Forward-looking statements and use of non-GAAP financial measures

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statement that does not describe historical or current facts is a forward-looking statement. These statements often include the words “believes,” “expects,” “anticipates,” “estimates,” “intends,” “plans,” “goals,” “targets,” “initiatives,” “potentially,” “probably,” “projects,” “outlook,” “hopeful,” “guidance” or similar expressions or future conditional verbs such as “may,” “will,” “should,” “would,” and “could.”

Forward-looking statements are based upon the current beliefs and expectations of management, and on information currently available to management. Our statements speak as of the date hereof, and we do not assume any obligation to update these statements or to update the reasons why actual results could differ from those contained in such statements in light of new information or future events. We caution you, therefore, against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. While there is no assurance that any list of risks and uncertainties or risk factors is complete, important factors that could cause actual results to differ materially from those in the forward-looking statements include the following, without limitation:

- Negative economic, business and political conditions, including as a result of the interest rate environment, supply chain disruptions, inflationary pressures and labor shortages, that adversely affect the general economy, housing prices, the job market, consumer confidence and spending habits;
- The general state of the economy and employment, as well as general business and economic conditions, and changes in the competitive environment;
- Our capital and liquidity requirements under regulatory standards and our ability to generate capital and liquidity on favorable terms;
- The effect of changes in our credit ratings on our cost of funding, access to capital markets, ability to market our securities, and overall liquidity position;
- The effect of changes in the level of commercial and consumer deposits on our funding costs and net interest margin;
- Our ability to implement our business strategy, including the cost savings and efficiency components, and achieve our financial performance goals, including the anticipated benefits of the Investors acquisition and HSBC transaction;
- The effects of geopolitical instability, including as a result of Russia’s invasion of Ukraine and the imposition of sanctions on Russia and other actions in response, on economic and market conditions, inflationary pressures and the interest rate environment, commodity price and foreign exchange rate volatility, and heightened cybersecurity risks;
- Our ability to meet heightened supervisory requirements and expectations;
- Liabilities and business restrictions resulting from litigation and regulatory investigations;
- The effect of changes in interest rates on our net interest income, net interest margin and our mortgage originations, mortgage servicing rights and mortgages held for sale;
- Changes in interest rates and market liquidity, as well as the magnitude of such changes, which may reduce interest margins, impact funding sources and affect the ability to originate and distribute financial products in the primary and secondary markets;
- Financial services reform and other current, pending or future legislation or regulation that could have a negative effect on our revenue and businesses;
- Environmental risks, such as physical or transitional risks associated with climate change, and social and governance risks, that could adversely affect our reputation, operations, business, and customers;
- A failure in or breach of our operational or security systems or infrastructure, or those of our third-party vendors or other service providers, including as a result of cyber-attacks; and
- Management’s ability to identify and manage these and other risks.

In addition to the above factors, we also caution that the actual amounts and timing of any future common stock dividends or share repurchases will be subject to various factors, including our capital position, financial performance, capital impacts of strategic initiatives, market conditions, and regulatory considerations, as well as any other factors that our Board of Directors deems relevant in making such a determination. Therefore, there can be no assurance that we will repurchase shares from or pay any dividends to holders of our common stock, or as to the amount of any such repurchases or dividends.

More information about factors that could cause actual results to differ materially from those described in the forward-looking statements can be found in the “Risk Factors” section in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 as filed with the Securities and Exchange Commission.

Non-GAAP Financial Measures:

This document contains non-GAAP financial measures denoted as Underlying. Underlying results for any given reporting period exclude certain items that may occur in that period which Management does not consider indicative of the Company’s on-going financial performance. We believe these non-GAAP financial measures provide useful information to investors because they are used by our Management to evaluate our operating performance and make day-to-day operating decisions. In addition, we believe our Underlying results in any given reporting period reflect our on-going financial performance in that period and, accordingly, are useful to consider in addition to our GAAP financial results. We further believe the presentation of Underlying results increases comparability of period-to-period results. The Appendix presents reconciliations of our non-GAAP measures to the most directly comparable GAAP financial measures.

Other companies may use similarly titled non-GAAP financial measures that are calculated differently from the way we calculate such measures. Accordingly, our non-GAAP financial measures may not be comparable to similar measures used by such companies. We caution investors not to place undue reliance on such non-GAAP financial measures, but to consider them with the most directly comparable GAAP measures. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for our results reported under GAAP.

