Disclaimer

This presentation contains forward-looking statements. Forward-looking statements may include, in particular, statements about future events, future financial performance, plans, strategies, expectations, prospects, competitive environment, regulation and supply and demand. Statements with respect to the future are characterized by the use of words such as "expect", "intend", "plan", "anticipate", "believe", "estimate" and similar terms. Forward-looking statements are based on our current assumptions and forecasts. These statements naturally entail risks and uncertainties, which may cause the actual results of operations, financial position or performance to diverge materially from the estimates given here. Factors that could cause such a divergence include, inter alia, changes in the economic and business environment, fluctuations in exchange rates and interest rates, launches of competing products, poor acceptance of new products or services, and changes in business strategy. Given these uncertainties, readers should not put undue reliance on any forward-looking statements. We undertake no obligation to update or revise any forward-looking statements.

Due to rounding, the sum of percentages of order intake and sales by region as well as by customer industry may vary from 100%.

One of GEA's largest single orders to date (€140-170m):

World's largest integrated dairy farm and milk powder facility

Agreement signed with Baladna, order expected to be booked in H2 2025

GEA covers the entire value chain of milk powder production – from dairy farming to processing to packaging

Providing diverse equipment and processing solutions from several divisions

Opening of GEA's New Food Application & Technology Center on GEA's Janesville campus, Wisconsin

2nd global Center of Excellence dedicated
to alternative proteins and sustainable food

Bridging the gap between laboratory
innovation and industrial scaling

Strengthening GEA's North American
footprint

Another important recognition for our sustainable leadership

Update on U.S. tariffs

Negligible impact for GEA despite higher tariffs

GEA's U.S. exposure

- U.S. accounted for ~18% of our sales in 2024, thereof ~1/3 were generated with products imported (mainly Europe; >50% from Germany)
- ~90% of procurement spend¹ in the U.S. is done locally

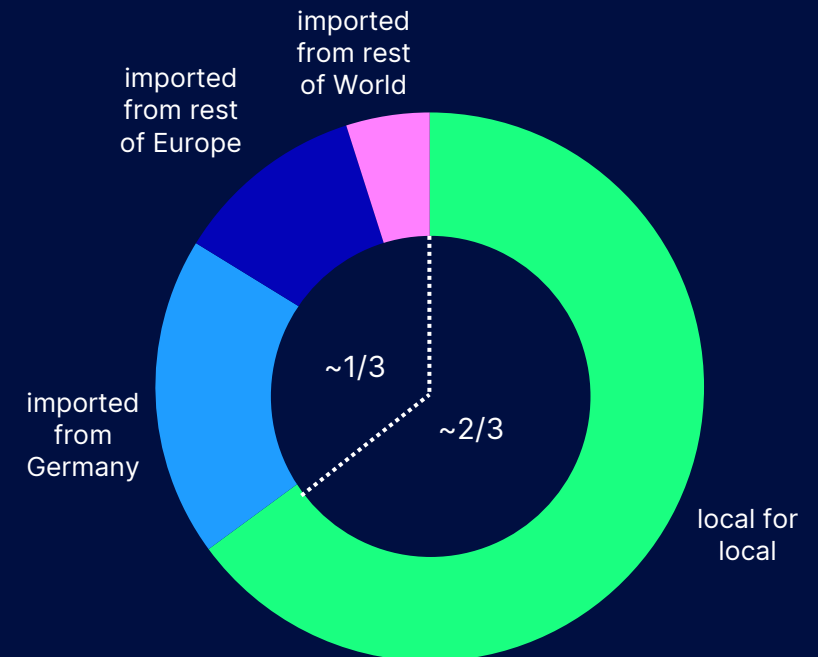

Facts on tariffs

- Clear guideline on continued practice: Tariffs must be paid by customers
- 15% universal tariffs
- Relevant competitors located in Europe with minor production sites in the U.S.

