Disclaimer

This presentation contains forward-looking statements. Forward-looking statements may include, in particular, statements about future events, future financial performance, plans, strategies, expectations, prospects, competitive environment, regulation and supply and demand. Statements with respect to the future are characterized by the use of words such as "expect", "intend", "plan", "anticipate", "believe", "estimate" and similar terms. Forward-looking statements are based on our current assumptions and forecasts. These statements naturally entail risks and uncertainties, which may cause the actual results of operations, financial position or performance to diverge materially from the estimates given here. Factors that could cause such a divergence include, inter alia, changes in the economic and business environment, fluctuations in exchange rates and interest rates, launches of competing products, poor acceptance of new products or services, and changes in business strategy. Given these uncertainties, readers should not put undue reliance on any forward-looking statements. We undertake no obligation to update or revise any forward-looking statements.

Due to rounding, the sum of percentages of order intake and sales by region as well as by customer industry may vary from 100%.

We are taking the next steps on our
journey to Mission 30

We are reshaping
our organization to
**accelerate growth
and boost agility**

Our organization today

Executive Board
Divisions
Regions & Countries
Corporate Functions
GEC

Our organization has enabled our success, but ...

... there is **a lot of untapped potential:**

-  We need to improve our **organizational effectiveness**
-  Our **matrix structure** remains too complex
-  **Growth opportunities** in China and India remain **underutilized**

Our 14-member Global Executive Committee (GEC) will be dissolved and replaced by our 6-member Executive Board

Reducing complexity in the matrix
and **decreasing costs**,
contributing to our **Mission 30**
G&A targets

Regional CEOs and Regional CFOs are not part of the future operating model

New Executive Board and organization as of Jan 1, 2026:

Stefan Klebert

Phase out in 2026

Our new GEA organizational structure will enable us to ...

Reduce complexity in the matrix and **decrease costs**

- Savings 2026: €10-15m...
- ... growing to €20-25m in 2027
- Total one-off restructuring expenses of €15-25m in 2025/26

Accelerate growth and boost **customer centricity**

Unleash opportunities in China and India

Build a focused and streamlined organization with 6-member Executive Board instead of 14-member GEC

Pulse check conducted two weeks after announcement

All managers have been asked:

Do you think we are going in the right direction with the organizational changes?

- Growth in almost all customer industries, especially in Pharma, Dairy Processing, Beverage and Food
- €13m negative FX translation effect (-3.5%)

Organic sales **↑ 0.8% YoY**

- Organic new machine sales down by 2.4% YoY
- Organic service sales growth of 4.1%
- Service sales share up by 1.6%p to 50.4%

EBITDA¹ margin **↑ to 27.8% (Q3 24: 27.1%)**

- Despite lower sales volume gross profit¹ remained stable due to better gross margin
- Operating costs² increased slightly YoY

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

Division Liquid & Powder Technologies (LPT)

Q3 25: Two large orders & pick-up in sales

% Organic change

Order Intake, €m

Sales, €m

EBITDA¹, €m

Organic order intake ↓ 6.8% YoY

- Two large orders (>€15m) totaling €48m in Dairy Processing vs. one large order of €59m in Dairy Processing in Q3 24
- Growth in customer industries Food and Pharma not enough to offset the decline in the other customer industries
- €9m negative FX translation effect (-2.2%)

Organic sales ↑ 6.6% YoY

- Organic new machine sales up by 4.4% YoY
- Organic service sales growth of 12.6% YoY
- Service sales share up by 1.4%p to 28.4%

EBITDA¹ margin ↓ to 12.4% (Q3 24: 12.5%)

- Gross profit¹ remained stable on the back of higher volume
- Operating costs² stable YoY

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

Division Food & Healthcare Technologies (FHT)

Q3 25: Strong organic top-line growth & further sequential EBITDA¹ margin improvement

% Organic change

Order Intake, €m

Organic order intake ↑ 16.0% YoY

- Midsized orders (between €5m and €15m) main growth contributor
- Growth in both major customer industries, but particularly in Pharma

- Organic service sales growth of 7.9% YoY
- Service sales share up by 1.5%p to 37.0%

EBITDA¹, €m

EBITDA¹ margin ↑ to 13.3% (Q3 24: 10.1%)

- Gross profit¹ increased due to significantly better gross margin
- Operating costs² remained stable YoY
- Since Q2 2023 continuous QoQ margin improvement

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

Division Farm Technologies (FT)

Q3 25: Significant increase in order intake, rebound in sales & EBITDA¹ margin continued

% Organic change

Organic order intake ↑ 31.2% YoY

- Growth in service and new machine business driven by strong demand for conventional and automated milking systems
- €6m negative FX translation effect (-4.0%)

Organic sales ↑ 6.0% YoY

- Organic new machine sales up by 6.2% YoY
- Organic service sales growth of 5.9% YoY
- Service sales share down by 0.6%p to 48.3%

EBITDA¹ margin ↑ to 18.0% (Q3 24: 16.2%)

- Gross profit¹ increased due to volume and better gross margin
- Operating costs² stable YoY

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

Division Heating & Refrigeration Technologies (HRT)

Q3 25: Solid sales growth & EBITDA¹ margin improvement

% Organic change

Organic order intake ↓ 7.1% YoY

- YoY decline due to missing midsize orders (between €5m and €15m); stable demand development in base orders (<€1m)
- Main decline in customer industries Distribution & Storage, Food and Dairy Processing
- €3m negative FX translation effect (-2.0%)

Organic sales ↑ 3.2% YoY

- Organic new machine sales up by 4.1% YoY

EBITDA¹ margin ↑ to 13.7% (Q3 24: 13.0%)

- Gross profit¹ increase resulting from volume and margin effects
- Operating costs² stable YoY

¹ Before restructuring expenses | ² Operating costs defined as difference between gross profit¹ and EBITDA¹

Strong EBITDA¹ performance in 9M and Q3 2025

Solid divisional gross profit development despite mixed sales performances

9M 25 EBITDA¹ growth contribution by divisions in €m

Q3 25 EBITDA¹ growth contribution by divisions in €m

¹ Before restructuring expenses
 GP¹ = Gross Profit¹; Operating Cost defined as difference between GP¹ and EBITDA¹

Solid Net Working Capital performance

NWC/sales ratio within the guided corridor

- YoY NWC reduction mainly due to a combination of lower contract assets and higher trade payables overcompensating the increase in trade receivables
- Lower contract assets fully compensate decline in contract liabilities (advance payments)
- NWC ratio with 8.6% within the guided corridor of 7.0 – 9.0%

Solid Cash Flow in Q3 2025

FCF

- NWC -€43m: outflow mainly driven by higher trade receivables
- Positive FCF of €52m

Net Cash

- Minor net debt position
- Solid cash generation

¹ Including lease liabilities of €217m at the end of Q3 2025 and €213m at the end of Q2 2025

Cash conversion¹ of 47% in L4Q