Commentary

- CFG performance reflects solid Legacy Core results, investment in Private Bank and impact from Non-Core
- Private Bank expected to reach breakeven in 2H24 and achieve ~5% EPS accretion in 2025
- Non-Core ran down $1.4 billion in Q3 and targeting ~$9 billion rundown by YE2025

See pages 32-33 for notes and important information on Non-GAAP Financial Measures, including “Underlying” results. “Underlying” results exclude the impact of notable items described on page 31.

Overview[1]

3Q23: Quarter highlights

- Underlying EPS of $0.89 and ROTCE of 12.5%; includes $(0.05) for the Private Bank start-up investment and $(0.14) impact from the Non-Core portfolio
- Underlying PPNR of $743 million, with lower NII and fees, and expenses up slightly including the Private Bank start-up investment
  - NII down 4% QoQ given lower NIM and slightly lower average interest-earning assets
  - Fees down 3% QoQ reflecting Capital Markets deal slippage into Q4
  - Underlying efficiency ratio of 63.1% compares with 58.9% at 2Q23 and 54.9% at 3Q22
    - 61.4% excluding Private Bank start-up investment
- Strong CET1 ratio of 10.4%[2]; repurchased $250 million in common shares
- Period-end LDR of 84%

Refining and strengthening the balance sheet in a strategic fashion

- Executing Non-Core strategy to run off non-strategic lending and high-cost funding
  - $1.4 billion of Non-Core loan portfolio run off in 3Q23
  - $3.2 billion of auto-collateralized funding at September 30, 2023
- Cash and securities further strengthened, up ~$4 billion QoQ
- Strong capital and liquidity metrics position us well for changing regulatory environment
- Continue to be well reserved for credit issues: ACL 1.55% vs. ~1.3% pro forma day one CECL
  - General Office reserve of 9.5% at September 30, 2023

Well positioned for medium-term relative outperformance through strategic initiatives

- Focus on driving attractive new relationships and existing customer primacy/deepening
- Well positioned in NYC metro to gain market share; performance tracking well
- Citizens Private Bank established to build Wealth presence; ~$500 million of deposit and investments brought in during 3Q soft launch
- TOP 8 program expected to deliver ~$115 million run rate benefit by YE2023; TOP 9 in process of launch; targeting flat 2024 Underlying expenses