Update Q2 2025

- Nearly 100% of increased tariffs were passed on to customers (pass-through clauses)
- Almost no impact on earnings²

U.S. sales split in FY 2024

¹ Procurement spend with 3rd parties | ² Based on 15% universal tariffs (Q1'25 calculation was based on 10%)

Q2 25: Strong order intake, new machine sales growth & record EBITDA¹ margin

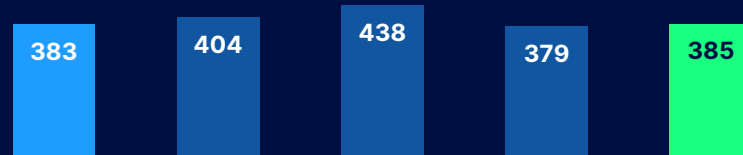

% Organic change

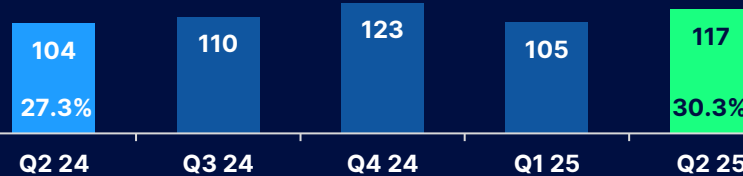

Order Intake, €m

Sales, €m

EBITDA¹, €m

Organic order intake ↑ 8.2% YoY

- Strong growth in base orders <€1m
- Growth mainly driven by customer industries Dairy Processing, Pharma and Oil & Gas, but also Environmental applications contributed
- €10m negative FX translation effect (-2.5%)

Organic sales ↑ 2.9% YoY

- Organic new machine sales up by 5.7% YoY
- Organic service sales flat YoY due to increased service sales in Q2 2024 (catch-up effect from change of logistic provider)
- Service sales share decreased slightly by 1.4%p to 49.2%

EBITDA¹ margin ↑ to 30.3% (Q2 24: 27.3%)

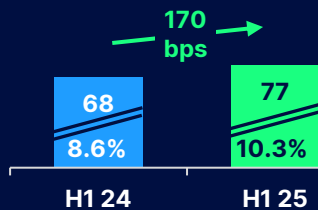

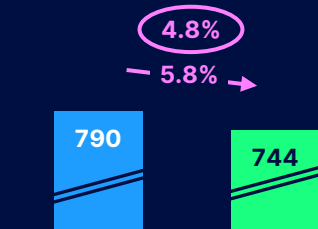

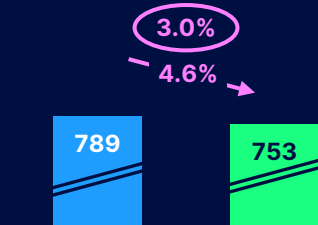

- Gross profit¹ increased due to better gross margin

Division Liquid & Powder Technologies (LPT)

Q2 25: Further EBITDA¹ margin improvement

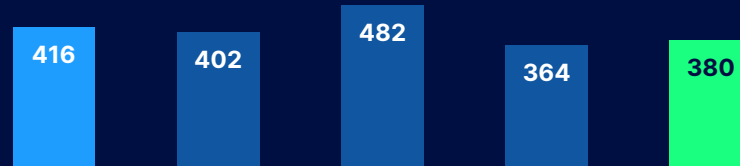

(%) Organic change

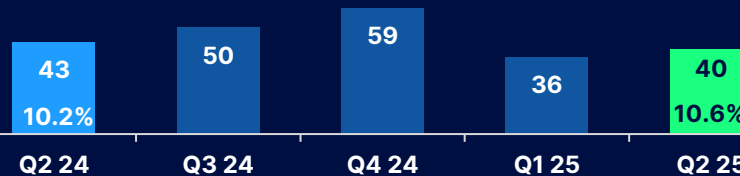

Order Intake, €m

Sales, €m

EBITDA¹, €m

Organic order intake ↓ 10.7% YoY

- Growth in customer industries Food, New Food and Dairy Processing not enough to compensate the decline in Beverage and Chemicals, which had three large orders (>€15m) totaling €83m in Q2 2024
- €11m negative FX translation effect (-2.8%)

