INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

This report contains certain statements related to future results, or states our intentions, beliefs, and expectations or predictions for the future, all of which are forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements represent management’s expectations or forecasts of future events. These statements include statements about our plans, objectives, strategies, financial performance and outlook, trends, prospects or other future events and involve known and unknown risks that are difficult to predict. Forward-looking statements are typically identified by words such as “anticipate,” “believe,” “estimate,” “expect,” “forecast,” “project,” “positioned,” “intend,” “plan,” “probably,” “potential,” “looking forward,” “continue,” and other similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will,” and “would.” You can also identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. For example, we may use forward-looking statements when addressing topics such as: market and industry conditions, including competitive and pricing trends; changes in our business strategies and methods of generating revenue; the development and performance of our services and products; changes in the composition or level of our revenues; our cost structure and the outcome of cost-saving or restructuring initiatives, including the impacts of the Accelerating Aon United Program; the outcome of contingencies; dividend policy; the expected impact of acquisitions, dispositions, and other significant transactions or the termination thereof; litigation and regulatory matters; pension obligations; cash flow and liquidity; expected effective tax rate; expected foreign currency translation impacts; potential changes in laws or future actions by regulators; and the impact of changes in accounting rules. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from either historical or anticipated results depending on a variety of factors. Potential factors, which may be revised or supplemented in subsequent reports filed or furnished with the Securities and Exchange Commission, that could impact results include:

- changes in the competitive environment, due to macroeconomic conditions or otherwise, or damage to our reputation;
- fluctuations in currency exchange, interest, or inflation rates that could impact our financial condition or results;
- changes in global equity and fixed income markets that could affect the return on invested assets;
- changes in the funded status of our various defined benefit pension plans and the impact of any increased pension funding resulting from those changes;
- the level of our debt and the terms thereof reducing our flexibility or increasing borrowing costs;
- rating agency actions that could limit our access to capital and our competitive position;
- our global tax rate being subject to a variety of different factors, including the adoption and implementation in the European Union, the United States, the United Kingdom, or other countries of the Organization for Economic Co-operation and Development tax proposals or other pending proposals in those and other countries, which could create volatility in that tax rate;
- changes in our accounting estimates and assumptions on our financial statements;
- limits on our subsidiaries’ ability to pay dividends or otherwise make payments to their respective parent entities;
- the impact of legal proceedings and other contingencies, including those arising from acquisition or disposition transactions, errors and omissions and other claims against us (including proceedings and contingencies relating to transactions for which capital was arranged by Vesttoo Ltd. or related to actions we may take in being responsible for making decisions on behalf of clients in our investment businesses or in other advisory services that we currently provide, or may provide in the future);
- the impact of, and potential challenges in complying with, laws and regulations of the jurisdictions in which we operate, particularly given the global nature of our operations and the possibility of differing or conflicting laws and regulations, or the application or interpretation thereof, across such jurisdictions;
- the impact of any regulatory investigations brought in Ireland, the United Kingdom, the United States, and other countries;
- failure to protect intellectual property rights or allegations that we have infringed on the intellectual property rights of others;
- general economic and political conditions in the countries in which we do business around the world;

- the failure to retain, attract and develop experienced and qualified personnel;
- international risks associated with our global operations, including geopolitical conflicts, tariffs, or changes in trade policies;
- the effects of natural or human-caused disasters, including the effects of health pandemics and the impacts of climate-related events;
- any system or network disruption or breach resulting in operational interruption or improper disclosure of confidential, personal, or proprietary data, and resulting liabilities or damage to our reputation;
- our ability to develop, implement, update, and enhance new technology;
- the actions taken by third parties that perform aspects of our business operations and client services;
- our ability to continue, and the costs and risks associated with growing, developing and integrating acquired business, and entering into new lines of business or products;
- our ability to secure regulatory approval and complete transactions, and the costs and risks associated with the failure to consummate proposed transactions;
- changes in commercial property and casualty markets, commercial premium rates or methods of compensation;
- our ability to develop and implement innovative growth strategies and initiatives intended to yield cost savings (including the Accelerating Aon United Program) and the ability to achieve such growth or cost savings;
- the effects of Irish law on our operating flexibility and the enforcement of judgments against us;
- adverse effects on the market price of Aon’s securities and/or operating results for any reason, including, without limitation, because of a failure to realize the expected benefits of the acquisition of NFP (including anticipated revenue and growth synergies) in the expected timeframe, or at all; and
- significant integration costs in connection with the acquisition of NFP or unknown or inestimable liabilities.

Any or all of our forward-looking statements may turn out to be inaccurate, and there are no guarantees about our performance. The factors identified above are not exhaustive. Aon and its subsidiaries operate in a dynamic business environment in which new risks may emerge frequently. Accordingly, readers should not place undue reliance on forward-looking statements, which speak only as of the dates on which they are made. We are under no (and expressly disclaim any) obligation to update or alter any forward-looking statement that we may make from time to time, whether as a result of new information, future events, or otherwise.

Further information about factors that could materially affect Aon, including our results of operations and financial condition, is contained in our filings with the SEC, including the “Risk Factors” section in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2024. These factors may be revised or supplemented in our subsequent periodic filings with the SEC.

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

The accompanying Condensed Consolidated Financial Statements and Notes thereto have been prepared in accordance with U.S. GAAP. The Condensed Consolidated Financial Statements include the accounts of Aon plc and all of its controlled subsidiaries (“Aon” or the “Company”). Intercompany accounts and transactions have been eliminated. The Condensed Consolidated Financial Statements include, in the opinion of management, all adjustments (consisting of normal recurring adjustments and reclassifications) necessary to present fairly the Company’s consolidated financial position, results of operations, and cash flows for all periods presented.

Certain information and disclosures normally included in the Consolidated Financial Statements prepared in accordance with U.S. GAAP have been condensed or omitted. The Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2024. The results for the three and six months ended June 30, 2025 are not necessarily indicative of operating results that may be expected for the full year ending December 31, 2025.

Use of Estimates

The preparation of the accompanying Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements, and the reported amounts of reserves and expenses. These estimates and assumptions are based on management’s best estimates and judgments. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment. Management believes its estimates to be reasonable given the current facts available. Aon adjusts such estimates and assumptions when facts and circumstances dictate. Illiquid credit markets, volatile equity markets, and foreign currency exchange rate movements increase the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in estimates resulting from continuing changes in the economic environment would, if applicable, be reflected in the Condensed Consolidated Financial Statements in future periods.

2. Accounting Principles and Practices

New Accounting Pronouncements

Accounting Standards Issued But Not Yet Adopted

Improvements to Income Tax Disclosures

In December 2023, the FASB issued new accounting guidance under ASC 740, *Income Taxes*, which requires additional income tax disclosures on an annual basis, including disaggregation of information presented within the reconciliation of the expected tax to the reported tax by specific categories, with certain reconciling items 5% or greater broken out by nature and/or jurisdiction. The new guidance also requires disclosure of income taxes paid, net of refunds, broken out by federal, state/local and foreign, including disclosure of individual jurisdictions when greater than 5% of total net income taxes paid. The new guidance is effective for annual periods beginning the year ended December 31, 2025. The Company is evaluating the transition approach as well as the impact the disclosures will have on the Notes to Consolidated Financial Statements.

Disaggregation of Income Statement Expenses

In November 2024, the FASB issued new accounting guidance under ASC 220, *Income Statement — Reporting Comprehensive Income*, which requires more detailed information about certain expenses in commonly presented expense captions including inventory, employee compensation, depreciation, and amortization. The new guidance also requires disclosure of total selling expenses and, on an annual basis, an entity’s definition of selling expenses. The new guidance is effective for Aon for the year ended December 31, 2027, with early adoption permitted. Entities may apply the new guidance on a prospective basis, with the option for retrospective application. Aon is currently evaluating the transition approach and the impact the guidance will have on the Notes to Consolidated Financial Statements.

Securities and Exchange Commission Final Rules

The Enhancement and Standardization of Climate-Related Disclosures for Investors

In March 2024, the SEC adopted final rules to enhance and standardize climate-related disclosures. The final rules would require the Company to provide certain climate-related information in Item 7, Management’s Discussion and Analysis

regarding material climate-related risks, activities to mitigate or adapt to such risks, information regarding oversight and management of climate-related risks, information on climate-related targets or goals, and disclosure of Scope 1 and 2 GHG emissions. Additionally, within the Notes to Consolidated Financial Statements, the Company would be required to disclose the financial statement effects of severe weather events and other natural conditions. The final rules were to be effective for Aon for the year ended December 31, 2025, with the exception of GHG emissions disclosures which were to be effective for Aon for the year ended December 31, 2026. The final rules have been subject to several legal challenges. On April 4, 2024, the SEC voluntarily stayed the final rules pending judicial review, and on March 27, 2025, the SEC voted to end its legal defense of the final rules in Court of Appeals for the Eighth Circuit. The Eighth Circuit subsequently suspended the litigation until the SEC informed the court about whether it intends to review or reconsider the rules under administrative procedures and whether the SEC would enforce the rules if ultimately upheld. On July 23, 2025, the SEC filed a status report in response, stating that it does not intend to review or reconsider the rules under administrative procedures, and declined to say whether or not it would enforce the rules if ultimately upheld. The Company is monitoring the judicial process for resolution of the legal challenges and impacts on the disclosure requirements.

4. Accelerating Aon United Program

In the third quarter of 2023, Aon initiated a three-year restructuring program called the Accelerating Aon United Program (the “Program” or the “AAU Program”) with the purpose of streamlining the Company’s technology infrastructure, optimizing its leadership structure and resource alignment, and reducing its real estate footprint to align to its hybrid working strategy. The Program includes technology-related costs to facilitate streamlining and simplifying operations, headcount reduction costs, and costs associated with asset impairments, including real estate consolidation and technology costs. The Program is an investment in the Company’s 3x3 Plan that brings together the best of the firm through its Aon United strategy, delivered as Risk Capital and Human Capital, and Aon’s Client Leadership model, powered by Aon Business Services.