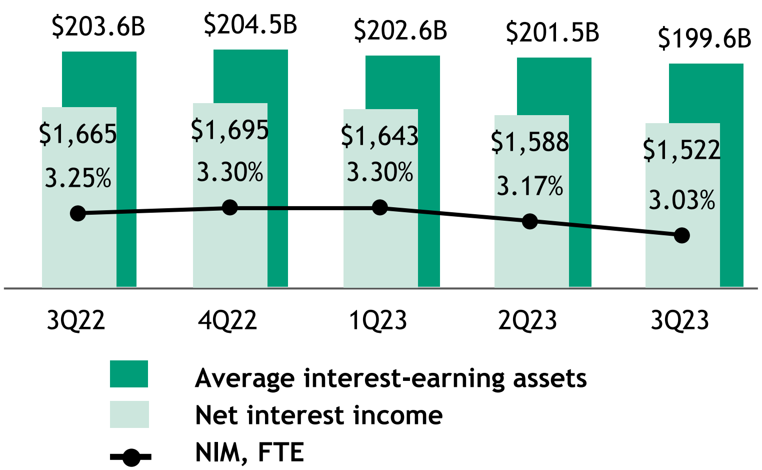
Net interest income

NII and NIM

$s in millions, except earning assets



Linked Quarter

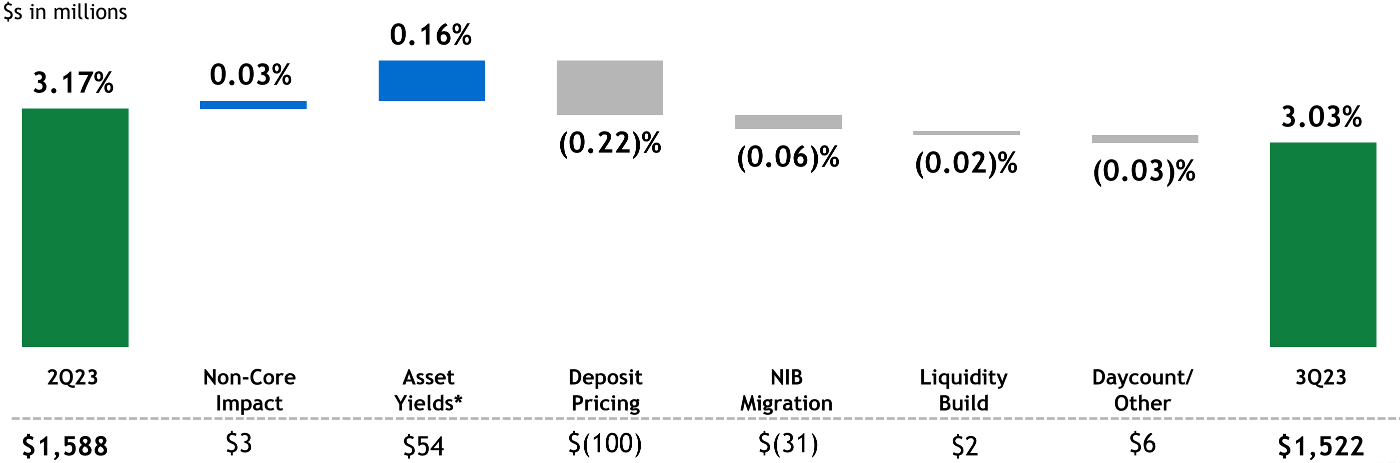
- NII down 4%, as expected, given lower NIM and slightly lower interest-earning assets, partly offset by higher day count
  - NIM of 3.03% decreased 14 bps, primarily driven by higher funding costs partially offset by higher earning-asset yields and Non-Core portfolio run off
  - Interest-earning asset yields up 13 bps to 5.13%
  - Interest-bearing deposit costs up 39 bps to 260 bps; well-controlled cumulative beta of 48%

Rate sensitivity

- Neutral impact to NII over the next 12 months with a gradual 200 bp increase in rates above forward curve

NIM & NII walk from 2Q23 to 3Q23

$s in millions



*Excludes impacts from non-core run-off and liquidity build

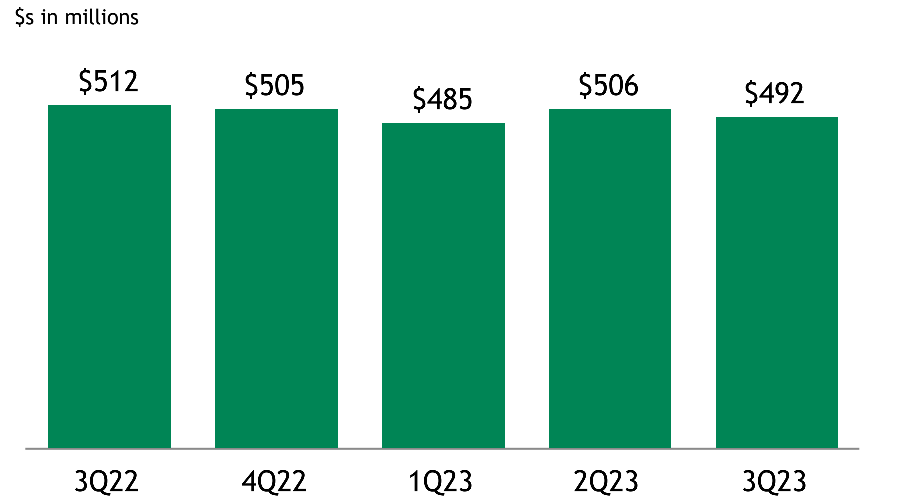
Noninterest income, reported	$ 492	$ 506	$ 512	$ (14)	$ (20)

Linked Quarter

- Noninterest income decreased 3%
  - Service charges and fees increased $4 million reflecting lower consumer cash balances
  - Capital markets fees decreased $15 million as several M&A deals pushed into Q4
  - Card fees decreased $6 million, primarily reflecting lower balance transfer fees
  - Mortgage banking fees increased $10 million, driven by higher MSR valuation
  - Trust and investment services fees decreased $2 million, reflecting lower annuity sales
  - FX and derivative products revenue increased $4 million, reflecting strength in commodities hedging