Organic sales ↓ 6.6% YoY

- Organic new machine sales down by 9.7% YoY
- Organic service sales growth of 2.4% YoY
- Service sales share up by 2.4%p to 28.5%

EBITDA¹ margin ↑ to 10.6% (Q2 24: 10.2%)

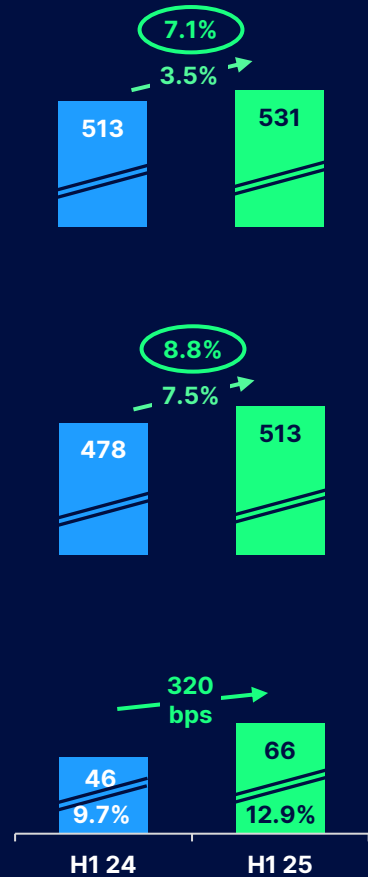

- Gross profit¹ slightly down as improved gross margin could not offset effect from lower volume
- Operating costs² stable YoY

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

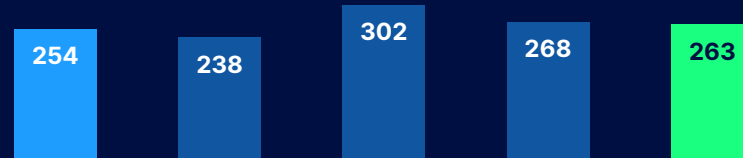

Division Food & Healthcare Technologies (FHT)

Q2 25: Strong top-line growth & further sequential EBITDA¹ margin improvement

⬭ Organic change

Order Intake, €m

Organic order intake ↑ 10.0% YoY

- YoY growth despite no large order (Q2 24: one large order of €15m in Pharma)
- Growth in customer industries Food and New Food offsets the decline in Pharma

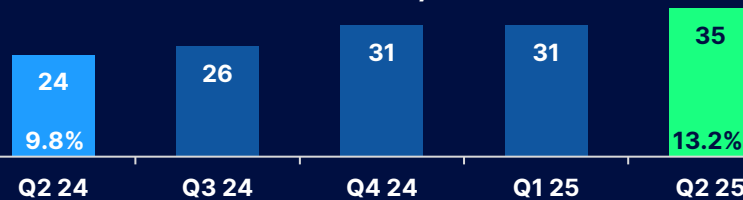

Sales, €m

Organic sales ↑ 12.2% YoY

- Organic new machine sales up by 15.3% YoY
- Organic service sales growth of 6.9% YoY
- Service sales share slightly down by 1.3%p to 34.5%

EBITDA¹, €m

EBITDA¹ margin ↑ to 13.2% (Q2 24: 9.8%)

