Disclaimer

This presentation contains forward-looking statements. Forward-looking statements may include, in particular, statements about future events, future financial performance, plans, strategies, expectations, prospects, competitive environment, regulation and supply and demand. Statements with respect to the future are characterized by the use of words such as "expect", "intend", "plan", "anticipate", "believe", "estimate" and similar terms. Forward-looking statements are based on our current assumptions and forecasts. These statements naturally entail risks and uncertainties, which may cause the actual results of operations, financial position or performance to diverge materially from the estimates given here. Factors that could cause such a divergence include, inter alia, changes in the economic and business environment, fluctuations in exchange rates and interest rates, launches of competing products, poor acceptance of new products or services, and changes in business strategy. Given these uncertainties, readers should not put undue reliance on any forward-looking statements. We undertake no obligation to update or revise any forward-looking statements.

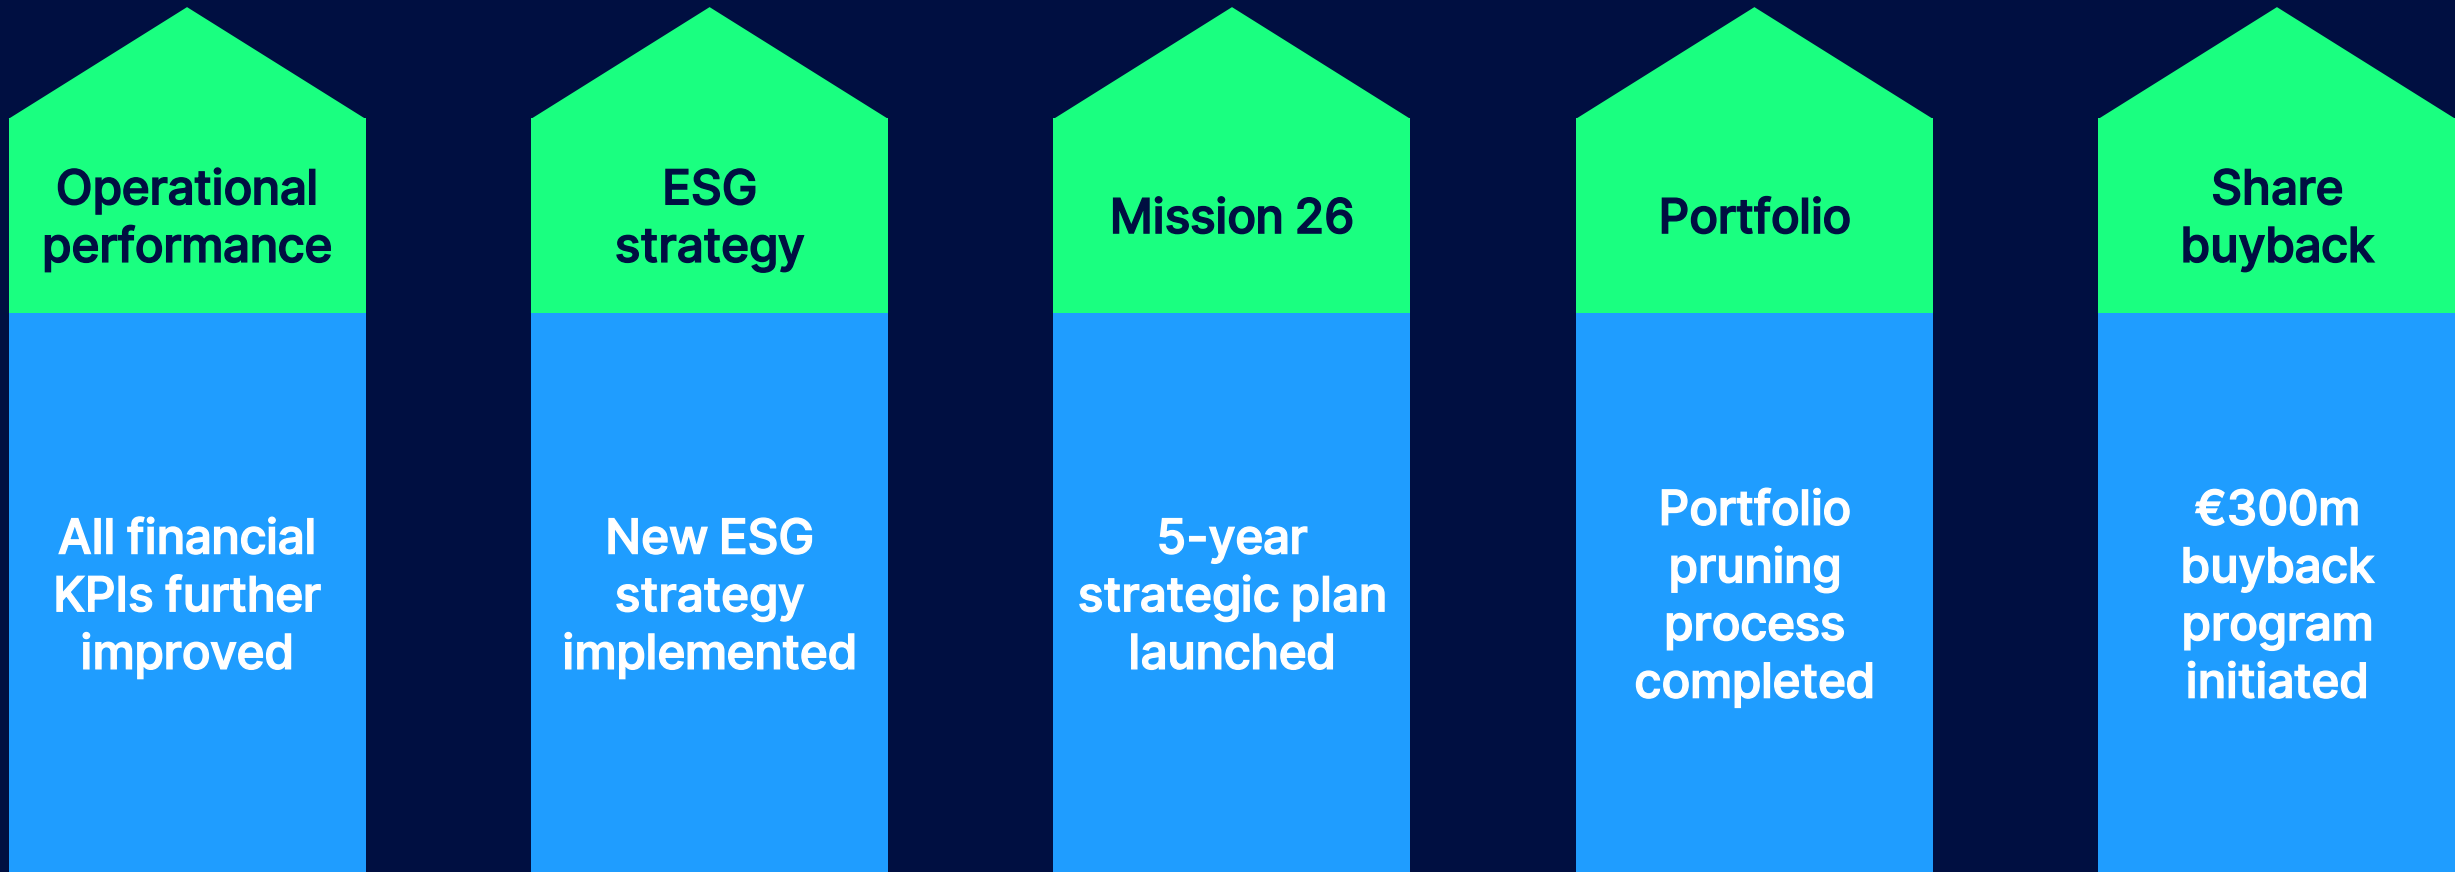

Due to rounding, the sum of percentages of order intake and sales by region as well as by customer industry may vary from 100%.

The potential negative effects of the current conflict in the Ukraine can currently not be reliably assessed.

