect Underlying operating results.

Notes

Notes on Non-GAAP Financial Measures

See important information on our use of Non-GAAP Financial Measures at the beginning this presentation and reconciliations to GAAP financial measures at the end of this presentation. Non-GAAP measures are herein defined as Underlying results. Where there is a reference to Underlying results in a paragraph or table, all measures that follow these references are on the same basis, when applicable. Allowance coverage ratios for loans and leases includes the allowance for funded loans and leases in the numerator and funded loans and leases in the denominator. Allowance coverage ratios for credit losses includes the allowance for funded loans and leases and allowance for unfunded lending commitments in the numerator and funded loans and leases in the denominator.

General Notes

a. References to net interest margin are on a fully taxable equivalent ("FTE") basis.
b. Throughout this presentation, references to consolidated and/or commercial loans and loan growth include leases. Loans held for sale are also referred to as LHFS.
c. Select totals may not sum due to rounding.
d. Based on Basel III standardized approach. Capital Ratios are preliminary.
e. Throughout this presentation, reference to balance sheet items are on an average basis and loans exclude held for sale unless otherwise noted.