Program charges are recognized within Accelerating Aon United Program expenses on the accompanying Condensed Consolidated Statements of Income and consist of the following cost activities:

- *Technology and other* – includes costs associated with actions taken to rationalize applications and to optimize technology across the Company. These costs may include termination fees and other non-capitalizable costs associated with Program initiatives, which include professional service fees.
- *Workforce optimization* – includes costs associated with headcount reduction and other separation-related costs.
- *Asset impairments* – includes non-cash costs associated with impairment of assets, as they are identified, including ROU lease assets, leasehold improvements, and other capitalized assets no longer providing economic benefit.

The Program is currently expected to result in cumulative costs of \$1.0 billion, consisting of approximately \$0.9 billion of cash charges and approximately \$0.1 billion of non-cash charges. For the three and six months ended June 30, 2025, total Program costs incurred were \$94 million and \$204 million, respectively. Over the life of the Program, the Risk Capital segment is expected to incur approximately \$220 million of charges, while the Human Capital segment is expected to incur approximately \$60 million of charges, with the remaining charges relating to corporate expenses.

Total Program costs incurred for the three and six months ended June 30, 2025 and 2024 are as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024

Human Capital	6	12	10	23
Corporate	56	71	143	136
Total	\$ 94	\$ 132	\$ 204	\$ 251

The Company’s unpaid liabilities for charges under the Program are primarily included in Accounts payable and accrued liabilities and Other non-current liabilities in the Condensed Consolidated Statements of Financial Position.

The changes in the Company's liabilities for the Program as of June 30, 2025 are as follows (in millions):

	Technology and other	Workforce optimization	Asset impairments	Total

5. Cash and Cash Equivalents and Short-Term Investments

Cash and cash equivalents include cash balances and all highly liquid instruments with initial maturities of three months or less. Short-term investments consist of money market funds. The estimated fair value of Cash and cash equivalents and Short-term investments approximates their carrying values.

At June 30, 2025, Cash and cash equivalents and Short-term investments were \$1.4 billion compared to \$1.3 billion at December 31, 2024. Of the total balances, \$158 million and \$123 million were restricted as to their use at June 30, 2025 and December 31, 2024, respectively. Included within Short-term investments as of June 30, 2025 and December 31, 2024, were £66 million (\$90 million at June 30, 2025 exchange rates) and £63 million (\$79 million at December 31, 2024 exchange rates), respectively, of operating funds required to be held by the Company in the U.K. by the FCA, a U.K.-based regulator.

7. Acquisitions and Dispositions of Businesses

Completed Acquisitions

On January 1, 2025, the Company completed the acquisition of 100% of the partnership interests and share capital of Griffiths & Armour, an insurance broker in the United Kingdom.

In total, the Company completed two and nine acquisitions during the three and six months ended June 30, 2025, respectively. The Company completed one acquisition within Risk Capital and one within Human Capital during the three months ended June 30, 2025, and seven within Risk Capital and two within Human Capital, during the six months ended June 30, 2025. The Company completed eight acquisitions, five within Risk Capital and three within Human Capital, during the three and six months ended June 30, 2024. Acquisitions that impact multiple segments are categorized by the segment primarily impacted. The following table includes the preliminary fair values of consideration transferred, assets acquired, and liabilities assumed as a result of the Company's acquisitions (in millions):

	Six Months Ended June 30, 2025
Consideration transferred:	
Cash ⁽¹⁾	\$ 631
Deferred and contingent consideration	38
Aggregate consideration transferred	\$ 669
Assets acquired:	
Goodwill	362
Intangible assets	322
Other assets ⁽²⁾	126
Total assets acquired	810
Liabilities assumed:	
Total liabilities assumed	141
Net assets acquired	\$ 669

(1) Includes \$416 million as of December 31, 2024 of consideration paid into an escrow account related to the acquisition of Griffiths & Armour, which closed on January 1, 2025.

(2) Includes Cash and cash equivalents of \$33 million and \$42 million in funds held on behalf of clients.

The results of operations of these acquisitions are included in the Condensed Consolidated Financial Statements as of the respective acquisition dates. The Company's results of operations would not have been materially different if these acquisitions had been reported from the beginning of the period in which they were acquired.

Significant Prior Year Acquisitions

On April 25, 2024, the Company acquired 100% of the outstanding equity interests of NFP Intermediate Holdings A Corp. (the "NFP Transaction") in a cash-and-stock merger for an aggregate U.S. GAAP purchase price totaling \$9.1 billion, including approximately \$3.2 billion used to settle indebtedness of NFP and cash consideration to the selling shareholders, and approximately 19 million class A ordinary shares with a fair value of approximately \$5.9 billion, based on the Company's closing stock price on April 25, 2024. In addition, the Company had other adjustments of \$3.9 billion for cash and certain assumed liabilities. As part of the NFP Transaction, the Company acquired certain less-than-wholly owned entities, resulting in the recognition of noncontrolling interests, which are described further below.

The Company financed the NFP Transaction, in part, with the net proceeds from Senior Notes issued on March 1, 2024 totaling to an aggregate amount of \$6.0 billion and proceeds from a \$2.0 billion delayed draw term loan which was drawn on April 25, 2024. Refer to Note 9 "Debt" for further information.

Aon accounted for its business combinations under the acquisition method of accounting. The acquisition method requires the Company to measure identifiable assets acquired and liabilities assumed at their fair values as of the acquisition date, with the excess of the consideration transferred over those fair values recorded as goodwill. Determining the fair value of intangible assets acquired requires significant judgements, assumptions, and estimates about future events, which the Company believes are reasonable. Use of different estimates and judgements could produce materially different results. These estimates are refined over a measurement period, not to exceed one year from the acquisition date.

The fair values of consideration transferred, assets acquired, liabilities assumed, and redeemable and nonredeemable noncontrolling interests are shown below, where purchase accounting and subsequent measurement period adjustments were finalized in the second quarter of 2025. The following table includes these amounts recognized as of June 30, 2025 as a result of the Company's acquisition of NFP (in millions):

	NFP Acquisition
Consideration transferred:	
Cash	\$ 3,247
Class A ordinary shares issued	5,882

Less: Fair value of redeemable noncontrolling interests ⁽³⁾	(108)
Less: Fair value of nonredeemable noncontrolling interests	(85)
Net assets acquired	\$ 9,129

(1) Includes \$277 million of funds held on behalf of clients.

(2) As of June 30, 2025, the NFP deferred tax liability related to the U.S. has been netted with the Aon deferred tax asset related to the U.S. and presented as a net deferred tax asset on the Consolidated Statements of Financial Position.

(3) The fair value of the noncontrolling interests acquired was estimated using a DCF model under the income approach and used estimated financial projections developed by management applying market participant assumptions.

Since the acquisition date, the Company made measurement period adjustments related to the NFP Transaction which primarily included the following:

- An increase in the fair value of customer-related and contract-based intangible assets of \$125 million;
- A decrease in the fair value of acquired notes receivable of \$107 million (recorded within other current assets and other non-current assets); and
- A \$110 million decrease in deferred tax liabilities primarily as a result of adjustments to state deferred taxes and deferred taxes recorded on other measurement period adjustments;

Collectively, these adjustments, along with other insignificant adjustments not described above, resulted in a \$115 million decrease to goodwill. The measurement period adjustments had an insignificant impact on Net income for the six months ended June 30, 2025.

The purchase price related to the NFP Transaction exceeded the estimated fair value of the tangible and identifiable intangible assets acquired and liabilities assumed and, as a result of the purchase allocation, the Company recorded goodwill of approximately \$6.8 billion, which is not deductible for tax purposes. The goodwill recognized is attributable primarily to anticipated growth opportunities and synergies as a result of the NFP Transaction which provides the Company with an expanded presence in the large and fast-growing middle-market. As of June 30, 2025, the company had allocated \$2.6 billion of the acquired goodwill to Risk Capital and \$4.2 billion of the acquired goodwill to Human Capital.

The fair value of the assets acquired and liabilities assumed in the NFP Transaction approximated their carrying values as of the acquisition date with the exception of customer-related and contract-based assets, tradename, technology, and contingent consideration obligations. Intangible assets acquired had a weighted average useful economic life of 19 years.

Supplemental Pro Forma Combined Information (Unaudited)

The following unaudited pro forma combined financial information presents the combined results of operations of the Company as if the NFP Transaction occurred on January 1, 2023. The unaudited pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the NFP Transaction had taken place on the date indicated or of results that may occur in the future (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
Revenue	\$ 3,910	\$ 3,729	\$ 8,528	\$ 8,099
Net income attributable to Aon shareholders	465	427	1,401	1,269

The unaudited pro forma financial information is based on historical information of the Company and NFP, along with certain material pro forma adjustments. The material pro forma adjustments primarily consist of (i) incremental amortization expense based on the preliminary fair values of the intangible assets acquired; (ii) interest expense to reflect Aon's borrowings under the Senior Notes offering and delayed draw term loan; (iii) increased compensation expense relating to the issuance of certain cash and equity plans related to the NFP Transaction; (iv) nonrecurring transaction costs; (v) accounting policy alignment adjustments, and (vi) income tax impact of the aforementioned pro forma adjustments. In addition, the Company reflected pro forma adjustments related to measurement period adjustments.

Completed Dispositions

The Company completed one disposition within Human Capital in the three and six months ended June 30, 2025. The Company completed two dispositions, both within Risk Capital, during the three months ended June 30, 2024 and three dispositions, two within Risk Capital and one within Human Capital, during the six months ended June 30, 2024. Dispositions that impact multiple segments are categorized by the segment primarily impacted.

There were insignificant pretax gains recognized related to dispositions for the three and six months ended June 30, 2025. There were \$257 million pretax gains recognized related to dispositions for the three and six months ended June 30, 2024. Gains recognized as a result of a disposition are included in Other income (expense) in the Condensed Consolidated Statements of Income.