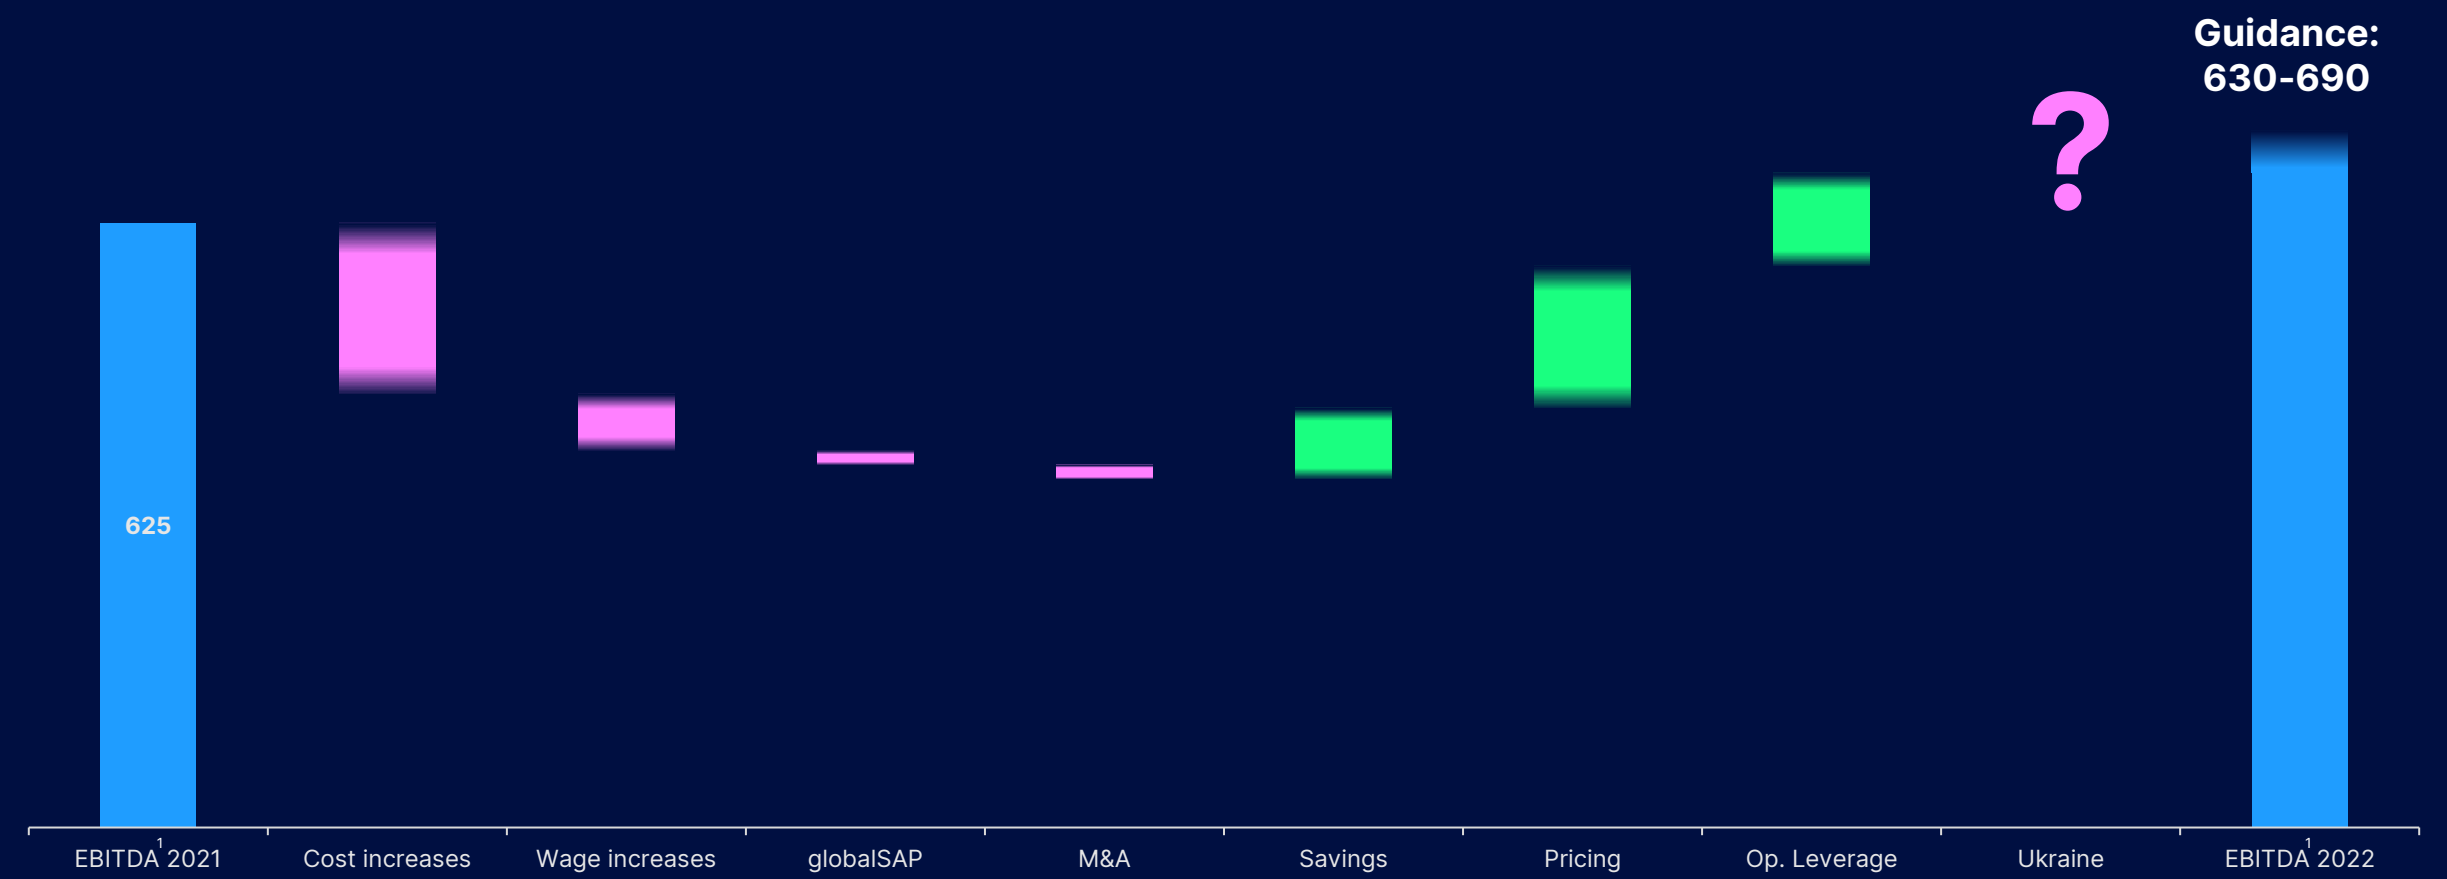

¹ Based on constant exchange rates; for our divisional guidance, please see our 2021 annual report on page 142/143

Direct exposure to Russia and Ukraine

	Russia	Ukraine
Share of order intake	~3%	<1%
