BRENNTAG

H1

Half-Year Financial Report

January – June 2026

The results for the first half of 2026 reflect a strong second quarter of 2026.

Operating gross profit reached EUR 2,096 million in the first half of 2026, an increase of 8.8%* on the prior-year figure.

Operating EBITDA came to EUR 770 million, a rise of 16.1%* compared with H1 2025.

The free cash flow of EUR 97 million was down by 69.3% on the prior-year figure, mainly due to the price-driven increase in working capital.

EPS stood at EUR 1.92 compared with EUR 1.23 in H1 2025.

Brenntag has again raised its outlook for financial year 2026 and now expects operating EBITDA to be between EUR 1,350 million and EUR 1,450 million.

* Change rate is adjusted for translational FX effects.

Company profile

Brenntag is the global market leader in chemical and ingredients distribution. The company plays a central role in connecting the chemical industry's customers and suppliers. Through its two global divisions, Brenntag Essentials and Brenntag Specialties, the company provides a broad and diversified portfolio of industrial and specialty chemicals and ingredients, as well as tailor-made application, marketing and supply chain solutions, technical and formulation support, comprehensive regulatory expertise and digital solutionsfor a wide range of industries.

Brenntag operates a global network spanning around 600 sites in more than 70 countries. With its workforce of over 17,300 employees, Brenntag generated sales of around EUR 15 billion in 2025.

Group Interim Management Report

for the period from
January 1 to June 30, 2026

Economic environment

In the first half of 2026, global economic performance was impacted by geopolitical uncertainties, in particular as a result of the Iran conflict. In this context, the closure of the Strait of Hormuz led to disruption to supply chains and a sharp rise in oil and gas prices. Global industrial production recorded positive growth overall in the first half of 2026, although growth momentum weakened during the second quarter. The average Global Manufacturing Purchasing Managers' Index (PMI) was above the 50-point growth threshold throughout the first half of 2026. Overall, however, global economic growth continued to be impacted by uncertainty.

In Europe, industrial production initially showed signs of recovery in the first half of 2026. However, production fell again in May 2026. The economic recovery in the region continues to be hampered by industry's lack of competitiveness and subdued demand. In June 2026, the European Central Bank raised its key interest rates by 0.25%. As a result of the Iran crisis, inflation in the euro zone rose to around 2.8% in June 2026, while core inflation stood at about 2.5%.

The U.S. economy proved to be robust in the first half of 2026. Economic growth is estimated to be around 2% for this period. In the second quarter of 2026, growth momentum was held in check by the Iran conflict. Industrial production was positive, but without any significant momentum in the same period.

Latin America's economy performed well in the first half of 2026. The region benefited from its role as a supplier of raw materials. At the same time, a weaker global economy and high interest rates dragged on economic performance.

The Chinese economy posted growth in the first half of 2026, with industrial production, exports and high-tech sectors being the primary sources of impetus. Industrial production rose by 5.4% year on year in the first half of 2026. Export growth initially cooled in March 2026 after the Iran war began. However, exports then recovered again from April 2026 onwards and hit a record in June 2026, when annual growth reached 27%. This performance was driven in particular by AI hardware, semiconductor, vehicle and electronics exports.

The emerging economies of Asia (excluding China and Japan) were much more dynamic than Europe and Latin America in the first half of 2026. India remained one of the fastest-growing economies worldwide. Overall, the region benefited from strong domestic demand, investment in digitalization, artificial intelligence and semiconductors, shifts in global supply chains (China+1 strategies) and continuing high levels of foreign direct investment.

Major events impacting on business

At the end of February 2026, Brenntag closed the acquisition of Airedale Group based in Keighley, North Yorkshire, United Kingdom. The acquisition extends Brenntag's portfolio of services and expertise in the UK by adding blending, formulation and dilution capabilities. At the same time, it expands the range of products and services for customers and complements it by bringing regional supply chain infrastructure with global reach. In 2025, Airedale Group generated annual sales of GBP 77 million.

1.01 Business performance of the Brenntag Group

[1] Change in % (fx. adj.) is the percentage change on a constant currency basis.

The Brenntag Group generated **sales** of EUR 7,925 million in the first half of 2026, a figure roughly in line with the prior-year period. On a constant currency basis, sales were up by 3.0% on the prior-year figure. This was due to a meaningful rise in sales prices, which more than offset the slight fall in volumes.

The Brenntag Group's **operating gross profit** was up by 5.2% (on a constant currency basis: 8.8%) on the prior-year figure to EUR 2,096 million in the first half of 2026. Both divisions, Brenntag Essentials and Brenntag Specialties, contributed to this positive performance. While volumes at Brenntag Essentials showed a moderate decline, those at Brenntag Specialties were in line with the previous year. In both divisions, performance at operating gross profit level was positively impacted by higher operating gross profit per unit in particular.

The Brenntag Group's **operating expenses** amounted to EUR 1,326 million in the first half of 2026, an increase of 1.7% or on a constant currency basis 4.9% on the prior-year figure. The rise was mainly the result of variable remuneration components due to positive business performance as well as a rise in transport and energy costs driven by the oil price, which were successfully passed on to customers. Set against this were the positive effects of the cost-reduction program and exchange rate effects attributable to the performance of the US dollar. Excluding the higher variable remuneration components and the charges to transport and energy costs, costs were successfully reduced compared with the prior-year period as a result of the cost-reduction program.

The Brenntag Group's **operating EBITDA** was up by 11.7% (on a constant currency basis: 16.1%) on the prior-year figure to EUR 770 million in the first half of 2026. The rise was mainly the result of the positive performance at operating gross profit level, which was attributable in particular to higher sales prices and improved margins. The market turmoil caused by the conflict in Iran had a supportive effect here. This led to increased price volatility in the markets for chemical products.

Net expense from special items breaks down as follows:

in EUR m	H1 2026	H1 2025
Expenses for strategy projects	-52	-12
Expenses for legal risks	-15	-15
Loss on the disposal of Raj Petro	–	-10
Other special items	–	-2
Net expense from special items	**-67**	**-39**

in EUR m	Q2 2026	Q2 2025
Expenses for strategy projects	-36	-8
Expenses for legal risks	-10	-10
Loss on the disposal of Raj Petro	–	-10
Other special items	–	–
Net expense from special items	**-46**	**-28**

1.02 Net expense from special items

Expenses for strategy projects amounted to EUR 52 million in the first half of 2026. They mainly include severance and advisory expenses which are helping to achieve the cost-reduction targets.