Other Significant Activity

On May 1, 2017, the Company completed the sale of its benefits administration and business process outsourcing business (the "Divested Business") to an entity controlled by affiliates of The Blackstone Group L.P. (the "Buyer") and certain designated purchasers that are direct or indirect subsidiaries of the Buyer. The Buyer purchased all of the outstanding equity interests of the Divested Business, plus certain related assets and liabilities for a purchase price of \$4.3 billion in cash paid at closing and deferred consideration of up to \$500 million. During the three and six months ended June 30, 2025, the Company earned \$88 million and \$108 million, respectively, of deferred consideration from the Buyer and the other designated purchasers, compared to \$82 million earned during the six months ended June 30, 2024, which was all earned in the first quarter of 2024. These gains are recorded in Other income (expense) in the Condensed Consolidated Statements of Income. In total, the Company has earned \$192 million in deferred consideration related to this transaction as of June 30, 2025.

8. Goodwill and Other Intangible Assets

The changes in the net carrying amount of goodwill for the six months ended June 30, 2025 are as follows (in millions):

	Risk Capital	Human Capital	Total

9. Debt

Notes

In May 2025, Aon Global Limited's €500 million (\$585 million at June 30, 2025 exchange rates) 2.875% Senior Notes due May 2026 were classified as Short-term debt and current portion of long-term debt in the Consolidated Statement of Financial Position as the date of maturity is in less than one year. The Company expects to use cash flow from operations and available cash on hand to repay these Senior Notes.

In December 2024, Aon Global Limited's \$750 million 3.875% Senior Notes due December 2025 were classified as Short-term debt and current portion of long-term debt in the Consolidated Statement of Financial Position as the date of maturity is in less than one year. The Company expects to use cash flow from operations and available cash on hand to repay these Senior Notes.

In June 2024, Aon Global Limited's \$600 million 3.50% Senior Notes matured and were repaid in full.

On April 25, 2024, Aon North America, Inc. drew its \$2 billion delayed draw term loan and used proceeds, together with the proceeds of the Senior Notes issued on March 1, 2024 described below, to pay a portion of cash consideration in connection with the acquisition of NFP, completed on April 25, 2024, (the "NFP Transaction"), to repay certain debt of NFP, and to pay related fees and expenses. The term loan matures on April 24, 2027 and is prepayable at any time. In the second quarter of 2025, Aon North America, Inc. repaid \$300 million of the outstanding balance under the term loan facility, and as of June 30, 2025, has repaid \$1.2 billion of the outstanding balance. The remaining outstanding balance is \$800 million.

On April 2, 2024, Aon plc announced that its wholly owned subsidiary, Randolph Acquisition Corp., commenced cash tender offers for any and all of the outstanding 6.875% Senior Notes due 2028, 4.875% Senior Secured Notes due 2028, 7.500%

Senior Secured Notes due 2030 and 8.500% Senior Secured Notes due 2031, each issued by NFP Corp. (together, the “NFP Notes”), upon the terms and subject to the conditions set forth in the Offer to Purchase and Consent Solicitation Statement, dated as of April 2, 2024. The total amount tendered pursuant to the tender offers was approximately \$3.3 billion, excluding premiums. On April 26, 2024, Randolph Acquisition Corp. purchased those NFP Notes that were validly tendered and not validly withdrawn prior to April 15, 2024, effecting the early settlement of the offers (the “Early Settlement”). In addition, on April 16, 2024, NFP Corp. delivered notices of redemption of all NFP Notes not validly tendered pursuant to the offers and purchased at the Early Settlement, at a purchase price equal to the price paid to holders of the NFP Notes in connection with the Early Settlement, with a redemption date of April 26, 2024. As a result of the Early Settlement of the offers and the related redemption which occurred on April 26, 2024, no NFP Notes remain outstanding. Aon plc incurred \$6 million of debt extinguishment charges in the second quarter of 2024 related to costs related to the NFP Transaction.

On March 1, 2024, Aon North America, Inc. issued \$600 million 5.125% Senior Notes due in March 2027, \$1 billion 5.150% Senior Notes due in March 2029, \$650 million 5.300% Senior Notes due in March 2031, \$1.75 billion 5.450% Senior Notes due in March 2034, and \$2 billion 5.750% Senior Notes due in March 2054, totaling to an aggregate amount of \$6 billion. The Company intends to use the net proceeds from the offering for general corporate purposes, including a portion of which was used to pay a portion of the cash consideration in connection with the NFP Transaction, to repay certain debt of NFP, and to pay related fees and expenses.

Revolving Credit Facilities

As of June 30, 2025, Aon plc had two primary committed credit facilities outstanding: its \$1.0 billion multi-currency U.S. credit facility expiring in September 2027 and its \$1.0 billion multi-currency U.S. credit facility expiring in October 2028. In aggregate, these two facilities provide \$2.0 billion in available credit.

Each of these primary committed credit facilities includes customary representations, warranties, and covenants, including financial covenants that require Aon to maintain specified ratios of adjusted consolidated EBITDA to consolidated interest expense and consolidated debt to adjusted consolidated EBITDA, in each case, tested quarterly. Aon did not have borrowings under either of these primary committed credit facilities as of June 30, 2025 or December 31, 2024. Additionally, Aon was in compliance with the financial covenants and all other covenants contained therein during the rolling 12 months ended June 30, 2025 and December 31, 2024.

Commercial Paper

Aon Corporation has established a U.S. commercial paper program (the “U.S. Program”) and Aon Global Holdings plc has established a European multi-currency commercial paper program (the “European Program” and, together with the U.S. Program, the “Commercial Paper Programs”). Commercial paper may be issued in aggregate principal amounts of up to approximately \$1.3 billion under the U.S. Program and €625 million (\$731 million at June 30, 2025 exchange rates) under the European Program, not to exceed the amount of the Company’s committed credit facilities, which was \$2.0 billion at June 30, 2025. The aggregate capacity of the Commercial Paper Program remains fully backed by the Company’s committed credit facilities. The U.S. Program was fully and unconditionally guaranteed by Aon plc, Aon Global Limited, Aon North America, Inc., and Aon Global Holdings plc and the European Program was fully and unconditionally guaranteed by Aon plc, Aon Global Limited, Aon North America, Inc., and Aon Corporation.

Commercial paper outstanding, which is included in Short-term debt and current portion of long-term debt in the Company’s Condensed Consolidated Statements of Financial Position, is as follows (in millions):

	June 30, 2025	December 31, 2024
Commercial paper outstanding	\$ 501	\$ —

The weighted average commercial paper outstanding and its related interest rates are as follows (in millions, except percentages):

10. Income Taxes

The effective tax rate on Net income was 15.5% and 19.3% for the three and six months ended June 30, 2025, respectively. The effective tax rate on Net income was 22.9% and 23.1% for the three and six months ended June 30, 2024, respectively.

For the three and six months ended June 30, 2025, the tax rate was primarily driven by the geographical distribution of income and certain discrete items, including the tax benefit associated with the anticipated sale of certain assets and liabilities classified as held for sale and share-based payments partially offset by the unfavorable impact of other discrete items.

For the three and six months ended June 30, 2024, the tax rate was primarily driven by the geographical distribution of income and certain discrete items, including the favorable impacts of share-based payments offset by the unfavorable impact of discrete items.

11. Shareholders' Equity

Ordinary Shares

Aon has a share repurchase program authorized by the Company's Board of Directors ("the Repurchase Program"). The Repurchase Program was established in April 2012 with \$5.0 billion in authorized repurchases, and was increased by \$5.0 billion in authorized repurchases in each of November 2014, June 2017, and November 2020, and by \$7.5 billion in February 2022 for a total of \$27.5 billion in repurchase authorizations.

Under the Repurchase Program, the Company's class A ordinary shares may be repurchased through the open market or in privately negotiated transactions, from time to time, based on prevailing market conditions, and will be funded from available capital.

The following table summarizes the Company's share repurchase activity (in millions, except per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Shares repurchased	0.7	0.8	1.3	1.6

Repurchase costs recorded to accumulated deficit	\$ 250	\$ 250	\$ 500	\$ 500

At June 30, 2025, the remaining authorized amount for share repurchases under the Repurchase Program was approximately \$1.8 billion. Under the Repurchase Program, the Company has repurchased a total of 173.5 million shares for an aggregate cost of approximately \$25.7 billion.

Weighted Average Ordinary Shares

Weighted average ordinary shares outstanding are as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024

Diluted weighted average ordinary shares outstanding	217.3	213.3	217.6	206.7

Potentially issuable shares are not included in the computation of Diluted net income per share attributable to Aon shareholders if their inclusion would be antidilutive. There were 0.4 million and 0.1 million shares excluded from the calculation for the three and six months ended June 30, 2025, respectively. There were 1.4 million and 0.6 million shares excluded from the calculation for the three and six months ended June 30, 2024, respectively.

13. Derivatives and Hedging

The Company is exposed to market risks, including changes in foreign currency exchange rates and interest rates. To manage the risk related to these exposures, the Company enters into various derivative instruments that reduce these risks by creating offsetting exposures. The Company does not enter into derivative transactions for trading or speculative purposes.

Foreign Exchange Risk Management

The Company is exposed to foreign exchange risk when it earns revenues, pays expenses, enters into monetary intercompany transfers or other transactions denominated in a currency that differs from its functional currency. The Company uses foreign exchange derivatives, typically forward contracts, options and cross currency swaps, to reduce its overall exposure to the effects of currency fluctuations on cash flows. These exposures are hedged, on average, for less than two years. These derivatives are

accounted for as hedges, and changes in fair value are recorded each period in Other comprehensive income (loss) in the Condensed Consolidated Statements of Comprehensive Income.

The Company also uses foreign exchange derivatives, typically forward contracts and options, to economically hedge the currency exposure of the Company's global liquidity profile, including monetary assets or liabilities that are denominated in a non-functional currency of an entity, typically on a rolling 90-day basis, but may be for up to one year in the future. These derivatives are not accounted for as hedges, and changes in fair value are recorded each period in Other income (expense) in the Condensed Consolidated Statements of Income.