Noninterest income



Year-Over-Year

- Noninterest income decreased 4%
  - Service charges and fees decreased $4 million, reflecting the elimination of non-sufficient funds fees in Consumer
  - Capital markets fees decreased $22 million, given lower M&A advisory and underwriting fees, partially offset by higher loan syndication fees
  - Card fees increased $3 million, reflecting higher transaction volumes
  - Mortgage banking fees increased $3 million, driven by higher MSR valuation
  - FX and derivative products revenue increased $6 million, reflecting increased client activity in interest rate products and commodities hedging

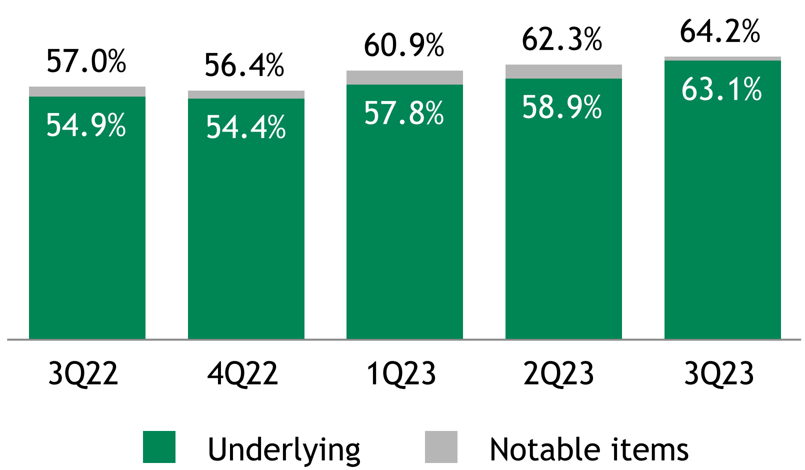
Efficiency ratio



Linked Quarter

- Underlying noninterest expense up $38 million QoQ; broadly stable excluding $35 million in expense related to the Private Bank start-up investment
  - Reflects an increase in salaries and employee benefits, driven by the Private Bank start-up investment
  - Equipment and software increased given technology-related investments
  - Other operating expense decreased reflecting lower advertising spend