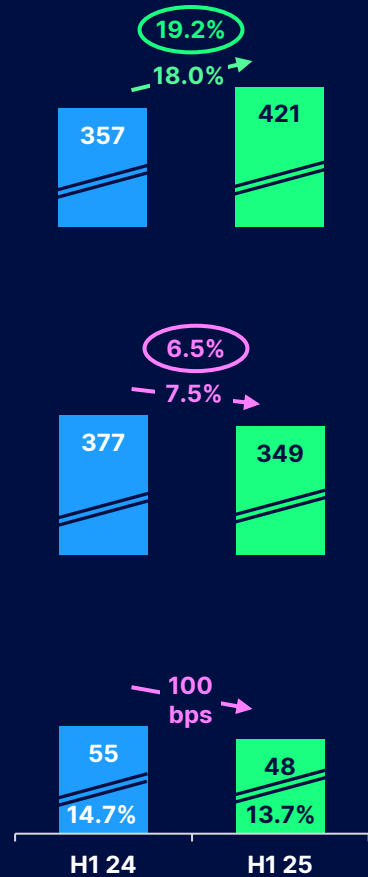

- Gross profit¹ improved due to better gross margin
- Operating costs² remained stable YoY
- Since Q2 2023 continuous QoQ margin improvement

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

Division Farm Technologies (FT)

Q2 25: Significant increase in order intake

⬭ Organic change

Organic order intake ↑ 34.3% YoY

- Pick-up in new machine business, especially in automated milking systems and automated feeding solutions
- €6m negative FX translation effect (-3.6%)

Organic sales ↓ 1.6% YoY

- Organic new machine sales decline of 8.9% YoY
- Organic service sales growth of 6.3% YoY
- Service sales share up by 3.4%p to 51.1%

EBITDA¹ margin ↓ to 14.4% (Q2 24: 14.9%)

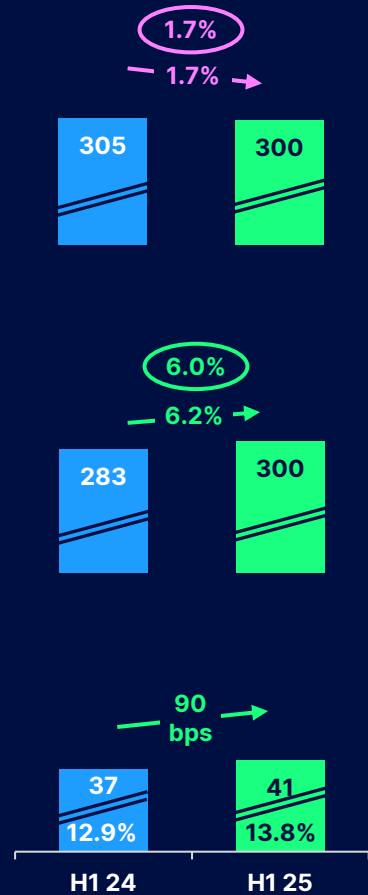

- Gross profit¹ improved resulting from positive mix
- Operating costs² increased YoY

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

Division Heating & Refrigeration Technologies (HRT)

Q2 25: Strong sales growth & EBITDA¹ margin improvement

% Organic change

Organic order intake ↓ 2.2% YoY

- Stable demand development in base orders (<€1m)
- Good demand in customer industries Beverage and Oil & Gas not enough to offset the decline in Food

Organic sales ↑ 5.8% YoY

- Organic new machine sales up by 1.4% YoY
- Organic service sales growth of 12.8% YoY
- Service sales share up by 2.6%p to 40.8%

EBITDA¹ margin ↑ to 13.6% (Q2 24: 12.5%)