The notional and fair values of derivative instruments are as follows (in millions):

	Notional Amount		Net Amount of Derivative Assets Presented in the Statements of Financial Position ⁽¹⁾		Net Amount of Derivative Liabilities Presented in the Statements of Financial Position ⁽²⁾	
	June 30, 2025	December 31, 2024	June 30, 2025	December 31, 2024	June 30, 2025	December 31, 2024

(2) Included within Other current liabilities (\$1 million at December 31, 2024).

(3) These contracts typically are for 90-day durations and executed close to the last day of the most recent reporting month, thereby resulting in nominal fair values at the balance sheet date.

The amounts of derivative gains recognized in the Condensed Consolidated Financial Statements are as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Gain recognized in Accumulated other comprehensive loss	\$ 20	\$ 4	\$ 22	\$ 101

The amounts of derivative gains (losses) reclassified from Accumulated other comprehensive loss to the Condensed Consolidated Statements of Income are as follows (in millions):

	2025	2024	2025	2024
Total revenue	\$ 7	\$ 2	\$ 5	\$ (2)
Interest expense	\$ 1	\$ —	\$ 1	\$ —
Total	\$ 8	\$ 2	\$ 6	\$ (2)

The Company estimates that approximately \$15 million of pretax gains currently included within Accumulated other comprehensive loss will be reclassified into earnings in the next twelve months.

During the three and six months ended June 30, 2025, the Company recorded a gain of \$24 million and \$37 million, respectively, in Other income (expense) for foreign exchange derivatives not designated or qualifying as hedges. During the three and six months ended June 30, 2024, the Company recorded losses of \$6 million and \$9 million, respectively, in Other income (expense) for foreign exchange derivatives not designated or qualifying as hedges.

14. Fair Value Measurements and Financial Instruments

Accounting standards establish a three-tier fair value hierarchy that prioritizes the inputs used in measuring fair values as follows:

- Level 1 — observable inputs such as quoted prices for identical assets in active markets;
- Level 2 — inputs other than quoted prices for identical assets in active markets, that are observable either directly or indirectly; and
- Level 3 — unobservable inputs in which there is little or no market data which requires the use of valuation techniques and the development of assumptions.

The following methods and assumptions are used to estimate the fair values of the Company's financial instruments:

Money market funds consist of institutional prime, treasury, and government money market funds. The Company reviews treasury and government money market funds to obtain reasonable assurance that the fund net asset value is \$1 per share, and reviews the floating net asset value of institutional prime money market funds for reasonableness.

Equity investments consist of equity securities and equity derivatives valued using the closing stock price on a national securities exchange. Over-the-counter equity derivatives are valued using observable inputs such as underlying prices of the underlying security and volatility. On a sample basis, the Company reviews the listing of Level 1 equity securities in the portfolio, agrees the closing stock prices to a national securities exchange, and independently verifies the observable inputs for Level 2 equity derivatives and securities.

Fixed income investments consist of certain categories of bonds and derivatives. Corporate, government, and agency bonds are valued by pricing vendors who estimate fair value using recently executed transactions and proprietary models based on observable inputs, such as interest rate spreads, yield curves, and credit risk. Asset-backed securities are valued by pricing vendors who estimate fair value using DCF models utilizing observable inputs based on trade and quote activity of securities with similar features. Fixed income derivatives are valued by pricing vendors using observable inputs such as interest rates and yield curves. The Company obtains an understanding of the models, inputs, and assumptions used in developing prices provided by its vendors through discussions with the fund managers. The Company independently verifies the observable inputs, as well as assesses assumptions used for reasonableness based on relevant market conditions and internal Company guidelines. If an assumption is deemed unreasonable, based on internal Company guidelines, it is then reviewed by management and the fair value estimate provided by the vendor is adjusted, if deemed appropriate. These adjustments do not occur frequently and historically are not material to the fair value estimates used in the Condensed Consolidated Financial Statements.

Derivatives are carried at fair value, based upon industry standard valuation techniques that use, where possible, current market-based or independently sourced pricing inputs, such as interest rates, currency exchange rates, or implied volatility.

Debt is carried at outstanding principal balance, less any unamortized issuance costs, discount or premium. Fair value is based on quoted market prices or estimates using DCF analyses based on current borrowing rates for similar types of borrowing arrangements.

The following tables present the categorization of the Company's assets and liabilities that are measured at fair value on a recurring basis at June 30, 2025 and December 31, 2024 (in millions):

(1) Included within Fiduciary assets or Short-term investments in the Condensed Consolidated Statements of Financial Position, depending on their nature and initial maturity.

(2) Refer to Note 13 “Derivatives and Hedging” for additional information regarding the Company’s derivatives and hedging activity.

There were no transfers of assets or liabilities between fair value hierarchy levels in the three and six months ended June 30, 2025 or 2024. The Company recognized no realized or unrealized gains or losses in the Condensed Consolidated Statements of Income during the three and six months ended June 30, 2025 or 2024 related to assets and liabilities measured at fair value using unobservable inputs.

The fair value of debt is classified as Level 2 of the fair value hierarchy. The following table provides the carrying value and fair value for the Company’s term debt (in millions):

	June 30, 2025		December 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value

15. Claims, Lawsuits, and Other Contingencies

Legal

Aon and its subsidiaries are subject to numerous claims, tax assessments, lawsuits, and proceedings that arise in the ordinary course of business, which frequently include E&O claims. The damages claimed in these matters are or may be substantial, including, in many instances, claims for punitive, treble, or extraordinary damages. While Aon maintains meaningful E&O insurance and other insurance programs to provide protection against certain losses that arise in such matters, Aon has exhausted or materially depleted its coverage under some of the policies that protect the Company and, consequently, is self-insured or materially self-insured for some claims, including coverage from Aon’s self-insurance program. Accruals for these exposures, and related insurance receivables, when applicable, are included in the Condensed Consolidated Statements of Financial Position and have been recognized in Other general expense in the Condensed Consolidated Statements of Income to the extent that losses are deemed probable and are reasonably estimable. These amounts are adjusted from time to time as developments warrant. Matters that are not probable and reasonably estimable are not accrued for in the financial statements.

The Company’s contingencies and exposures are subject to significant uncertainties, and the determination of likelihood of a loss and estimating any such loss can be complex. The Company is therefore, in certain matters, unable to estimate the range of reasonably possible loss. Although management at present believes that the ultimate outcome of such matters, individually or in the aggregate, will not have a material adverse effect on the consolidated financial position of Aon, legal proceedings are subject to inherent uncertainties and unfavorable rulings or other events. Unfavorable resolutions could include substantial monetary or punitive damages imposed on Aon or its subsidiaries. If unfavorable outcomes of these matters were to occur, future results of operations or cash flows for any particular quarterly or annual period could be materially adversely affected. Certain significant legal proceedings involving us or our subsidiaries are described below.

Current Matters

Aon faces legal action arising out of a fatal plane crash in November 2016. Aon U.K. Limited placed an aviation civil liability reinsurance policy for the Bolivian insurer of the airline. After the crash, the insurer determined that there was no coverage

under the airline's insurance policy due to the airline's breach of various policy conditions. In November 2018, the owner of the aircraft filed a claim in Bolivia against Aon, the airline, the insurer and the insurance broker. The claim is for \$16 million plus any liability the owner has to third parties. In November 2019, a federal prosecutor in Brazil filed a public civil action naming three Aon entities as defendants, along with the airline, the insurer and the lead reinsurer. That claim seeks pecuniary damages for families affected by the crash in the sum of \$300 million; or, in the alternative, \$50 million; or, in the alternative, \$25 million; plus "moral damages" of an equivalent sum. Separately, in March 2020, the Brazilian Federal Senate invited Aon to give evidence to a Parliamentary Commission of Inquiry in an investigation into the accident. Aon cooperated with that inquiry. In August 2020, 43 individuals (surviving passengers and estates of the deceased) filed a motion in the Circuit Court of the 11th Judicial Circuit in and for Miami-Dade County, Florida, seeking permission to commence proceedings against Aon (and the insurer and reinsurers) for claims totaling \$844 million. In December 2022, the High Court in England granted an anti-suit injunction, restricting the 43 individuals who previously filed a motion in the Circuit Court of the 11th Judicial Circuit in and for Miami Dade County, Florida, from continuing litigation in the Circuit Court of the 11th Judicial Circuit against Aon. In June 2025, the 43 individuals filed a counterclaim against Aon in the UK seeking damages. The claim is alleged to be governed in the alternative by the laws of three different jurisdictions and asserts damages in the amount of \$16.7 million. The claim alleges that certain aspects of the damages have yet to be calculated. Aon believes that it has meritorious defenses and intends to vigorously defend itself against the remaining claims.

Certain of the Company's clients and counterparties have initiated or indicated that they may initiate legal proceedings against the Company following allegations in July 2023 that fraudulent letters of credit were issued in the name of third-party banks in connection with transactions for which capital was arranged by Vesttoo Ltd. ("Vesttoo"). Vesttoo was one of the third parties that identified capital providers to collateralize insurance and reinsurance obligations of the Company's clients and counterparties, including in connection with property and casualty insurance, cyber insurance, and collateral protection insurance. In certain transactions in which Vesttoo identified third party capital providers to collateralize reinsurance obligations, including transactions in which the Company or its affiliates provided brokerage or other services, some letters of credit from third party banks are alleged to have been fraudulent. The pending or threatened legal proceedings against the Company by clients and counterparties – including by the liquidating trust formed to pursue claims on behalf of the Vesttoo bankruptcy estate – allege, among other theories of liability, that in certain circumstances the Company failed to comply with its alleged duty to procure appropriate letters of credit. In particular, on November 30, 2023, Clear Blue Insurance Company and certain of its affiliates filed a lawsuit in New York State Supreme Court against Aon plc and Aon Insurance Managers (Bermuda) Ltd. alleging such claims. While Aon has settled and/or is in discussions to settle certain claims, Aon believes that it has meritorious defenses and intends to vigorously defend itself against those claims that are not settled. In the fourth quarter of 2023, the Company recognized actual or anticipated legal settlement expenses in connection with these matters of \$197 million, of which a potentially significant amount may be recoverable in future periods. Aon has sought and will continue to seek recourse against responsible third parties where appropriate. In addition, in August 2023, joint provisional liquidators were appointed over one of the Company's subsidiaries in Bermuda with respect to segregated accounts that were impacted by the allegedly fraudulent letters of credit. The joint provisional liquidators were released from their appointment on July 3, 2024. Aon continues to cooperate with regulators in Bermuda, and other regulatory authorities could initiate investigations or proceedings against the Company or third parties.