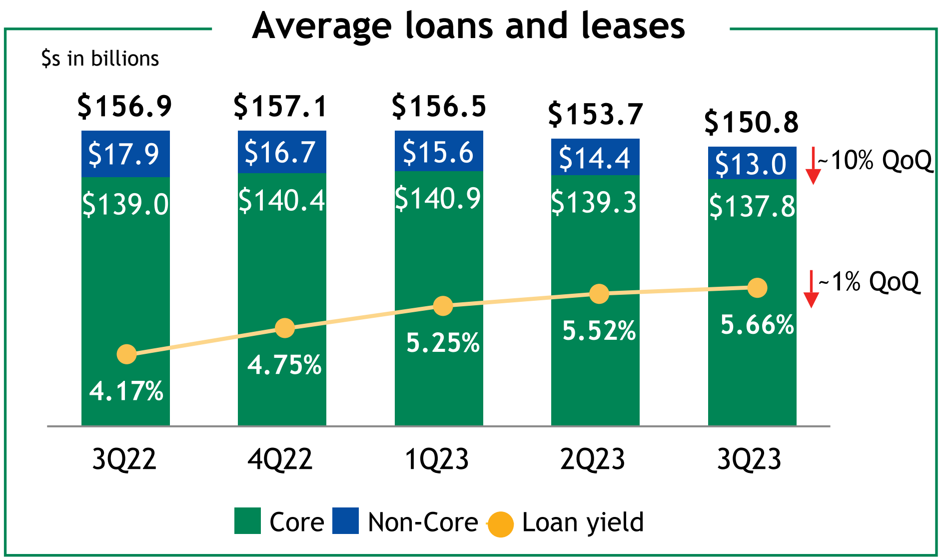
Year-Over-Year

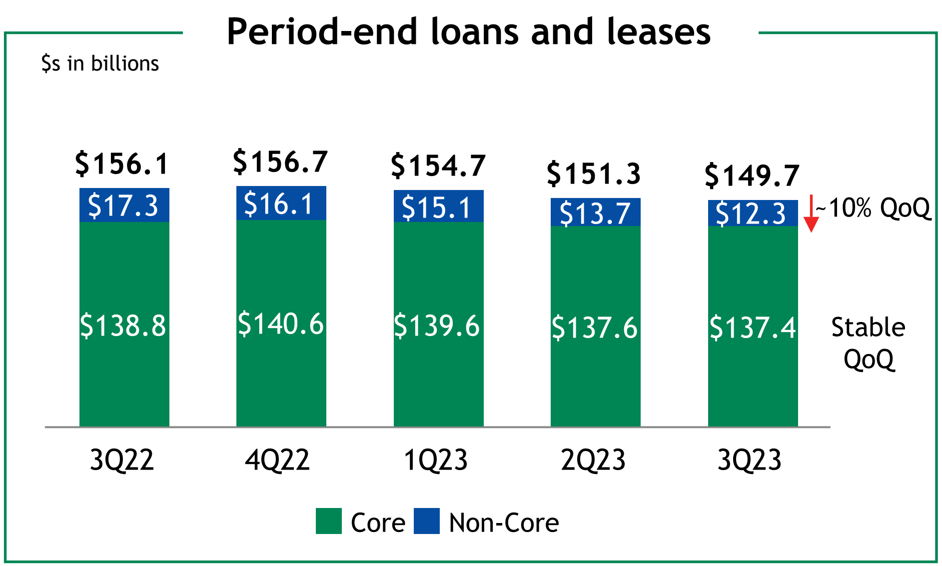
- Underlying noninterest expense of $1.3 billion increased 6%; up 3% excluding $35 million in expenses related to the Private Bank start-up investment
  - Reflects an increase in salaries and employee benefits primarily reflecting the Private Bank start-up investment
  - Higher equipment and software expense driven by increased software maintenance and amortization costs
  - Higher other operating expense reflects an industry-wide increase in FDIC insurance surcharge, as well as higher advertising costs

See pages 32-33 for notes and important information on Non-GAAP Financial Measures, including “Underlying” results. “Underlying” results exclude the impact of notable items described on page 31.

Loans and leases

Loans down slightly reflecting balance sheet optimization





Linked Quarter

- Average loans down $2.9 billion, or 2%, driven by planned Non-Core portfolio run off
  - Core loans down 1% with commercial down $2.0 billion, or 2%, driven by C&I balance sheet optimization actions, largely offset by retail, up 1%, driven by growth in mortgage and home equity
- Period-end loans down $1.6 billion, or 1%, driven by planned Non-Core portfolio run off
  - Core loans stable with retail growth in mortgage and home equity offset by commercial balance sheet optimization actions
- Loan yield of 5.66%, up 14 bps QoQ

Year-Over-Year

- Average loans down $6.1 billion, or 4%, driven by Non-Core portfolio run off
  - Core loans down 1% with commercial down $3.8 billion, or 5%, driven by C&I balance sheet optimization actions largely offset by retail up 3% driven by growth in mortgage and home equity
- Period-end loans down $6.4 billion, or 4%, driven by Non-Core Portfolio run off
  - Core loans down 1% with commercial down $3.7 billion, or 5%, driven by C&I balance sheet optimization actions largely offset by retail up 2% driven by growth in mortgage and home equity

