This presentation contains forward-looking statements. Forward-looking statements may include, in particular, statements about future events, future financial performance, plans, strategies, expectations, prospects, competitive environment, regulation and supply and demand. Statements with respect to the future are characterized by the use of words such as "expect", "intend", "plan", "anticipate", "believe", "estimate" and similar terms. Forward-looking statements are based on our current assumptions and forecasts. These statements naturally entail risks and uncertainties, which may cause the actual results of operations, financial position or performance to diverge materially from the estimates given here. Factors that could cause such a divergence include, inter alia, changes in the economic and business environment, fluctuations in exchange rates and interest rates, launches of competing products, poor acceptance of new products or services, and changes in business strategy. Given these uncertainties, readers should not put undue reliance on any forward-looking statements. We undertake no obligation to update or revise any forward-looking statements.

Due to rounding, the sum of percentages of order intake and sales by region as well as by customer industry may vary from 100%.

Continued pro-active approach with key suppliers and own counter measures to manage cost increase

Total impact from cost increases of up to €25m reflected in EBITDA¹ guidance of €600m to €630m

¹ Before restructuring expenses

Supply chain shortages

- Recognized at steel, wood, semiconductors & electrical components
- **Pro-active mitigation for most input materials for 2021 with frame contracts and safety stock**

Material & energy costs

- Price increases in several raw material and intermediate products
- Energy costs are increasing; total bill is a low double-digit amount
- **Passing on price increases where possible and using design-to-cost measures**

Logistics costs

- Higher transportation costs due to capacity constraints and airport as well as harbor closures
- **Logistics are mostly arranged and paid for by GEA but charged to the customer**

GEA's strategy is to pass on cost increases

- Continued process during 2021
- Two to three price rounds in 2021 compared to one in normal years
- **Further price rounds planned for Q1 2022**