Guarantees and Indemnifications

The Company provides a variety of guarantees and indemnifications to its customers and others. The maximum potential amount of future payments represents the notional amounts that could become payable under the guarantees and indemnifications if there were a total default by the guaranteed parties, without consideration of possible recoveries under recourse provisions or other methods. These amounts may bear no relationship to the expected future payments, if any, for these guarantees and indemnifications. Any anticipated amounts payable are included in the Condensed Consolidated Financial Statements, and are recorded at fair value.

The Company expects that, as prudent business interests dictate, additional guarantees and indemnifications may be issued from time to time.

Guarantee of Registered Securities

On February 28, 2024, Aon plc, Aon Corporation, Aon Global Holdings plc, and Aon Global Limited (together with Aon plc, Aon Corporation and Aon Global Holdings, plc, the “Guarantors”), Aon North America, Inc. and the Trustee entered into an indenture and first supplemental indenture, each dated March 1, 2024, to add for the benefit of the holders of the instruments issued thereunder a full and unconditional guarantee by the Guarantors of the obligations of Aon North America, Inc. thereunder.

Letters of Credit

Aon has entered into a number of arrangements whereby the Company’s performance on certain obligations is guaranteed by a third party through the issuance of LOCs. The Company had total LOCs outstanding of approximately \$126 million at June 30, 2025, and \$124 million at December 31, 2024. These LOCs cover the beneficiaries related to certain of Aon’s U.S. and Canadian secure non-qualified pension plan schemes, reinsurance obligations related to Aon’s own E&O liability insurance program, and secure deductible retentions for Aon’s own workers compensation program. The Company has also obtained LOCs to cover contingent payments for taxes and other business obligations to third parties, and other guarantees for miscellaneous purposes at its international subsidiaries.

Premium Payments

The Company has certain contractual contingent guarantees for premium payments owed by clients to certain insurance companies. The maximum exposure with respect to such contractual contingent guarantees was approximately \$161 million at June 30, 2025 compared to \$162 million at December 31, 2024.

16. Segment Information

Reportable segments were determined using a management approach. They are consistent with how the CODM assesses the performance of the Company and allocates resources based on two segments: Risk Capital and Human Capital. This segmentation allows the CODM, who is our Chief Executive Officer and President, to align the assessment of performance and allocation of resources, based on segment operating income and operating margin, with how the Company addresses client need, accelerating its Aon United strategy through growth in Risk Capital and Human Capital and maximizing value for Aon and its shareholders.

Risk Capital supports clients through its Commercial Risk and Reinsurance solution lines. Commercial Risk includes insurance and specialty brokerage, global risk consulting, captives management, and Affinity programs. Reinsurance includes treaty reinsurance, facultative reinsurance, Strategy and Technology Group, and capital markets.

Human Capital supports clients through its Health and Wealth solution lines. Health includes consulting and brokerage, consumer benefits solutions, and talent advisory services. Wealth includes retirement consulting, pension administration, and investments consulting. Refer to Note 3 “Revenue from Contracts with Customers” for information on revenue by principal service line.

The Company does not present assets by reportable segment and this information is not used by the CODM to assess the performance of, or allocate resources to the Company’s reportable segments. As such, segment assets are not provided to the CODM.

The following tables include information about our reportable segments, including total segment revenue, consolidated revenue, segment operating income, and income before income taxes:

(1) Includes fiduciary investment income of \$60 million and \$125 million, respectively, in Risk Capital and less than \$1 million and \$2 million, respectively, in Human Capital for the three and six months ended June 30, 2025. Includes fiduciary investment income of \$73 million and \$151 million, respectively, in Risk Capital and \$2 million and \$3 million, respectively, in Human Capital for the three and six months ended June 30, 2024.

(2) Includes expenses related to Depreciation of fixed assets, Amortization and impairment of intangible assets, Accelerating Aon United Program expenses, and Other general expenses.

Revenue

Reportable segment revenue includes inter-segment revenue of less than \$1 million and \$5 million, respectively, for Risk Capital and \$2 million and \$4 million, respectively, for Human Capital for the three and six months ended June 30, 2025, compared to \$10 million and \$16 million, respectively, for Risk Capital and \$5 million and \$7 million, respectively, for Human Capital for the three and six months ended June 30, 2024. This inter-segment revenue is eliminated as a Corporate adjustment to reconcile to the Company's Consolidated Total revenue.

Segment Operating Expenses

The Company's segment operating expenses are generally attributed to the function of the business. Segment expenses exclude governance costs, post-retirement benefits, and other costs that are not directly attributable to a specific segment. These expenses are considered corporate expenses/eliminations.

Non-operating Expenses

The Company's non-operating income (expenses) primarily consist of Interest income, Interest expense and Other income (expense) which are not allocated to our reportable segments, as the CODM assesses performance based on operating income results. Interest income represents income earned on Cash and cash equivalents and Short-term investments. Interest expense represents the cost of debt obligations. Other income (expense) consists of equity earnings, realized gains or losses on the sale of investments, gains on the disposal of businesses, gains or losses on derivatives, and gains or losses on foreign currency remeasurement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

EXECUTIVE SUMMARY OF SECOND QUARTER 2025 FINANCIAL RESULTS

Aon plc is a leading global professional services firm providing a broad range of Risk Capital and Human Capital solutions. Through our experience, global reach, and comprehensive analytics, we help clients meet rapidly changing, increasingly complex, and interconnected challenges related to risk and people. We are committed to accelerating innovation to address unmet and evolving client needs so that our clients are better informed, better advised, and able to make better decisions to protect and grow their business. Management remains focused on strengthening Aon and uniting the firm with a portfolio of Risk Capital and Human Capital capabilities enabled by data and analytics and a united operating model to deliver additional insight, connectivity, and efficiency.

Financial Results

The following is a summary of our second quarter of 2025 financial results.

- Revenue increased \$395 million, or 11%, to \$4.2 billion compared to the prior year period. The increase reflects 6% organic revenue growth, the contribution from NFP and a 1% favorable impact from foreign currency translation. Risk Capital revenue increased \$216 million, or 8%, to \$2.9 billion and Human Capital revenue increased \$166 million, or 15%, to \$1.3 billion compared to the prior year period. For the first six months of 2025, Revenue increased \$1.1 billion, or 13%, to \$8.9 billion compared to the prior year period. The increase reflects the contribution from NFP, 5% organic revenue growth, and a 1% unfavorable impact from foreign currency translation. Risk Capital revenue increased \$432 million, or 8%, to \$6.1 billion and Human Capital revenue increased \$608 million, or 27%, to \$2.8 billion compared to the prior year period.
- Operating expenses increased \$192 million, or 6%, to \$3.3 billion compared to the prior year period due primarily to the inclusion of NFP's ongoing operating expenses, an increase in intangible asset amortization associated with the NFP acquisition and an increase in expense associated with 6% organic revenue growth and investments in long-term growth, partially offset by transaction costs incurred in the prior year period, lower Accelerating Aon United program expense and \$35 million of net restructuring savings. Risk Capital operating expenses increased \$136 million, or 7%, to \$2.0 billion and Human Capital operating expenses increased \$139 million, or 13%, to \$1.2 billion compared to the prior year period. For the first six months of 2025, Operating expenses increased \$855 million, or 15%, to \$6.6 billion compared to the prior year period due primarily to the inclusion of NFP's ongoing expenses, an increase in intangible asset amortization associated with the NFP acquisition, an increase in expense associated with 5% organic revenue growth and investments in long-term growth, partially offset by transaction costs incurred in the prior year period and \$75 million of net restructuring savings. Risk Capital operating expenses increased \$340 million, or 9%, to \$4.0 billion and Human Capital operating expenses increased \$565 million, or 32%, to \$2.3 billion compared to the prior year period.
- Operating margin increased to 20.7% from 17.4% in the prior year period, driven by organic revenue growth of 6% and \$35 million of net restructuring savings, partially offset by the addition of NFP and an increase in operating expenses as previously described. Risk Capital operating margin increased to 30.1% from 29.6% and Human Capital operating margin increased to 9.1% from 8.0% compared to the prior year period. For the first six months of 2025, Operating margin decreased to 26.1% from 27.1% in the prior year period, driven primarily by the addition of NFP and an increase in operating expenses as previously described, partially offset by organic revenue growth of 5% and \$75 million of net restructuring savings. Risk Capital operating margin decreased to 34.0% from 35.0% and Human Capital operating margin decreased to 18.3% from 21.4% compared to the prior year period.
- Due to the factors set forth above, Net income increased \$56 million, or 10%, to \$594 million compared to the prior year period. For the first six months of 2025, Net income decreased \$55 million, or 3%, to \$1.6 billion compared to the prior year period.
- Diluted earnings per share was \$2.66 compared to \$2.46 per share for the prior year period. For the first six months of 2025, Diluted earnings per share was \$7.10 compared to \$7.72 per share for the prior year period.
- Cash flows provided by operating activities was \$936 million for the first six months of 2025, an increase of \$114 million, or 14%, from \$822 million in the prior year period, primarily due to strong adjusted operating income growth and days sales outstanding improvements, partially offset by higher payments related to incentive compensation, interest, and restructuring.