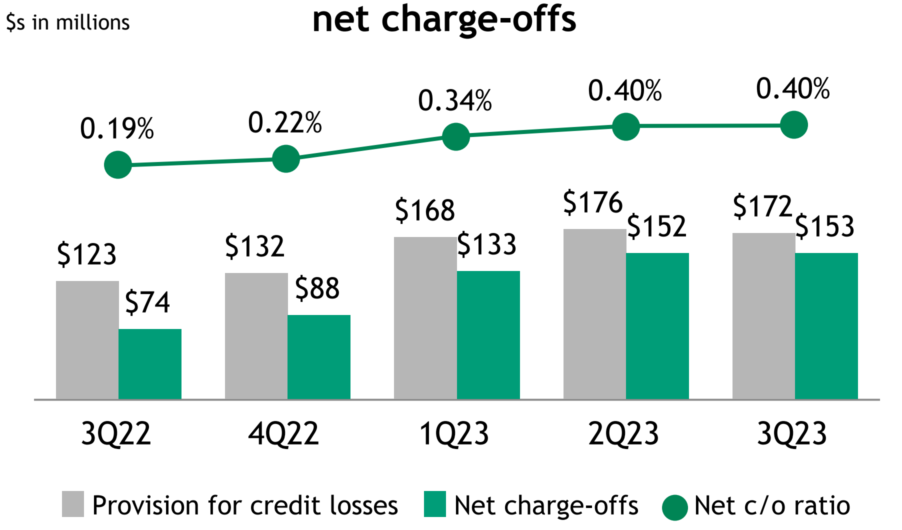
Credit quality overview

Credit provision expense; net charge-offs



Highlights

- NCOs of $153 million, or 40 bps of average loans and leases, stable QoQ
- Nonaccrual loans increased 9% QoQ to 87 bps of total loans primarily driven by an increase in the General Office segment of commercial real estate and expected seasoning in home equity and auto consistent with 2022 origination volume
- Provision for credit losses of $172 million, with reserve build of $19 million; ACL coverage ratio of 1.55%, up 3 bps QoQ
- ACL to nonaccrual loans and leases ratio of 179% compares with 193% as of 2Q23 and 258% as of 3Q22

ACL	$ 313	8.0 %	$ 354	9.5 %
NCOs	$ 56		$ 44	

Commentary

- The increase in the ACL reserve coverage to 1.55% primarily reflects higher reserves against CRE exposures
- The key macroeconomic assumptions underlying the reserve reflect a moderate recession over the two-year reasonable and supportable period
- Peak unemployment of ~6% and peak-to-trough GDP decline of ~1%, unchanged from prior quarter. Collateral value peak-to-trough declines stable for CRE at ~13%, driven by General Office, and improved for auto compared with prior quarter
- Additionally, qualitative factors and sensitivities are incorporated in the allowance framework to account for other considerations not fully captured in reserve models

CRE General Office key reserve assumptions

	Current assumptions
Property valuations, peak-to-trough % decline	~68%
Avg. Loss Severity (%)	~50%
Default rate (%)	~18-20%
Scenario losses implied	~$354 million
General Office ACL Coverage	9.5%

CRE General Office commentary

- CRE General Office portfolio of $3.7 billion, down $200 million, or 5%, QoQ driven by paydowns and charge-offs
- ~99.2% of CRE General Office is in current pay status
- Strong ACL coverage of General Office; ACL informed by a specific CRE downside macro scenario combined with a loan-by-loan analysis
  - Increased ACL coverage for CRE General Office to 9.5% from 8.0% while absorbing ~$100 million in 2Q and 3Q NCOs, which is another ~2.5% of loans
- Capital impacts of higher stress scenarios very modest