In the reporting period, expenses of EUR 15 million were recognized for legal risks in connection with the sale of talc and similar products in North America.

Depreciation and impairment of property, plant and equipment and right-of-use assets, and amortization and impairment of intangible assets amounted to EUR 218 million in the first half of 2026 (H1 2025: EUR 305 million).

Net finance costs came to EUR 76 million in the first half of 2026 (H1 2025: EUR 70 million). The year-on-year change was mainly the result of three effects. Net interest expense widened from EUR 70 million to EUR 75 million due primarily to the fact that, in the previous year, the bond maturing in 2025 was refinanced by issuing a bond carrying higher interest rates due to market terms. In addition, an expense was recognized on the measurement of liabilities relating to the acquisition of non-controlling interests, whereas this item had led to income in the first half of 2025. Moreover, income was recognized on the translation of foreign currency receivables and liabilities, whereas this had resulted in an expense in the prior-year period.

Income tax expense increased by EUR 32 million year on year to EUR 128 million due to the rise in profit before tax in the first half of 2026.

Profit after tax stood at EUR 281 million in the first half of 2026 (H1 2025: EUR 179 million).

1.04 Business performance in the reportable segments / Brenntag Specialties

[1] The difference between the sum total of the reportable segments and a particular division is the result of central activities which are part of the division but not directly attributable to any one segment.

Operating gross profit in the Brenntag Specialties division came to EUR 594 million in the first half of 2026, a year-on-year increase of 0.7%. On a constant currency basis, operating gross profit rose by 3.4%. The Life Science segment was roughly in line with the prior-year figure on a constant currency basis. This performance is due to a slight fall in volumes, while operating gross profit per unit rose slightly. The Material Science segment's operating gross profit was up significantly on the prior-year period. The rise is due to a meaningful increase in both volumes and operating gross profit per unit.

Operating EBITDA in the Brenntag Specialties division was up by 6.8% on the prior-year figure to EUR 250 million in the first half of 2026. On a constant currency basis, this represents an increase of 10.2% compared with the prior-year period. While the Life Science segment posted a slight decline in operating EBITDA, the Material Science segment achieved significant growth. The result in the Life Science segment is attributable to the aforementioned performance at operating gross profit level. On a constant currency basis, operating EBITDA rose slightly. In the Material Science segment, the positive trend in operating EBITDA is due mainly to the higher operating gross profit. The savings achieved through the cost-reduction program partly offset inflation-driven increases in costs and higher expenses for variable remuneration components. Overall, however, the trend in costs was above the prior-year level.

Brenntag Essentials

1.05 Business performance in the reportable segments / Brenntag Essentials

[1] The difference between the sum total of the reportable segments and a particular division is the result of central activities which are part of the division but not directly attributable to any one segment.

Operating gross profit in the Brenntag Essentials division came to EUR 1,502 million in the first half of 2026, a year-on-year increase of 7.0%. On a constant currency basis, operating gross profit rose by 11.1%. With the exception of the portfolio-related decline in the APAC segment, all other segments posted a rise in operating gross profit. The positive trend in the EMEA and North America segments is attributable to a meaningful rise in operating gross profit per unit. The Latin America segment showed both moderate growth in volumes and a significant rise in operating gross profit per unit. Although the APAC segment posted a meaningful decline in operating gross profit due to the disposal of a business in the previous year, on an organic basis it showed a significant increase.

Operating EBITDA in the Brenntag Essentials division was up by 13.6% (on a constant currency basis: 18.1%) on the prior-year figure to EUR 574 million in the first half of 2026. On a constant currency basis, all segments posted at least a meaningful rise in operating EBITDA. The EMEA, North America and Latin America segments recorded a meaningful rise in costs due especially to higher transport and energy costs attributable to higher oil prices and costs related to the acquisitions made. The savings achieved through the Group-wide cost-reduction program partly offset these charges and higher expenses for variable remuneration components that arose due to positive business performance. In the APAC segment, costs rose slightly on an organic basis.

Group and Regional Services

In addition to the central functions for the entire Group, “Group and Regional Services” also include the regional service functions and the activities with regard to the digitalization of Brenntag’s business.

Overall, the **operating EBITDA** of “Group and Regional Services” came to EUR – 54 million in the first half of 2026, a decrease of EUR 4 million compared with the prior-year period. Overall, costs before allocations showed a meaningful reduction, which was more than offset by the change in internal cost allocations.

Financial position

Capital structure

The Brenntag Group's financing structure consists of the following instruments (in ascending order according to maturity):