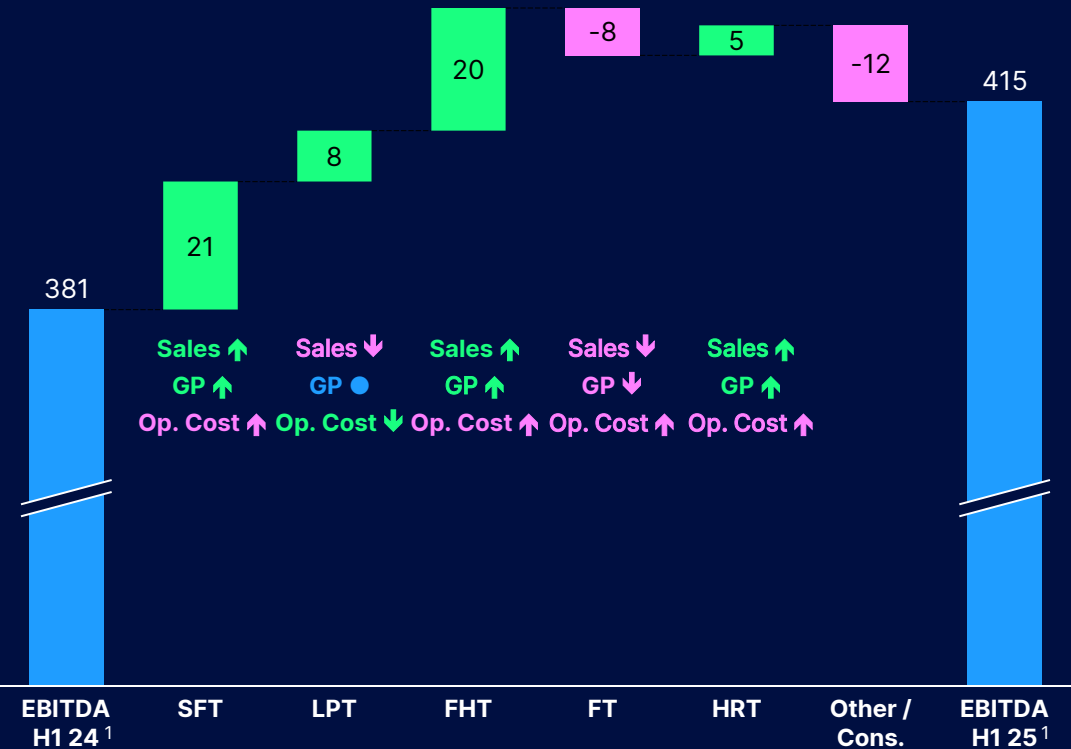

- Gross profit¹ increased resulting from volume and mix effects
- Operating costs² stable YoY