We focus on four key metrics that are not presented in accordance with U.S. GAAP that we communicate to shareholders: organic revenue growth, adjusted operating margin, adjusted diluted earnings per share, and free cash flow. These non-GAAP metrics should be viewed in addition to, not instead of, our Condensed Consolidated Financial Statements. The following is our measure of performance against these four metrics for the second quarter of 2025:

- Organic revenue growth, a non-GAAP measure defined under the caption “Review of Consolidated Results — Organic Revenue Growth,” was 6% for the second quarter of 2025 and 5% for the first six months of 2025, driven by net new business and ongoing strong retention.
- Adjusted operating margin, a non-GAAP measure defined under the caption “Review of Consolidated Results — Adjusted Operating Margin,” was 28.2% for the second quarter of 2025 compared to 27.4% in the prior year period. The increase in adjusted operating margin primarily reflects 6% organic revenue growth and \$35 million of net restructuring savings, partially offset by the addition of NFP and increased expenses. Risk Capital adjusted operating margin increased to 34.1% compared to 33.6% in the prior year period. Human Capital adjusted operating margin increased to 19.1% compared to 18.7% in the prior year period. For the first six months of 2025, adjusted operating margin was 33.6% compared to 33.8% for the prior year period. The decrease primarily reflects the addition of NFP and increased expenses, partially offset by 5% organic revenue growth and \$75 million of net restructuring savings. Risk Capital adjusted operating margin remained flat at 37.9% in both periods. Human Capital adjusted operating margin increased to 27.9% compared to 27.5% in the prior year period.
- Adjusted diluted earnings per share, a non-GAAP measure defined under the caption “Review of Consolidated Results — Adjusted Diluted Earnings per Share,” was \$3.49 per share for the second quarter of 2025, compared to \$2.93 per share for the prior year period. For the first six months of 2025, adjusted diluted earnings per share was 9.17 per share, compared to \$8.50 per share for the prior year period.
- Free cash flow, a non-GAAP measure defined under the caption “Review of Consolidated Results — Free Cash Flow,” was \$816 million in the first six months of 2025, an increase of \$95 million, or 13%, from \$721 million in the prior year period, reflecting a \$114 million increase in Cash flows from operations, primarily driven by strong operating income growth and improvements in days sales outstanding, partially offset by higher payments related to incentive compensation, interest, and restructuring, and a \$19 million increase in capital expenditures.

The current macroeconomic and geopolitical environment is subject to a number of uncertainties, including geopolitical conflicts, tariffs or changes in trade policies, capital markets volatility, and inflation. These and other factors have contributed and may continue to contribute to slower or negative economic growth and may create a challenging business environment for our clients. While we remain confident in the resilience and strength of our business and financial model, due to the global nature of our business, the current macroeconomic and geopolitical environment could negatively impact our financial condition and results of operations. For more information about these risks, please see “Part I, Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2024.

Management of corporate sustainability risks – including those related to ESG matters – is an increasingly important priority for our clients. At Aon, helping clients manage risk - including those relating to corporate sustainability and ESG - is at the core of what we do. We offer a wide range of risk assessment, consulting, and advisory solutions, many of which are significant parts of our core business offerings, designed to address and manage corporate sustainability and ESG issues for clients, and to enable our clients to create more sustainable value.

Revenue

Total revenue increased \$395 million, or 11%, to \$4.2 billion in the second quarter of 2025, compared to the prior year period. The increase reflects 6% organic revenue growth, the contribution from NFP, and a 1% favorable impact from foreign currency translation. Risk Capital revenue increased \$216 million, or 8%, to \$2.9 billion and Human Capital revenue increased \$166 million, or 15%, to \$1.3 billion in the second quarter of 2025 compared to the prior year period. For the first six months of 2025, Revenue increased \$1.1 billion, or 13%, to \$8.9 billion compared to the prior year period. The increase reflects the contribution from NFP, 5% organic revenue growth, and a 1% unfavorable impact from foreign currency translation. Risk Capital revenue increased \$432 million, or 8%, to \$6.1 billion and Human Capital revenue increased \$608 million, or 27%, to \$2.8 billion for the first six months of 2025 compared to the prior year period.

Risk Capital

Commercial Risk Solutions revenue increased \$163 million, or 8%, to \$2.2 billion in the second quarter of 2025, compared to \$2.0 billion in the second quarter of 2024. Organic revenue growth was 6% in the second quarter of 2025, reflecting growth across all major geographies driven by net new business and ongoing strong retention. Performance was highlighted by strong growth globally in core P&C and strength in M&A services relative to the prior year. Market impact was modestly positive. For the first six months of 2025, revenue increased \$357 million, or 9%, to \$4.2 billion, compared to \$3.8 billion in the first six months of 2024. Organic revenue growth was 5% in the first six months of 2025, reflecting growth across all major geographies driven by net new business and ongoing strong retention. Performance was highlighted by strong growth globally in core P&C. Results also reflect a modest tailwind from M&A services in the first six months of 2025 relative to the prior year period. Market impact was modestly positive in the first half of the year.

Reinsurance Solutions revenue increased \$53 million, or 8%, to \$688 million in the second quarter of 2025, compared to \$635 million in the second quarter of 2024. Organic revenue growth was 6% in the second quarter of 2025, reflecting double-digit increases in insurance-linked securities and facultative placements. Results also reflect growth in treaty, driven by net new business and ongoing strong retention, partially offset by a modest unfavorable market impact. For the first six months of 2025, revenue increased \$75 million, or 4%, to \$1.9 billion, compared to \$1.8 billion in the first six months of 2024. Organic revenue growth was 4% in the first six months of 2025, reflecting growth in treaty, driven by net new business and ongoing strong retention. Results also reflect a double-digit increase in facultative placements and insurance-linked securities. Market impact had a modest unfavorable impact in the first half of the year.

Human Capital

Health Solutions revenue increased \$110 million, or 17%, to \$772 million in the second quarter of 2025, compared to \$662 million in the second quarter of 2024. Organic revenue growth was 6% in the second quarter of 2025, reflecting strength in core health and benefits, driven by net new business, ongoing strong retention, and a modestly positive market impact. The core performance was highlighted by double-digit growth internationally. Results also reflect strength in executive benefits and pharmacy benefits in NFP. For the first six months of 2025, revenue increased \$403 million, or 29%, to \$1.8 billion, compared to \$1.4 billion in the first six months of 2024. Organic revenue growth was 6% in the first six months of 2025, reflecting

strength globally in core health and benefits, driven by net new business, ongoing strong retention, and a modestly positive market impact. Strength in the core was partially offset by lower revenue in Consumer Benefits Solutions in the first six months of 2025. Talent revenue was lower in the first half of the year as strength in advisory was offset by a decline in analytics due to a change in the timing of survey data delivery.

Wealth Solutions revenue increased \$56 million, or 12%, to \$519 million in the second quarter of 2025, compared to \$463 million in the second quarter of 2024. Organic revenue growth was 3% in the second quarter of 2025, reflecting growth in Retirement driven by advisory related to the ongoing impact of regulatory change. In Investments, results reflect strength in NFP, driven by net asset inflows and market performance. For the first six months of 2025, revenue increased \$205 million, or 25%, to \$1.0 billion, compared to \$833 million in the first six months of 2024. Organic revenue growth was 6% in the first six months of 2025, reflecting strength in Investments, highlighted by double-digit revenue growth in NFP, driven by net asset inflows and market performance. Growth in Retirement in the first half of the year was driven by continued demand for advisory related to the ongoing impact of regulatory changes and pension de-risking.

Compensation and Benefits

Compensation and benefits expense increased \$230 million, or 11%, in the second quarter of 2025 compared to the prior year period due primarily to the inclusion of operating expenses from NFP and expense associated with 6% organic revenue growth, partially offset by savings from Accelerating Aon United restructuring actions. For the first six months of 2025, compensation and benefits increased \$596 million, or 15%, compared to the first six months of 2024. The increase was primarily driven by the inclusion of operating expenses from NFP and expense associated with 5% organic revenue growth, partially offset by savings from Accelerating Aon United restructuring actions.

Information Technology

Information technology, which represents costs associated with supporting and maintaining our infrastructure, increased \$4 million, or 3%, in the second quarter of 2025 compared to the prior year period due primarily to the inclusion of ongoing operating expenses from NFP. For the first six months of 2025, information technology expenses increased \$16 million, or 6%, compared to the first six months of 2024. The increase was due primarily to the inclusion of ongoing operating expenses from NFP.

Premises

Premises, which represents the cost of occupying offices in various locations throughout the world, increased \$3 million, or 4%, in the second quarter of 2025 compared to the prior year period, due primarily to the inclusion of ongoing operating expenses from NFP. For the first six months of 2025, premises increased \$14 million, or 9%, compared to the first six months of 2024. The increase was due primarily to the inclusion of ongoing operating expenses from NFP.

Depreciation of Fixed Assets

Depreciation of fixed assets primarily relates to software, leasehold improvements, furniture, fixtures, and equipment, computer equipment, buildings, and vehicles. Depreciation of fixed assets increased \$2 million, or 4%, in the second quarter of 2025 compared to the prior year period. For the first six months of 2025, depreciation of fixed assets increased \$4 million, or 4%, compared to the first six months of 2024.

Amortization and Impairment of Intangible Assets

Amortization and impairment of intangibles primarily relates to finite-lived customer-related and contract-based, technology, and tradename assets. Amortization and impairment of intangible assets increased \$73 million to \$201 million in the second quarter of 2025 compared to the prior year period due primarily to an increase in intangible assets related to the acquisition of NFP. For the first six months of 2025, amortization and impairment of intangible assets increased \$256 million to \$400 million, compared to the first six months of 2024. The increase was due primarily to an increase in intangible assets related to the acquisition of NFP.

Other General Expense

Other general expenses decreased \$82 million, or 18%, in the second quarter of 2025 due primarily to a decrease in transaction and integration costs. For the first six months of 2025, other general expenses increased \$16 million, or 2%, compared to the first six months of 2024. The increase was due primarily to the inclusion of operating expenses from NFP and integration costs, partially offset by transaction costs incurred in the prior year period.