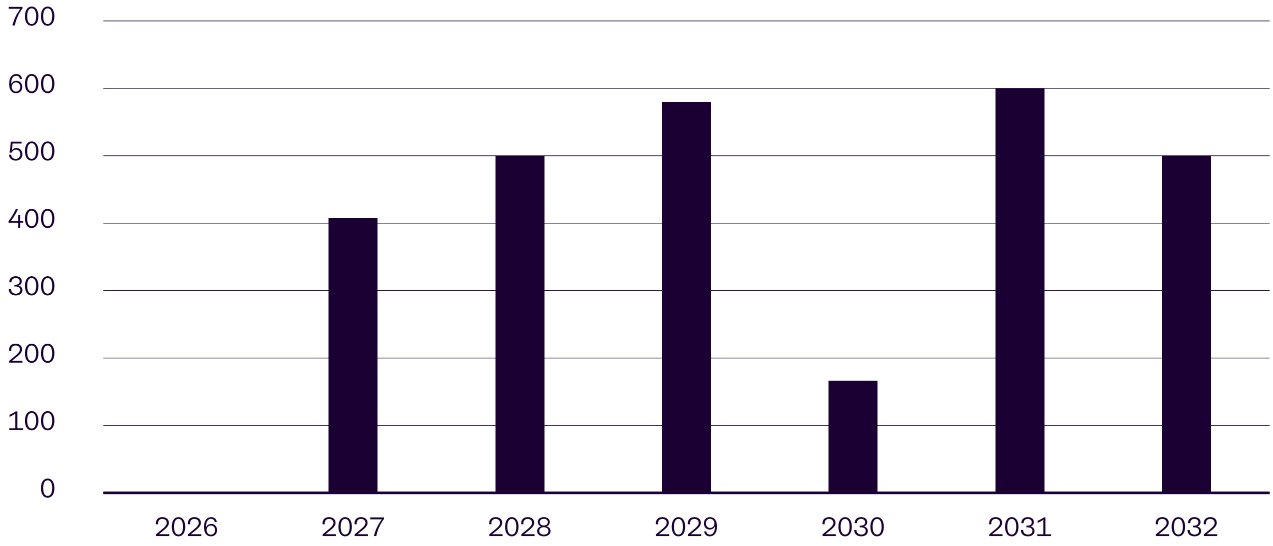
- promissory notes totaling EUR 330 million and USD 180 million (equivalent in euros as at Jun. 30, 2026: EUR 158 million) **(Promissory Notes 2027/2029)**. The outstanding tranches of promissory notes maturing in 2027 and 2029 carry both floating and fixed interest rates;
- a EUR 500 million bond (**Bond 2028**) maturing in 2028 and carrying an annual coupon of 3.750%;
- a EUR 500 million bond (**Bond 2029**) maturing in 2029 and carrying an annual coupon of 0.50%. Most of the proceeds from the Bond 2029 were swapped for US dollars by way of a long-dated derivative (cross-currency interest rate swap);
- a Group-wide syndicated loan agreement (**syndicated loan**). The syndicated loan totaling the equivalent of EUR 1.46 billion originally had a term running until February 2028, which at the beginning of 2024 was initially extended until February 2029 and at the end of 2024 was ultimately extended until February 2030 through two extension options. It comprises two revolving lines of credit – a EUR 1.0 billion line of credit and a USD line of credit totaling USD 525 million (equivalent in euros as at Jun. 30, 2026: EUR 461 million). As at June 30, 2026, total liabilities (excluding accrued interest and before offsetting of transaction costs) amounted to around EUR 166 million, with all drawdowns having been made exclusively under the EUR 1.0 billion credit facility. The USD credit facility, on the other hand, was entirely unutilized as at June 30, 2026;
- a EUR 600 million bond (**Bond 2031**) maturing in 2031 and carrying an annual coupon of 3.375%;
- a EUR 500 million bond (**Bond 2032**) maturing in 2032 and carrying an annual coupon of 3.875%.

In addition to the six above-mentioned financing instruments, some of our companies make use of credit lines with local banks in consultation with the Group management.

Due to the four fixed-rate bonds and the partly fixed-rate promissory notes, approximately 75% of the Brenntag Group's financial liabilities are currently hedged against the risk of interest rate increases.

According to our short- and mid-term financial planning, the capital requirements for operating activities, planned investments and projects, dividends and acquisitions in the size of past practice are expected to be covered by existing cash funds, the cash provided by operating activities and the aforementioned credit facilities. To cover short-term liquidity requirements and for general corporate purposes, we likewise have the aforementioned credit facilities under the syndicated loan. Moreover, Brenntag could meet any additional funding requirements by borrowing on the credit and capital markets.

Maturity profile of the credit portfolio[1)] as at June 30, 2026 in EUR m:



1.06 Maturity profile of the credit portfolio

1) Promissory Notes 2027/2029, Bond 2028, Bond 2029, syndicated loan, Bond 2031 and Bond 2032 excluding accrued interest and transaction costs.

Investments

In the first half of 2026, investments in property, plant and equipment and intangible assets (excluding additions from acquisitions) led to a total cash outflow of EUR 123.0 million (H1 2025: EUR 126.0 million).

We regularly invest in the maintenance, replacement and extension of the infrastructure necessary to perform our services, such as warehouses, offices, trucks and vehicles of our field service. Further investments relate to IT hardware for various systems, digitalization and the expansion of our IT infrastructure. As the market leader and a responsible chemical distributor, we attach importance to ensuring that our property, plant and equipment meet comprehensive health, safety and environmental requirements.

1.07 Cash flow

Net cash provided by operating activities was down significantly on the prior-year figure to EUR 89 million in the first half of 2026. The rise in earnings was accompanied by a significantly higher working capital commitment compared with the previous year, mainly attributable to the growth-driven increase in trade receivables, particularly during the second quarter of 2026.

Of the net cash used in investing activities in the first half of 2026, EUR 123 million comprised payments to acquire intangible assets and property, plant and equipment. Payments to acquire consolidated subsidiaries, other business units and other financial assets related to the acquisition of all shares in Airedale Group based in Keighley, North Yorkshire, UK.

In addition to the dividend payment to Brenntag shareholders, the main drivers of the net cash of EUR 179 million used in financing activities in the first half of 2026 were borrowings and repayments of bank loans and repayments of lease liabilities.

Free cash flow	**4**	**154**	**–150**	**–97.4**

1.08 Free cash flow

The Brenntag Group's free cash flow amounted to EUR 97 million in the first half of 2026, a decrease of EUR 219 million compared with the same period of 2025. This is due especially to the higher rise in working capital.

1.09 Net assets

As at June 30, 2026, total assets had increased by EUR 1,045 million compared with the end of the previous year to EUR 11,671 million (Dec. 31, 2025: EUR 10,626 million). The rise is due largely to the increase in working capital from EUR 1,893 million to EUR 2,412 million and the acquisition of Airedale Group in the UK.

At 7.5, annualized working capital turnover was higher than in financial year 2025 (7.3) and higher than in the first half of 2025 (7.4).

The increase in non-current assets of EUR 295 million compared with the end of the previous financial year to EUR 6,331 million (Dec. 31, 2025: EUR 6,036 million) is due predominantly to the acquisition of Airedale Group.

Overall, net financial liabilities changed as follows compared with the end of the previous year:

in EUR m	Jun. 30, 2026	Dec. 31, 2025
Liabilities under syndicated loan	163	–
Other liabilities to banks	181	114
Promissory notes (Schuldschein)	493	487

Net financial liabilities	**3,100**	**2,528**

1.10 Net financial liabilities

Employees

As at June 30, 2026, Brenntag had a total of 16,942 employees worldwide (Dec. 31, 2025: 17,339). The total number of employees is determined on the basis of headcount, i.e. part-time employees are fully included. By June 30, 2026, 124 employees had joined through companies newly acquired in 2026.

Outlook

The geopolitical environment remains uncertain due to the ongoing Iran war and continues to affect the global chemical distribution industry through sharply increased crude oil and energy prices, which are driving up chemical production and transportation costs. In addition, blocked or highly vulnerable trade routes in the Middle East are causing supply chain disruption and forcing logistical rerouting. Despite these heightened uncertainties, Brenntag has once again demonstrated its ability to maintain reliable supply and has successfully managed disrupted supply chains in a market characterized by significant price volatility.