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

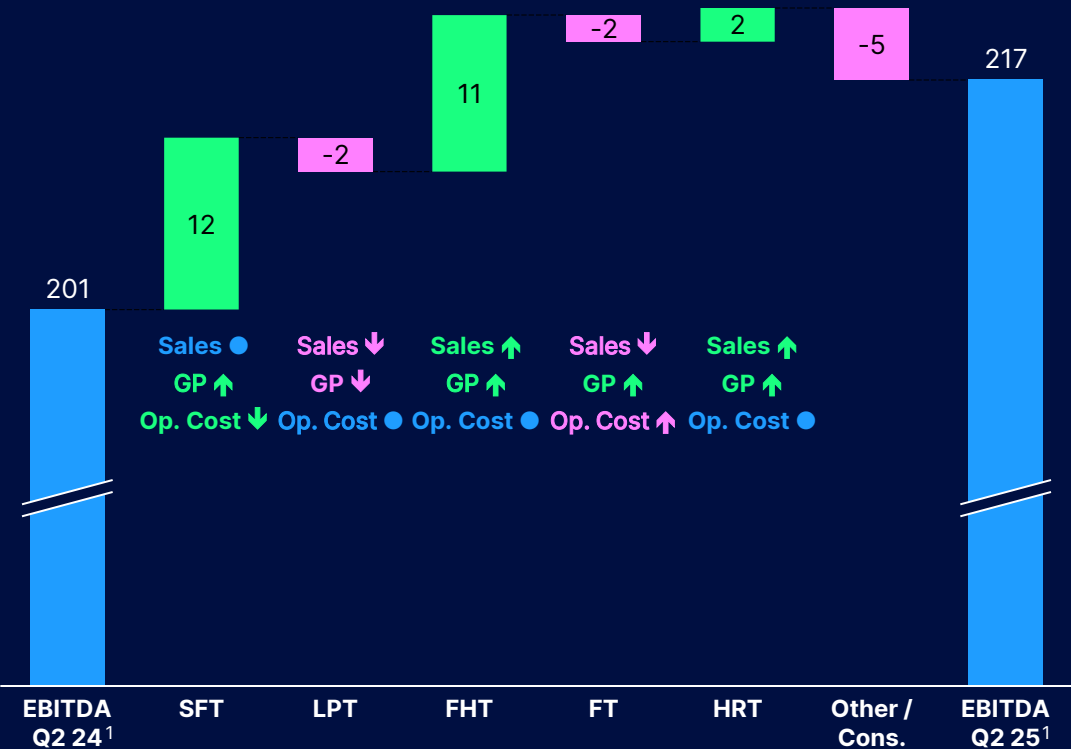

Strong EBITDA¹ performance in H1 and Q2 2025

Almost all divisions with an increase in gross profit

H1 25 EBITDA¹ growth contribution by divisions in €m

Q2 25 EBITDA¹ growth contribution by divisions in €m

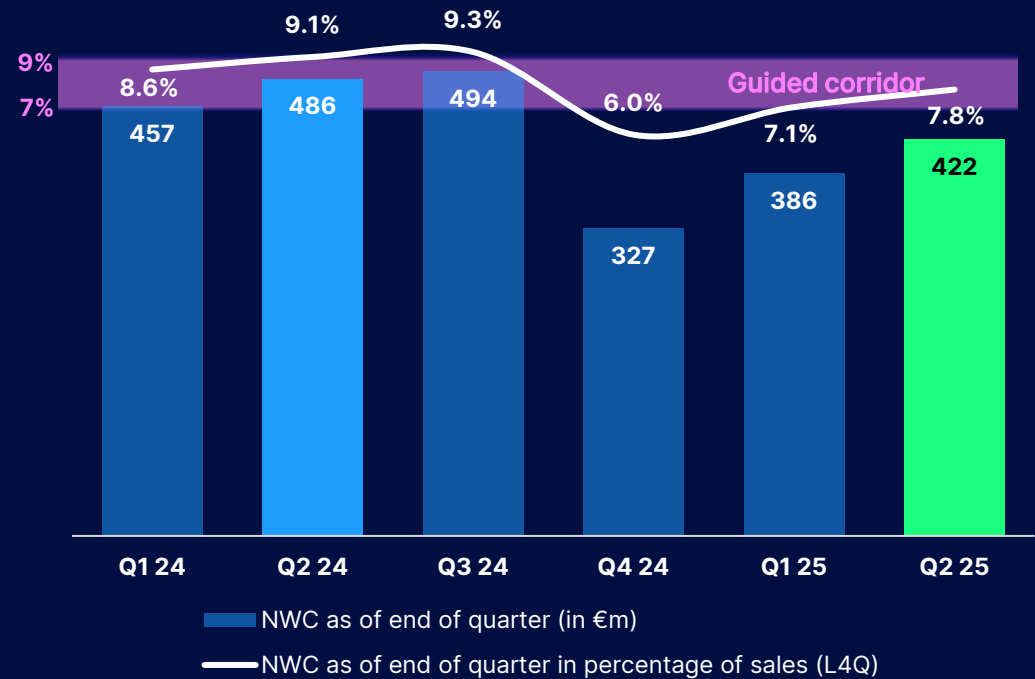

¹ Before restructuring expenses
GP¹ = Gross Profit¹; Operating Cost defined as difference between GP¹ and EBITDA¹