Accelerating Aon United Program Expenses

Accelerating Aon United Program expenses decreased \$38 million in the second quarter of 2025 and decreased \$47 million in the first six months of 2025, each compared to the prior year period due to lower costs related to workforce optimization and asset impairments, partially offset by higher costs related to technology and other costs.

Total Operating Expenses and Operating Income

Total operating expenses increased \$192 million, or 6%, to \$3.3 billion in the second quarter of 2025 due primarily to the inclusion of NFP's ongoing operating expenses, an increase in intangible asset amortization associated with the NFP acquisition, and an increase in expense associated with 6% organic revenue growth and investments in long-term growth, partially offset by transaction costs incurred in the prior year period, lower Accelerating Aon United program expense and \$35 million of net restructuring savings. Due to the factors set forth above, Total operating income increased \$203 million to \$859 million in the second quarter of 2025. For the first six months of 2025, Total operating expenses increased \$855 million, or 15%, to \$6.6 billion due primarily to intangible asset amortization associated with the NFP acquisition, an increase in 5% organic revenue growth and investments in long-term growth, partially offset by \$75 million of net restructuring savings. Due to the factors set forth above, Total operating income increased \$199 million to \$2.3 billion for the first six months of 2025.

Risk Capital Total operating expenses increased \$136 million, or 7%, to \$2.0 billion in the second quarter of 2025. The increase was primarily due to an increase in Compensation and benefits. The increase in Compensation and benefits is due to the inclusion of operating expenses from NFP and an increase in expense associated with 6% organic revenue growth in both Commercial Risk Solutions and Reinsurance Solutions, partially offset by restructuring savings. Due to the factors set forth above, Risk Capital Operating income increased \$80 million, or 10%, to \$864 million in the second quarter of 2025. For the first six months of 2025, Risk Capital Total operating expenses increased \$340 million, or 9%, to \$4.0 billion. The increase was primarily due to an increase in Compensation and benefits and in Other expenses. The increase in Compensation and benefits is due to the inclusion of operating expenses from NFP and an increase in expense associated with 5% and 4% organic revenue growth in Commercial Risk Solutions and Reinsurance Solutions, respectively, partially offset by restructuring savings. The increase in Other expenses is primarily due to increased Amortization and impairment from the NFP Transaction. Due to the factors set forth above, Risk Capital Operating income increased \$92 million, or 5%, to \$2.1 billion for the first six months of 2025.

Human Capital Total operating expenses increased \$139 million, or 13%, to \$1.2 billion in the second quarter of 2025. The increase was primarily due to an increase in both Compensation and benefits and Other expenses. The increase in Compensation and benefits is due to the inclusion of operating expenses from NFP and an increase in expense associated with 6% and 3% organic revenue growth in Health Solutions and Wealth Solutions, respectively. The increase in Other expenses is primarily due to increased Amortization and impairment of intangible assets acquired from the NFP Transaction. Due to the factors set forth above, Human Capital Operating income increased \$27 million, or 30%, to \$117 million in the second quarter of 2025. For the first six months of 2025, Human Capital Total operating expenses increased \$565 million, or 32%, to \$2.3 billion. The increase was primarily due to an increase in both Compensation and benefits and Other expenses. The increase in Compensation and benefits is due to the inclusion of operating expenses from NFP and an increase in expense associated with 6% organic revenue growth in both Health Solutions and Wealth Solutions. The increase in Other expenses is primarily due to increased Amortization and impairment of intangible assets acquired from the NFP Transaction. Due to the factors set forth above, Human Capital Operating income increased \$43 million, or 9%, to \$520 million for the first six months of 2025.

Interest Income

Interest income represents income earned, net of expense, on operating cash balances and other income-producing investments. Interest income does not include interest earned on funds held on behalf of clients. During the second quarter of 2025, interest income decreased \$31 million to an insignificant amount and for the first six months of 2025, Interest income decreased \$54 million to \$5 million compared to the prior year period, due primarily to interest earned in the prior year period on the investment of \$5 billion of term debt proceeds which were used to fund the purchase of NFP.

Interest Expense

Interest expense, which represents the cost of our debt obligations, decreased \$13 million to \$212 million during the second quarter of 2025 compared to the prior year period, reflecting lower total debt. For the first six months of 2025, Interest expense increased \$49 million to \$418 million compared to the prior year period. The increase was driven primarily by an increase in total debt, primarily to fund the purchase of NFP.

Other Income (Expense)

Other income was \$56 million for the second quarter of 2025 compared to Other income of \$236 million for the second quarter of 2024. The decrease was primarily due to gains related to the sale of a business in the prior year period, partially offset

by deferred consideration from the 2017 sale of our outsourcing business. For the first six months of 2025, Other income was \$46 million compared to Other income of \$311 million for the first six months of 2024. The decrease was primarily related to gains related to the sale of a business in the prior year period.

Income before Income Taxes

Income before income taxes for the second quarter of 2025 was \$703 million, a 1% increase from \$698 million compared to the prior year period. For the first six months of 2025, Income before income taxes was \$2.0 billion, an 8% decrease from \$2.1 billion for the first six months of 2024.

Income Taxes

The effective tax rate on Net income was 15.5% and 19.3% for the three and six months ended June 30, 2025, respectively. The effective tax rate on Net income was 22.9% and 23.1% for the three and six months ended June 30, 2024, respectively.

For the three and six months ended June 30, 2025, the tax rate was primarily driven by the geographical distribution of income and certain discrete items, including the tax benefit associated with the anticipated sale of certain assets and liabilities classified as held for sale and share-based payments partially offset by the unfavorable impact of other discrete items.

For the three and six months ended June 30, 2024, the tax rate was primarily driven by the geographical distribution of income and certain discrete items, including the favorable impacts of share-based payments offset by the unfavorable impact of discrete items.

Ireland, the U.K., Singapore, and many E.U. member states, among others, have enacted legislation to implement the global minimum tax that is generally consistent with the OECD's proposed Pillar Two tax regime. There remains significant uncertainty, however, as to how Pillar Two will ultimately apply to the Company. The OECD has issued numerous guidance documents attempting to change how Pillar Two Tax operates, subject to enactment by each implementing country, and the OECD may issue additional guidance in the future. The Company is actively monitoring developments in this area and continues to evaluate the guidance and the potential impacts this may have on its global effective tax rate, results of operations, cash flows, and financial condition in 2025 and future periods.

The Company is analyzing the impacts of the One Big Beautiful Bill Act but does not anticipate a material impact on its global effective tax rate, results of operations, cash flows or financial condition in 2025 and future periods.

Net Income Attributable to Aon Shareholders

Net income attributable to Aon shareholders for the second quarter of 2025 increased to \$579 million, or \$2.66 per diluted share, from \$524 million, or \$2.46 per diluted share, in the prior year period. Net income attributable to Aon shareholders for the first six months of 2025 decreased to \$1.5 billion, or \$7.10 per diluted share, from \$1.6 billion, or \$7.72 per diluted share, in the prior year period.

Non-GAAP Metrics

In our discussion of consolidated results, we sometimes refer to certain non-GAAP supplemental information derived from consolidated financial information specifically related to organic revenue growth, adjusted operating margin, adjusted diluted earnings per share, adjusted net income attributable to Aon shareholders, adjusted net income per share, adjusted other income (expense), adjusted effective tax rate, free cash flow, and the impact of foreign exchange rate fluctuations on operating results. Management believes that these measures are important to make meaningful period-to-period comparisons and that this supplemental information is helpful to investors. Management also uses these measures to assess operating performance and performance for compensation. This non-GAAP supplemental information should be viewed in addition to, not instead of, our Condensed Consolidated Financial Statements.

Organic Revenue Growth

We use supplemental information related to Organic revenue growth to help us and our investors evaluate business growth from ongoing operations. Organic revenue growth is a non-GAAP measure that includes the impact of certain intercompany activity and excludes the impact of changes in foreign exchange rates, fiduciary investment income, acquisitions (provided that organic revenue growth includes organic growth of an acquired business as calculated assuming that the acquired business was part of the combined company for the same proportion of the relevant prior year period), divestitures (including held for sale disposal groups, if any), transfers between revenue lines, and gains or losses on derivatives accounted for as hedges. This supplemental information related to organic revenue growth represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, Total revenue in our Condensed Consolidated Financial Statements. Industry peers provide similar supplemental information about their revenue performance, although they may not make identical

adjustments. A reconciliation of this non-GAAP measure to the reported Total revenue is as follows (in millions, except percentages):

(1) Currency impact represents the effect on prior year period results if they were translated at current period foreign exchange rates.

(2) Fiduciary investment income for the three months ended June 30, 2025 and 2024 was \$66 million and \$75 million, respectively. Fiduciary investment income for the six months ended June 30, 2025 and 2024 was \$133 million and \$154 million, respectively.

(3) Organic revenue growth includes the impact of certain intercompany activity and excludes the impact of changes in foreign exchange rates, fiduciary investment income, acquisitions (provided that Organic revenue growth includes Organic growth of an acquired business as calculated assuming that the acquired business was part of the combined company for the same proportion of the relevant prior year period), divestitures (including held for sale disposal groups, if any), transfers between revenue lines, and gains or losses on derivatives accounted for as hedges.

Adjusted Operating Margin

We use adjusted operating margin as a non-GAAP measure of our core operating performance of the Company. Adjusted operating margin excludes the impact of certain items, as listed below, because management does not believe these expenses are the best indicators of our core operating performance. This supplemental information related to adjusted operating margin represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, Operating margin in our Condensed Consolidated Financial Statements.