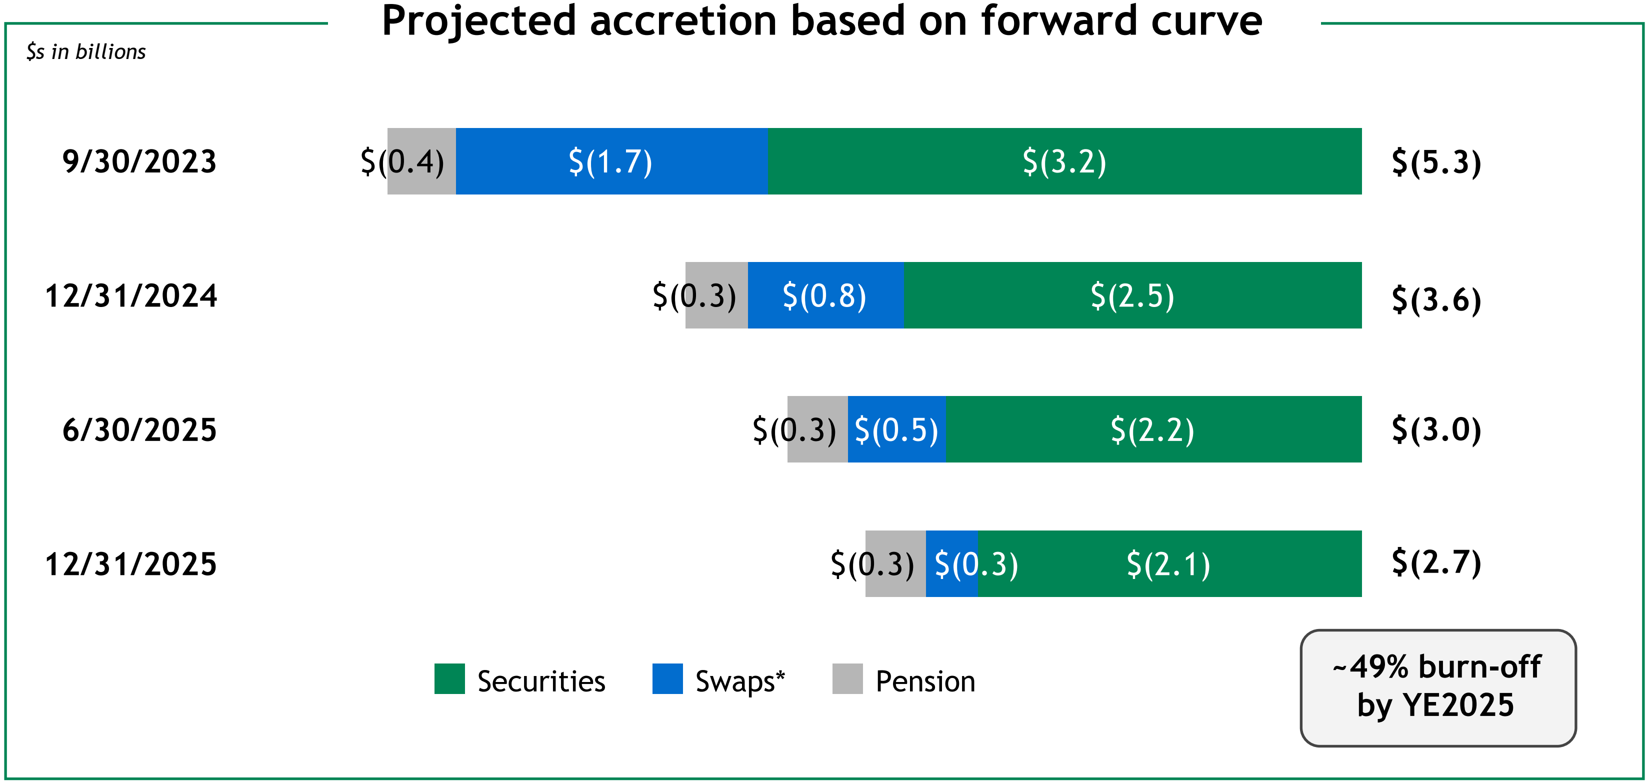
ALM hedging update

- Continue to manage hedges to maintain significant protection to downside in rates well into 2026
- Added ~$7.5 billion of forward-starting receive fixed cash flow swaps with a weighted average fixed rate of ~4%; start dates through 2H25 adding additional down-rate protection into 2H27
- Higher expected swap expense in 2024 will be partly offset by the benefit to NII from Non-Core rundown; swap expense drag will reduce meaningfully over 2025-2027 as swaps run-off and Fed normalizes short rates
  - In addition, the impact of terminated swaps is dramatically lower in 2026/2027

Projected AOCI accretion



Commentary

- At September 30, 2023, average effective duration of the securities portfolio was 5.2 years; investment portfolio (inclusive of cash and securities) duration of ~3.8 years

*Unrealized losses in swaps portfolio includes both active and terminated swaps.

Notes

Notes on Non-GAAP Financial Measures

See important information on our use of Non-GAAP Financial Measures at the beginning this presentation and reconciliations to GAAP financial measures at the end of this presentation. Non-GAAP measures are herein defined as Underlying results. Where there is a reference to Underlying results in a paragraph or table, all measures that follow these references are on the same basis, when applicable. Allowance coverage ratios for loans and leases includes the allowance for funded loans and leases in the numerator and funded loans and leases in the denominator. Allowance coverage ratios for credit losses includes the allowance for funded loans and leases and allowance for unfunded lending commitments in the numerator and funded loans and leases in the denominator.

General Notes

a. References to net interest margin are on a fully taxable equivalent ("FTE") basis.
b. Throughout this presentation, references to consolidated and/or commercial loans and loan growth include leases. Loans held for sale are also referred to as LHFS.
c. Select totals may not sum due to rounding.
d. Based on Basel III standardized approach. Capital Ratios are preliminary.
e. Throughout this presentation, reference to balance sheet items are on an average basis and loans exclude held for sale unless otherwise noted.