In light of the current situation, the Brenntag Group expects financial year 2026 to continue to be shaped by muted global economic demand, geopolitical tensions and sustained moderate inflationary pressures into the second half of the year. With hostilities resuming, the latest developments in Iran show once again how unstable the situation is and leave it unclear what response will follow from the countries affected. This continues to result in a greater-than-average degree of uncertainty over global supply chains and growth expectations for the global economy. According to the latest forecast from Oxford Economics, the global economy, measured in terms of industrial production (IP), is expected to grow by 2.4% in 2026. Weighted by the sales generated by Brenntag in the individual countries, this results in a forecast average real IP growth rate of +1.6% in 2026, in line with the IP growth rate forecast at the beginning of the year.

At the beginning of the year, Brenntag expected operating EBITDA for 2026 as a whole to be between EUR 1,150 million and EUR 1,350 million. On June 22, 2026, the Board of Management raised the guidance range for operating EBITDA to EUR 1,250 million to EUR 1,400 million based on the solid performance since the beginning of the year, which is supported by the recent positive price trend. Based on a continuously positive performance at the beginning of the third quarter of 2026, Brenntag now expects full-year operating EBITDA to be between EUR 1,350 million and EUR 1,450 million.

Opportunities and risks

The Brenntag Group companies are exposed to a number of risks arising from their business activities in the field of chemical distribution and related areas. At the same time, these business activities also give rise to numerous opportunities to safeguard and foster the Group's competitiveness and growth.

Periods of economic weakness could negatively impact Brenntag's revenue and gross profit. A further escalation of protectionist tendencies in the United States, high levels of public debt, and inflationary pressure could lead to a significant economic slowdown and, consequently, declining demand in our core markets.

In connection with the sale of talc and similar products, actions have been brought against our North American subsidiaries, against which the Brenntag Group is actively defending itself. Taking into account legal advisory costs, the expense amounted to EUR 15 million in the first half of 2026. The underlying cases are continuously monitored and the provisions adjusted as and when necessary. In addition, Brenntag has taken measures to mitigate the risk and is asserting claims for compensation from third parties. Nevertheless, the possibility that these legal disputes might result in further significant adverse effects on the results of operations cannot be ruled out.

On July 1, 2026, in connection with a case pending before the Düsseldorf Fiscal Court, the General Court of the European Union (GC) ruled that the German provisions applicable to the dispute and governing formal requirements on certain drop shipments subject to alcohol tax regulations were not compatible with EU law, and determined a breach of the proportionality principle under EU law. The decision relates to matters that were the subject of excise tax assessments of Brenntag GmbH resulting in significant additional payments. In its judgment, the GC endorsed Brenntag's legal opinion with regard to the issues covered by the questions submitted. The case was referred back to the Düsseldorf Fiscal Court for a further decision.

Overall, there were no further significant changes for the Brenntag Group in the first half of 2026 compared with the opportunities and risks described in detail in the 2025 combined management report. Risks that we are currently unaware of or that we currently consider immaterial might also negatively impact our business operations. Currently, there are no indications of risks that may jeopardize the continued existence of the company.

Condensed notes

Segment reporting

The Brenntag Group is managed through two global divisions, Brenntag Specialties and Brenntag Essentials.

Brenntag Specialties is managed globally through the Life Science, Material Science and Specialties Other segments. The Life Science segment focuses on selling ingredients and value-added services in the global focus industries Nutrition, Pharma and Beauty & Care. The Material Science segment mainly encompasses business activities in the CASE (Coatings, Adhesives, Sealants, Elastomers), Construction, Polymers and Rubber industries. To a small extent, the Brenntag Specialties portfolio is also augmented by other business activities outside Life Science and Material Science.

Brenntag Essentials markets a broad portfolio of process chemicals across a wide range of industries and applications. The global Brenntag Essentials division comprises the reportable segments EMEA, North America, Latin America and APAC, plus the “Transregional” segment comprising the international operations of BRENNTAG International Chemicals GmbH (BIC), which buys and sells chemicals in bulk on an international scale.

“Group and Regional Services” mainly include the central functions for the entire Group, the regional service functions and the activities with regard to the digitalization of our business.

The following tables show the reconciliation of the global divisions to the Group:

Period from January 1 to June 30 in EUR m	Brenntag Specialties	Brenntag Essentials	Group and Regional Services	Group

2.09 Segment reporting on the global Specialties division H1 2026/2025

[1] Central activities which are part of Brenntag Specialties but not directly attributable to any one segment.
[2] In the course of refining the portfolio allocation in response to market requirements, product allocations and responsibilities between the segments were harmonized. As a result, the operating EBITDA of the global Brenntag Specialties division increased by EUR 8 million in the prior-year period.
[3] Certain items of property, plant and equipment and right-of-use assets are not separable and support both divisions jointly. They have been allocated to a division (depending on the region) and are depreciated there. They are charged to the other division on the basis of fixed and variable monthly amounts.
[4] Segment operating EBITDA is calculated as segment EBITDA adjusted for holding charges and special items.
[5] Segment operating EBITA is calculated as segment EBITA adjusted for holding charges and special items.

Period from April 1 to June 30 in EUR m	Life Science	Material Science	Specialties Other	Central activities[1]	**Brenntag Specialties**

2.13 Reconciliation of operating EBITDA to profit before tax

[1] This figure includes amortization of customer relationships in the amount of EUR 19 million (H1 2025: EUR 11 million).

Expenses for strategy projects amounted to EUR 52 million in the first half of 2026. They mainly include severance and advisory expenses which are helping to achieve the cost-reduction targets.

In the reporting period, expenses of EUR 15 million were recognized for legal risks in connection with the sale of talc and similar products in North America.

General information

Brenntag SE has its registered office at Messeallee 11, 45131 Essen, Germany and is entered in the commercial register at the Essen Local Court under commercial register number HRB 31943.

Consolidation policies and methods

Standards applied

These interim consolidated financial statements for the period from January 1 to June 30, 2026 have been prepared in accordance with the requirements of IAS 34 (Interim Financial Reporting). The Notes are presented in condensed form compared with the Notes to the financial statements as at December 31, 2025.