Strong Net Working Capital performance

NWC/sales ratio stable within the guided corridor

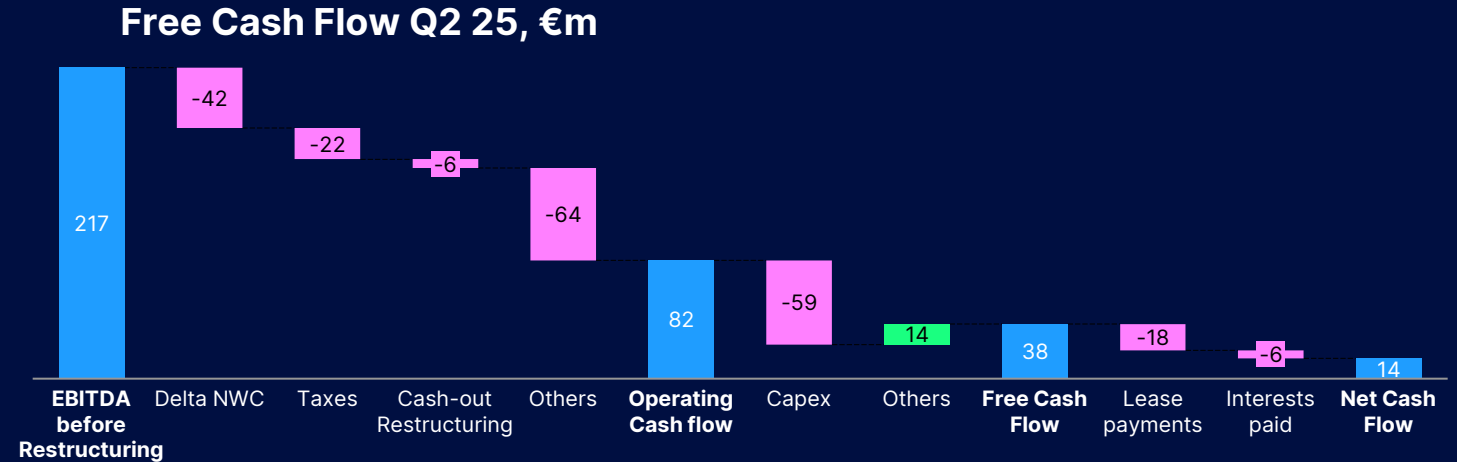

- YoY NWC reduction mainly due to a combination of lower inventories, higher trade payables and lower trade receivables
- Lower contract assets partially compensated decline in contract liabilities (advance payments)
- NWC ratio with 7.8% continues to stay within the guided corridor of 7.0 – 9.0%

Solid Cash Flow in Q2 2025

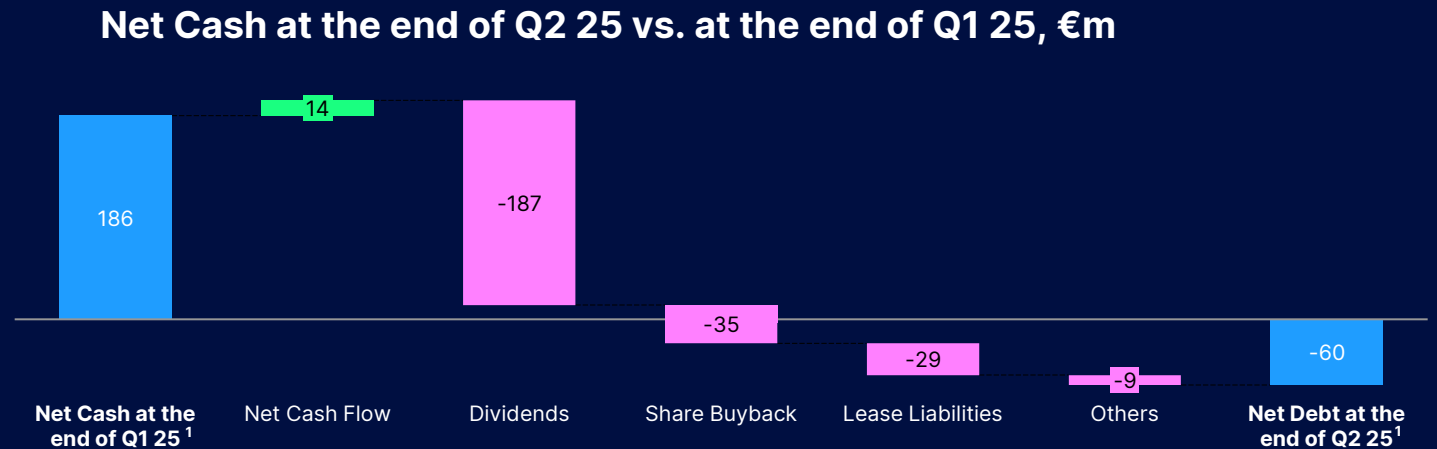

FCF

- NWC -€42m: outflow mainly driven by higher inventories and higher trade receivables
- Others -€64m: mainly related to translation effect (mainly USD and CNY) and VAT
- Positive FCF of €38m

Net Cash

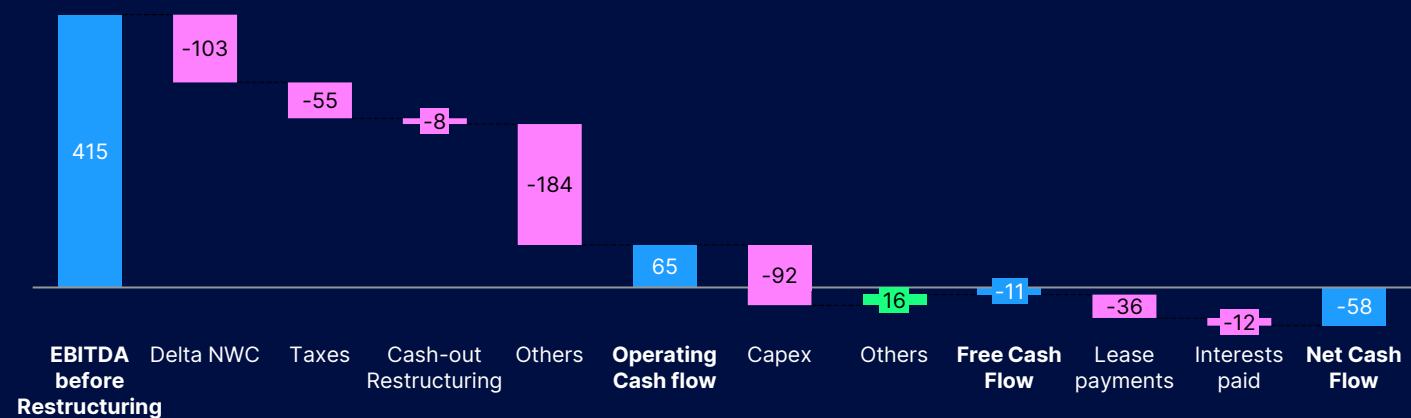

- Minor net debt position
- Cash generation offset by dividend payment and cash-out for the share buyback

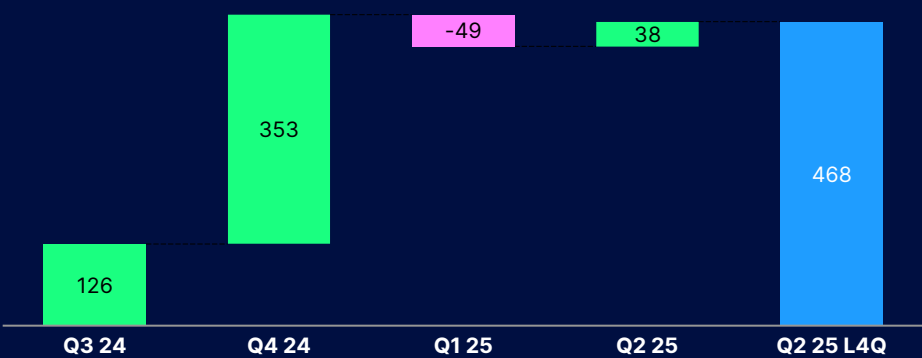

¹ Including lease liabilities of €213m at the end of Q2 2025 and €185m at the end of Q1 2025

Solid cash conversion¹ of 55% in L4Q

Free Cash Flow H1 25, €m

FCF generation during L4Q per Q2 25, €m

FCF conversion ratio¹ (L4Q)

- 55% of EBITDA¹ converted into FCF¹ in L4Q
- Higher capex expected for H2 versus H1