With the exception of the standards and interpretations that became effective on January 1, 2026, the same accounting policies have been applied as for the consolidated financial statements as at December 31, 2025.

In June 2026, equity-settled share-based awards were granted for the first time due to the new remuneration system resolved upon for the Board of Management at the Annual General Meeting on May 20, 2026. The fair value is determined at the grant date and recognized as an expense in the income statement over the vesting period, with a corresponding increase in equity. The fair value is determined as the price of the underlying shares taking into account dividends, to which there is no entitlement during the vesting period, and – if necessary – market and market-related performance and non-vesting conditions.

The following revised and new standards issued by the International Accounting Standards Board (IASB) have been applied by the Brenntag Group for the first time:

- Amendments to IFRS 9 and IFRS 7: Classification and Measurement of Financial Instruments

The amendments clarify that a financial liability is generally derecognized on the settlement date. If the liability is settled using an electronic payment system, it may in certain circumstances be derecognized before the settlement date.

In addition, the application guidance on how an entity assesses the contractual cash flow characteristics criterion in determining the measurement categories of financial assets has been extended, and further disclosures have been introduced for financial instruments with contingent cash flows and equity instruments measured at fair value through other comprehensive income.

- Amendments to IFRS 9 and IFRS 7: Contracts Referencing Nature-dependent Electricity

The changes affect the following:

Own use exemption: The exemption will be extended for contracts for the physical delivery of nature-dependent electricity, provided certain conditions are met, particularly in relation to sales of unused electricity.

Hedge accounting: It will also be possible to include variable volumes of expected purchases and sales of nature-dependent electricity in the hedged item, provided certain conditions are met.

Disclosures: Extended disclosure requirements are provided for contracts within the scope of these amendments.

- Annual Improvements to IFRSs Volume 11

The annual improvements to IFRSs contain a number of minor amendments to various standards that are intended to clarify the content of the standards and eliminate any existing inconsistencies.

The standard amendments outlined above do not have a material impact on the presentation of the Group's net assets, financial position and results of operations.

Initial application in 2027

IFRS 18: Presentation and Disclosure in Financial Statements

Based on the current status of analysis, the initial application of IFRS 18 at January 1, 2027 is expected to affect the structure of the consolidated income statement in particular, with the Group's comprehensive income remaining unchanged. No specified main business activities were identified within the Brenntag Group, as a result of which the IFRS 18 requirements in this regard will not be applied if circumstances remain unchanged at the date of initial application of IFRS 18. Applying IFRS 18 results, among other things, in changes when classifying certain items of income and expense into the categories in the income statement. For example, currency translation effects and effects arising on the measurement of derivatives, which until now in the Brenntag Group have been presented in full within net finance income/costs, will in future be partly classified into the operating category, the investing category or the income taxes category. Income from cash investments will in future be presented in the investing category; until now, it has been a component of net finance income/costs. Income from leases where Group companies are the lessor will also be classified into the investing category in future. Until now, this income has been included in operating profit.

IFRS 18 will also affect the consolidated cash flow statement. The newly introduced "operating profit" subtotal in the income statement will in future provide the starting point for calculating cash flows from operating activities under the indirect method, rather than the profit after tax subtotal used thus far. In addition, the removal of presentation alternatives will result in the following changes in the Brenntag Group's cash flow statement: Interest and dividends received will in future be presented within cash flows from investing activities, and interest paid within cash flows from financing activities. These items are currently presented within cash flows from operating activities. The effects of the additional disclosure requirements for management-defined performance measures and the provisions governing the aggregation and disaggregation of information contained in the consolidated financial statements are also being examined.

Scope of consolidation

The table below shows the changes in the number of consolidated companies including structured entities:

	Dec. 31, 2025	Additions	Disposals	Jun. 30, 2026
Domestic consolidated companies	27	–	–	27
Foreign consolidated companies	209	5	8	206
Total consolidated companies	**236**	**5**	**8**	**233**

2.14 Changes in scope of consolidation

Four (Dec. 31, 2025: four) associates are accounted for using the equity method.

In financial year 2022, the Board of Management of Brenntag SE decided to halt the business operations of all Brenntag companies in Russia and Belarus until further notice due to the war in Ukraine. As at June 30, 2026, Brenntag still reported cash and cash equivalents of EUR 6 million in Russia (of which EUR 6 million in US dollars) which were only available to Brenntag for cross-border transfers subject to the applicable restrictions on foreign exchange transactions. As at December 31, 2025, the cash and cash equivalents of the Brenntag company in Russia amounted to EUR 6 million.

Business combinations in accordance with IFRS 3

At the end of February 2026, Brenntag closed the acquisition of 100% of the shares in Airedale Group, a UK-based chemical distributor and added-value services provider. The acquisition complements and develops Brenntag UK's service offering and expertise by adding blending, formulation and dilution capabilities. Airedale Group operates a facility in the UK which will complement Brenntag's British infrastructure and enhance its product portfolio and service offering in the region.

The purchase price, net assets and goodwill relating to this business combination break down as follows:

in EUR m	Provisional fair value
Purchase price	**98**
of which consideration contingent on earnings targets	2
Assets	
Cash and cash equivalents	4
Trade receivables, current financial assets and other receivables	14
Other current assets	5
Non-current assets	12
Liabilities	
Current liabilities	73
Non-current liabilities	2
Net assets	**-40**
of which Brenntag's share	-40
Goodwill	**138**
of which deductible for tax purposes	–

2.15 Net assets acquired in 2026

Measurement of the assets acquired and liabilities assumed (among others customer relationships and deferred taxes) has not yet been completed for reasons of time. The main factors determining the goodwill are the above-mentioned reasons for the acquisition where not included in other assets. There are no material differences between the gross amount and carrying amount of the receivables.

Acquisition-related costs in the amount of EUR 2 million were recognized under other operating expenses.

Since their acquisition by Brenntag, the entities acquired in 2026 have generated sales of EUR 32 million and profit after tax of EUR 2 million.

In the case of an acquisition with effect from January 1, 2026, sales of about EUR 7,939 million would have been reported for the Brenntag Group in the reporting period. Profit after tax would have been about EUR 283 million.

Measurement of the assets and liabilities from the acquisition in financial year 2025 of mcePharma a.s. headquartered in Bílovec, Czech Republic, and Gefahrstoffzentrum (GSZ) Kaiserslautern GmbH, Kaiserslautern, has been completed.

As a result of measurement-period adjustments, goodwill from entities acquired in 2025 decreased by a total of EUR 32 million. The change is due mainly to the recognition of customer relationships at Chem Tech Services, Inc., based in Levelland, Texas, U.S.

Total	**-81**	**-76**

2.17 Interest expense

3.) Change in liabilities relating to acquisition of non-controlling interests recognized in profit or loss

in EUR m	Jan. 1– Jun. 30, 2026	Jan. 1– Jun. 30, 2025
Change in liabilities relating to acquisition of non-controlling interests recognized in profit or loss	-2	4
Change in liabilities recognized in profit or loss arising from limited partners' rights to repayment of contributions	-1	-1
Total	**-3**	**3**

2.18 Change in liabilities relating to acquisition of non-controlling interests recognized in profit or loss

For further information, please refer to Note 13.).

4.) Loss on the net monetary position

The inflation effect on non-monetary items resulted in a loss on the net monetary position of EUR 3 million for the first half of financial year 2026 (H1 2025: loss of EUR 4 million).

5.) Income tax expense

Income tax expense comprises current tax expense of EUR 134 million (H1 2025: current tax expense of EUR 89 million) and deferred tax income of EUR 6 million (H1 2025: deferred tax expense of EUR 7 million).

Tax expense for the first half of 2026 was calculated using the Group tax rate expected for financial year 2026. Any items of income and expense that cannot be planned with sufficient accuracy are disregarded when determining the expected Group tax rate and calculating tax expense.

	Jan. 1–Jun. 30, 2026			Jan. 1–Jun. 30, 2025		
in EUR m	Profit before tax	Tax rate in %	Income tax expense	Profit before tax	Tax rate in %	Income tax expense
excluding tax-neutral income / expenses that cannot be planned with sufficient accuracy	411	31.2	128	271	35.6	96
tax-neutral income / expenses that cannot be planned with sufficient accuracy	-2	–	–	4	–	–
including tax-neutral income / expenses that cannot be planned with sufficient accuracy	409	31.4	128	275	35.0	96

2.19 Profit before tax after elimination of tax-neutral income / expenses that cannot be planned with sufficient accuracy

6.) Earnings per share

Basic earnings per share in the amount of EUR 1.92 (H1 2025: EUR 1.23) are determined by dividing the share of profit after tax of EUR 277 million (H1 2025: EUR 177 million) attributable to the shareholders of Brenntag SE by the average weighted number of outstanding shares. The average weighted number of outstanding shares was 144 million in the first half of 2026 (H1 2025: 144 million).

The equity-settled share-based awards first granted in June 2026 are settled through repurchased treasury shares. This has no dilutive effect on earnings per share, as the repurchase reduces the number of outstanding shares, counteracting any dilution.

in EUR m	Jan. 1 – Jun. 30, 2026	Jan. 1 – Jun. 30, 2025	Apr. 1 – Jun. 30, 2026	Apr. 1 – Jun. 30, 2025
Share of profit after tax attributable to Brenntag SE shareholders	277	177	179	42
Number of Brenntag SE shares	144	144	144	144
Basic earnings per share	**1.92**	**1.23**	**1.23**	**0.30**
Diluted earnings per share	**1.92**	**1.23**	**1.23**	**0.30**

2.20 Diluted earnings per share

7.) Assets held for sale and liabilities associated with those assets

Non-current assets held for sale comprise property, plant and equipment held for sale totaling EUR 8 million (Dec. 31, 2025: EUR 8 million).

8.) Property, plant and equipment

Property, plant and equipment rose by EUR 36 million to EUR 1,677 million (Dec. 31, 2025: EUR 1,641 million). The change in property, plant and equipment is due mainly to other additions of EUR 102 million, foreign exchange gains of EUR 30 million and acquisitions of EUR 14 million, which were set against depreciation/impairment of EUR 108 million.

9.) Intangible assets

Intangible assets rose by EUR 204 million to EUR 3,870 million (Dec. 31, 2025: EUR 3,666 million). The change in intangible assets is due mainly to acquisitions of EUR 147 million, foreign exchange gains of EUR 78 million and other additions of EUR 12 million, which were set against amortization/impairment of EUR 33 million.

10.) Financial liabilities

in EUR m	Jun. 30, 2026	Dec. 31, 2025
Liabilities under syndicated loan	163	–
Other liabilities to banks	181	114
Promissory notes (Schuldschein)	493	487
Bond 2028	502	511
Bond 2029	500	499
Bond 2031	610	599
Bond 2032	499	509
Derivative financial instruments	20	9
Other financial liabilities	53	57
Total	**3,021**	**2,785**
Lease liabilities	588	541
Cash and cash equivalents	–509	–798
Net financial liabilities	**3,100**	**2,528**

2.21 Determination of net financial liabilities

11.) Other provisions

Other provisions break down as follows:

in EUR m	Jun. 30, 2026	Dec. 31, 2025
Environmental provisions	107	106
Provisions for personnel expenses	43	35
Provisions for compensation payable, legal proceedings and disputes	169	159
Miscellaneous provisions	36	34
Total	**355**	**334**

2.22 Other provisions

12.) Provisions for pensions and other post-employment benefits

In the interim consolidated financial statements as at June 30, 2026, the present value of pension obligations was determined using a discount rate of 4.1% (Dec. 31, 2025: 4.0%) in Germany and the other countries of the euro zone, 1.3% (Dec. 31, 2025: 1.3%) in Switzerland and 4.7% (Dec. 31, 2025: 4.9%) in Canada.

As at June 30, 2026, there were no significant changes in provisions for pensions and other post-employment benefits recognized directly in retained earnings due to the remeasurement of defined benefit plans. The positive effects resulting from the increase in the discount rate in the euro zone were of minor significance overall. Net of deferred taxes, actuarial gains and losses recognized in other comprehensive income remained almost unchanged.

13.) Liabilities relating to acquisition of non-controlling interests

Liabilities relating to the acquisition of non-controlling interests break down as follows:

in EUR m	Jun. 30, 2026	Dec. 31, 2025
Liabilities relating to acquisition of non-controlling interests	44	41
Liabilities arising from limited partners' rights to repayment of contributions	2	2
Total	**46**	**43**

2.23 Liabilities relating to acquisition of non-controlling interests

Liabilities relating to the acquisition of non-controlling interests have been partly included in net investment hedge accounting. Exchange rate-related changes in the liabilities included in net investment hedge accounting are recognized within equity in the net investment hedge reserve.

14.) Equity

As proposed by the Board of Management and the Supervisory Board, the Annual General Meeting of Brenntag SE on May 20, 2026 passed a resolution to pay a dividend of EUR 274 million. Based on 144 million shares, that is a dividend of EUR 1.90 per no-par value share entitled to a dividend.

Foreign exchange gains of EUR 113 million recognized in the first half of 2026 (H1 2025: foreign exchange losses of EUR 392 million) resulted primarily from the appreciation of the US dollar and the Chinese yuan against the euro. Exchange rate differences include the inflation effect on equity of EUR 5 million attributable to hyperinflation in Türkiye (H1 2025: EUR 5 million).

Non-controlling interests comprise the shares of non-Group shareholders in the equity of consolidated entities.

Overall, non-controlling interests changed as follows:

in EUR m	Subscribed capital, retained earnings and additional paid-in capital	Exchange rate differences	Non-controlling interests
Dec. 31, 2024	**35**	**–**	**35**
Dividends	–2	–	–2
Profit after tax	2	–	2
Other comprehensive income, net of tax	–	–4	–4
Total comprehensive income for the period	**2**	**–4**	**–2**
Jun. 30, 2025	**35**	**–4**	**31**

2.24 Change in non-controlling interests / Jun. 30, 2025

in EUR m	Subscribed capital, retained earnings and additional paid-in capital	Exchange rate differences	Non-controlling interests
Dec. 31, 2025	**39**	**–4**	**35**
Dividends	–2	–	–2
Profit after tax	4	–	4
Other comprehensive income, net of tax	–	1	1
Total comprehensive income for the period	**4**	**1**	**5**
Jun. 30, 2026	**41**	**–3**	**38**

2.25 Change in non-controlling interests / Jun. 30, 2026

15.) Consolidated cash flow statement disclosures

Net cash provided by operating activities was down significantly on the prior-year figure to EUR 89 million in the first half of 2026. The rise in earnings is set against a substantial year-on-year increase in funds tied up in working capital due in particular to the rise in receivables.

Of the net cash used in investing activities in the first half of 2026, EUR 123 million comprised payments to acquire intangible assets and property, plant and equipment. Payments to acquire consolidated subsidiaries and other business units relate to the acquisition of all shares in Airedale Group based in Keighley, North Yorkshire, United Kingdom.

In addition to the dividend payment to Brenntag shareholders, the main drivers of the net cash of EUR 179 million used in financing activities in the first half of 2026 were borrowings and repayments of bank loans and repayments of lease liabilities.

16.) Legal proceedings and disputes

In connection with the sale of talc and similar products, actions have been brought against our North American subsidiaries, against which the Brenntag Group is actively defending itself. Taking into account legal advisory costs, the expense amounted to EUR 15 million in the first half of 2026. The underlying cases are continuously monitored and the provisions adjusted as and when necessary. In addition, Brenntag has taken measures to mitigate the risk and is asserting claims for compensation from third parties. Nevertheless, the possibility that these legal disputes might result in further significant adverse effects on the results of operations cannot be ruled out.

On July 1, 2026, in connection with a case pending before the Düsseldorf Fiscal Court, the General Court of the European Union (GC) ruled that the German provisions applicable to the dispute and governing formal requirements on certain drop shipments subject to alcohol tax regulations were not compatible with EU law, and determined a breach of the proportionality principle under EU law. The decision relates to matters that were the subject of excise tax assessments of Brenntag GmbH resulting in significant additional payments. In its judgment, the GC endorsed Brenntag’s legal opinion with regard to the issues covered by the questions submitted. The case was referred back to the Düsseldorf Fiscal Court for a further decision.

Overall, there were no further significant changes for the Brenntag Group in the first half of 2026 compared with the opportunities and risks described in detail in the 2025 combined management report. Risks that we are currently unaware of or that we currently consider immaterial might also negatively impact our business operations. Currently, there are no indications of risks that may jeopardize the continued existence of the company.

17.) Reporting of financial instruments

The classification and measurement of the financial assets recognized in the balance sheet are shown in the table below:

in EUR m	Jun. 30, 2026			
Classes of financial assets	At amortized cost	FVTPL[1]	Total carrying amount	Fair value
Cash and cash equivalents	509	–	509	509
Trade receivables	2,729	–	2,729	2,729
Other receivables	116	–	116	116
Other financial assets	10	13	23	23
Total	**3,364**	**13**	**3,377**	**3,377**

2.26 Classification of financial assets by measurement category / Jun. 30, 2026

[1] Financial assets at fair value through profit or loss.

in EUR m	Dec. 31, 2025			
Classes of financial assets	At amortized cost	FVTPL[1]	Total carrying amount	Fair value
Cash and cash equivalents	798	–	798	798
Trade receivables	2,040	–	2,040	2,040
Other receivables	105	–	105	105
Other financial assets	18	13	31	31
Total	**2,961**	**13**	**2,974**	**2,974**

2.27 Classification of financial assets by measurement category / Dec. 31, 2025

[1] Financial assets at fair value through profit or loss.

The majority of the financial assets measured at amortized cost have remaining terms of one year or less. Their carrying amounts at the reporting date approximate their fair values. Of the other receivables recognized in the balance sheet, EUR 262 million (Dec. 31, 2025: EUR 190 million) are excluded from the scope of IFRS 7. They are mainly receivables from value-added tax and other taxes, prepaid expenses and prepayments.

The classification and measurement of the financial liabilities recognized in the balance sheet are shown in the table below:

in EUR m	Jun. 30, 2026			
Classes of financial liabilities	At amortized cost	FVTPL[1]	Total carrying amount	Fair value
Trade payables	1,970	–	1,970	1,970
Other liabilities	219	–	219	219
Liabilities relating to acquisition of non-controlling interests	46	–	46	45
Financial liabilities	2,998	23	3,021	2,971
Total	**5,233**	**23**	**5,256**	**5,205**

2.28 Classification of financial liabilities by measurement category / Jun. 30, 2026

[1] Financial liabilities at fair value through profit or loss.

in EUR m	Dec. 31, 2025			
Classes of financial liabilities	At amortized cost	FVTPL[1]	Total carrying amount	Fair value
Trade payables	1,498	–	1,498	1,498
Other liabilities	215	–	215	215
Liabilities relating to acquisition of non-controlling interests	42	–	42	43
Financial liabilities	2,774	11	2,785	2,726
Total	**4,529**	**11**	**4,540**	**4,482**

2.29 Classification of financial liabilities by measurement category / Dec. 31, 2025

[1] Financial liabilities at fair value through profit or loss.

The majority of the trade payables and other liabilities measured at amortized cost have remaining terms of one year or less. Their carrying amounts at the reporting date therefore approximate their fair values. The fair values of the bonds measured at amortized cost under financial liabilities were determined using quoted or market prices in an active market (Level 1 of the fair value hierarchy). The fair values of the other financial liabilities measured at amortized cost were determined using the discounted cash flow method on the basis of inputs observable on the market (Level 2 of the fair value hierarchy). The liabilities relating to the acquisition of non-controlling interests were determined on the basis of recognized company valuation models. The company valuation models are based on cash flow plans (Level 3 of the fair value hierarchy). The fair values of foreign exchange forwards and foreign exchange swaps are determined by comparing forward rates and discounted to present value (Level 2 of the fair value hierarchy).

The fair value of the cross-currency interest rate swaps is determined in two steps. First, the expected future cash flows are discounted using maturity-matched market interest rates according to the currency. In the second step, the cash flows discounted in foreign currency (US dollar) are then translated into the reporting currency (EUR) at market exchange rates (Level 2 of the fair value hierarchy). As at June 30, 2026, the cross-currency interest rate swaps had a fair value of EUR – 14 million (Dec. 31, 2025: EUR – 3 million).

The value of a call option to acquire non-controlling interests is calculated from the intrinsic value and the time value of the option. The intrinsic value of the call option is calculated as the difference between the enterprise value and the strike price. The time value reflects the optionality of movements in the future strike price and the future enterprise value of the non-controlling interests. This is illustrated by way of a Monte Carlo simulation and the fair value of the call option then determined (Level 3 of the fair value hierarchy).

Of the other liabilities recognized in the balance sheet, EUR 405 million (Dec. 31, 2025: EUR 281 million) are excluded from the scope of IFRS 7. They are mainly liabilities to employees, liabilities from value-added tax and other taxes, as well as deferred income.

The allocation of the financial assets and liabilities recognized in the balance sheet at fair value to the levels of the IFRS 13 fair value hierarchy is shown in the table below:

in EUR m				
Hierarchy level	Level 1	Level 2	Level 3	**Jun. 30, 2026**
Financial assets at fair value through profit or loss	1	3	9	**13**
Financial liabilities at fair value through profit or loss	–	20	3	**23**

2.30 Financial instruments according to fair value hierarchy / Jun. 30, 2026

in EUR m				
Hierarchy level	Level 1	Level 2	Level 3	**Dec. 31, 2025**
Financial assets at fair value through profit or loss	1	1	10	**12**
Financial liabilities at fair value through profit or loss	–	9	2	**11**

2.31 Financial instruments according to fair value hierarchy / Dec. 31, 2025

Liabilities resulting from contingent consideration arrangements of EUR 3 million (Dec. 31, 2025: EUR 2 million) relate to liabilities for contingent purchase prices payable in business combinations. The amount of the contingent purchase price component required to be recognized at fair value is contingent on the earnings achieved by the acquired business and is limited in both the lower (EUR 0 million) and the upper (EUR 14 million) range.

Liabilities resulting from contingent consideration arrangements changed as follows:

in EUR m	**2026**	**2025**
Jan. 1	2	2
Transfers	-1	–
Business combinations	2	–
Payments	–	-1
Jun. 30	**3**	**1**

2.32 Change in liabilities resulting from contingent consideration arrangements

The call option to acquire non-controlling interests was recognized in the amount of EUR 9 million (Dec. 31, 2025: EUR 10 million) on the basis of the mean of the Monte Carlo simulations. The minimum is EUR 0 million (Dec. 31, 2025: EUR 0 million) and the maximum EUR 30 million (Dec. 31, 2025: EUR 35 million).

Responsibility statement

To the best of our knowledge, and in accordance with the applicable reporting principles for interim financial reporting, the interim consolidated financial statements give a true and fair view of the assets, liabilities, financial position and profit or loss of the Group, and the interim management report of the Group includes a fair review of the development and performance of the business and the position of the Group, together with a description of the material opportunities and risks associated with the expected development of the Group in the remaining months of the financial year.

Essen, August 11, 2026

Brenntag SE
BOARD OF MANAGEMENT

Jens Birgersson Thomas Reisten

Review report

We have reviewed the condensed interim consolidated financial statements, which comprise the statement of financial position, the statement of profit and loss and other comprehensive income, the statement of cash flows, the statement of changes in equity as well as selected explanatory notes, and the interim group management report of Brenntag SE, Essen, for the period from 1 January to 30 June 2026, that are part of the half-year financial information under Section 115 German Securities Trading Act (WpHG). The preparation of the condensed interim consolidated financial statements in accordance with the IFRS® Accounting Standards issued by the International Accounting Standards Board (IFRS Accounting Standards) applicable to interim financial reporting, as adopted by the EU, and of the interim group management report in accordance with the requirements of the WpHG applicable to interim group management reports is the responsibility of the executive directors of the Company. Our responsibility is to issue a review report on the condensed interim consolidated financial statements and on the interim group management report based on our review.

We conducted our review of the condensed interim consolidated financial statements and of the interim group management report in compliance with the German Generally Accepted Standards for Reviews of Financial Statements promulgated by the Institut der Wirtschaftsprüfer (IDW) and in supplementary compliance with the International Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. Those standards require that we plan and perform the review to obtain a certain level of assurance to preclude through critical evaluation that the condensed interim consolidated financial statements have not been prepared, in material respects, in accordance with the IFRS Accounting Standards applicable to interim financial reporting, as adopted by the EU, or that the interim group management report has not been prepared, in material respects, in accordance with the requirements of the WpHG applicable to interim group management reports. A review is limited primarily to inquiries of company personnel and to analytical procedures applied to financial data and thus provides less assurance than an audit. Since, in accordance with our engagement, we have not performed an audit, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements of Brenntag SE, Essen, have not been prepared, in material respects, in accordance with the IFRS Accounting Standards applicable to interim financial reporting, as adopted by the EU, or that the interim group management report has not been prepared, in material respects, in accordance with the requirements of the WpHG applicable to interim group management reports.