A reconciliation of this non-GAAP measure to the reported operating margin is as follows (in millions, except percentages):

- (1) Corporate expenses/eliminations include governance costs, post-retirement benefits, and other costs that are not directly attributable to a specific segment.
- (2) Total charges are expected to include technology-related costs to facilitate streamlining and simplifying operations, headcount reduction costs, and costs associated with asset impairments, including real estate consolidation and technology costs.
- (3) Transaction costs include advisory, legal, accounting, regulatory, and other professional or consulting fees required to complete the NFP Transaction. No transaction costs were recognized for the three and six months ended June 30, 2025. \$85 million and \$96 million of transaction costs were recognized for the three and six months ended June 30, 2024, respectively. Of these amounts, \$79 million and \$90 million were recognized, respectively, in Total operating expenses and \$6 million were recognized in Other income (expense) related to the extinguishment of acquired NFP debt for the three and six months ended June 30, 2024.
- (4) The NFP Transaction has and will continue to result in certain non-recurring integration costs associated with colleague severance, retention bonus awards, termination of redundant third-party agreements, costs associated with legal entity rationalization, and professional or consulting fees related to alignment of management processes and controls, as well as costs associated with the assessment of NFP information technology environment and security protocols. Aon incurred \$27 million and \$16 million of integration costs in the three months ended June 30, 2025 and 2024, respectively, and \$56 million and \$20 million of integration costs in the six months ended June 30, 2025 and 2024, respectively.

Risk Capital Adjusted operating income increased \$85 million, or 10%, to \$976 million in the second quarter of 2025. The increase was primarily due to organic revenue growth of 6% in both Commercial Risk Solutions and Reinsurance Solutions and the impact of NFP, partially offset by increased expenses and investments in long-term growth. Human Capital Adjusted operating income increased \$36 million, or 17%, to \$246 million in the second quarter of 2025. The increase was primarily due to organic revenue growth of 6% in Health Solutions and 3% in Wealth Solutions and the impact of NFP, partially offset by increased expenses and investments in long-term growth. For the first six months of 2025, Risk Capital Adjusted operating income increased \$161 million, or 8%, to \$2.3 billion. The increase was primarily due to organic revenue growth of 5% in Commercial Risk Solutions and 4% in Reinsurance Solutions and the impact of NFP, partially offset by increased expenses and investments in long-term growth. Human Capital Adjusted operating income increased \$179 million, or 29%, to \$791 million for the first six months of 2025. The increase was primarily due to organic revenue growth of 6% in both Health Solutions and Wealth Solutions and the impact of NFP, partially offset by increased expenses and investments in long-term growth.

Adjusted Diluted Earnings per Share

We use adjusted diluted earnings per share as a non-GAAP measure of our core operating performance. Adjusted diluted earnings per share excludes the impact of certain items, as listed below, because management does not believe these expenses are the best indicators of our core operating performance. This supplemental information related to adjusted diluted earnings per share represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, diluted earnings per share in our Condensed Consolidated Financial Statements.

(1) During the three and six months ended June 30, 2025, an \$88 million and \$108 million gain was recognized, respectively, compared to \$82 million recognized for the six months ended June 30, 2024, which was all recognized in the first quarter of 2024. These gains are related to deferred consideration from the affiliates of The Blackstone Group L.P. and the other designated purchasers related to a divestiture completed in a prior year period.

(2) Adjusted items are generally taxed at the estimated annual effective tax rate, except for the applicable tax impact associated with changes in the fair value of contingent consideration, Accelerating Aon United Program expenses, certain transaction and integration costs related to the acquisition of NFP, certain gains from dispositions, and deferred consideration from a prior year sale of business, which are adjusted at the related jurisdictional rate. The tax adjustment also excludes interest accruals for income tax reserves related to the termination fee payment made in connection with the Company's terminated proposed combination with Willis Towers Watson.

(3) Adjusted Other income (expense) excluded gains from dispositions of \$257 million related to the sale of a business for the three and six months ended June 30, 2024.

(4) Adjusted Other income (expense) excluded approximately \$6 million of debt extinguishment charges related to the repayment of NFP debt, which is considered a transaction related cost incurred in the second quarter of 2024.

Free Cash Flow

We use free cash flow, defined as cash flows provided by operations less capital expenditures, as a non-GAAP measure of our core operating performance and cash-generating capabilities of our business operations. This supplemental information related to free cash flow represents a measure not in accordance with U.S. GAAP and should be viewed in addition to, not instead of, Cash provided by operating activities in our Condensed Consolidated Financial Statements. Management believes the supplemental information related to free cash flow is helpful to investors when evaluating our operating performance and liquidity results. The use of this non-GAAP measure does not imply or represent the residual cash flow for discretionary expenditures. A reconciliation of this non-GAAP measure to the reported Cash provided by operating activities is as follows (in millions):

	Six Months Ended June 30,	
	2025	2024
Cash provided by operating activities	\$ 936	\$ 822
Capital expenditures	(120)	(101)

Impact of Foreign Currency Exchange Rate Fluctuations

Because we conduct business in over 120 countries, foreign exchange rate fluctuations may have a significant impact on our business. Foreign exchange rate movements may be significant and may distort true period-to-period comparisons of changes in revenue or pretax income. Therefore, to give financial statement users meaningful information about our operations, we have provided an illustration of the comparable impact of foreign currency exchange rates on our financial results. The methodology used to calculate this comparable impact isolates the impact of the change in currencies between periods by hypothetically translating the prior year quarter's revenue, expenses, and net income using the current quarter's foreign currency exchange rates.

Currency fluctuations had no impact and an unfavorable impact of \$0.13 on net income per diluted share during the three and six months ended June 30, 2025, respectively, if prior year period results were translated at current period foreign exchange rates. Currency fluctuations had an unfavorable impact of \$0.05 and an unfavorable impact of \$0.04 on net income per diluted share during the three and six months ended June 30, 2024, respectively, if 2023 results were translated at 2024 rates.

Currency fluctuations had a favorable impact of \$0.01 and an unfavorable impact of \$0.13 on adjusted diluted earnings per share during the three and six months ended June 30, 2025, respectively, if prior year period results were translated at current period foreign exchange rates. Currency fluctuations had an unfavorable impact of \$0.06 and an unfavorable impact of \$0.04 on adjusted diluted earnings per share during the three and six months ended June 30, 2024, respectively, if 2023 results were translated at 2024 rates. These translations are performed for comparative and illustrative purposes only and do not impact the accounting policies or practices for amounts included in our Condensed Consolidated Financial Statements.

LIQUIDITY AND FINANCIAL CONDITION

Liquidity

Executive Summary

We believe that our balance sheet and strong cash flow provide us with adequate liquidity. Our primary sources of liquidity in the near-term include cash flows provided by operations and available cash reserves; primary sources of liquidity in the long-term include cash flows provided by operations, debt capacity available under our credit facilities, and capital markets. Our primary uses of liquidity are operating expenses and investments, capital expenditures, acquisitions, share repurchases, pension obligations, shareholder dividends, and Accelerating Aon United Program cash charges. We believe that cash flows from operations, available credit facilities, available cash reserves, and the capital markets will be sufficient to meet our liquidity needs, including principal and interest payments on debt obligations, capital expenditures, pension contributions, and anticipated working capital requirements in the next twelve months and over the long-term.

Cash on our balance sheet includes funds available for general corporate purposes, as well as amounts restricted as to their use. Funds held on behalf of clients in a fiduciary capacity are segregated and shown together with uncollected insurance premiums in Fiduciary assets in our Condensed Consolidated Statements of Financial Position, with a corresponding amount in Fiduciary liabilities.

In our capacity as an insurance broker or agent, we collect premiums from insureds and, after deducting our commission, remit the premiums to the respective insurance underwriters. We also collect claims or refunds from underwriters on behalf of insureds, which are then returned to the insureds. Unremitted insurance premiums and claims are held by us in a fiduciary

capacity. The levels of funds held on behalf of clients and liabilities can fluctuate significantly depending on when we collect the premiums, claims, and refunds, make payments to underwriters and insureds, and collect funds from clients and make payments on their behalf, and upon the impact of foreign currency movements. Funds held on behalf of clients, because of their nature, are generally invested in highly liquid securities with highly rated, credit-worthy financial institutions. Fiduciary assets include funds held on behalf of clients of \$8.3 billion and \$7.2 billion at June 30, 2025 and December 31, 2024, respectively, and fiduciary receivables of \$12.4 billion and \$10.3 billion at June 30, 2025 and December 31, 2024, respectively. While we earn investment income on the funds held in cash and money market funds, the funds cannot be used for general corporate purposes.

We maintain multicurrency cash pools with third-party banks in which various Aon entities participate. Individual Aon entities are permitted to overdraw on their individual accounts provided the overall global balance does not fall below zero. At June 30, 2025, cash balances of one or more non-U.S. entities may have been negative; however, the overall balance was positive.

The following table summarizes our Cash and cash equivalents, Short-term investments, and Fiduciary assets as of June 30, 2025 (in millions):

Asset Type	Statement of Financial Position Classification				Total
	Cash and Cash Equivalents	Short-term Investments	Fiduciary Assets		
Certificates of deposit, bank deposits, or time deposits	\$ 1,008	\$ —	\$ 4,565		\$ 5,573

Fiduciary receivables	—	—	12,362		12,362
Total	\$ 1,008	\$ 379	\$ 20,677		\$ 22,064

Cash and cash equivalents and funds held on behalf of clients, including cash and cash equivalents and funds held on behalf of clients classified as held for sale, had a net increase of \$991 million for the six months ended June 30, 2025 compared to a net increase of \$599 million for the six months ended June 30, 2024. A summary of our cash flows provided by and used for operating, investing, and financing activities is as follows (in millions):

	Six Months Ended June 30,	
	2025	2024
Cash provided by operating activities	\$ 936	\$ 822
Cash used for investing activities	(268)	(2,285)
Cash provided by (used for) financing activities	(373)	2,264
Effect of exchange rates on cash and cash equivalents and funds held on behalf of clients	696	(202)
Net increase in cash and cash equivalents and funds held on behalf of clients	\$ 991	\$ 599

Operating Activities

Net cash provided by operating activities during the six months ended June 30, 2025 was \$936 million, an increase of \$114 million compared to \$822 million of Cash flows provided by operating activities in the prior year period. This amount represents Net income reported, generally adjusted for gains from sales of businesses, losses from sales of businesses, share-based compensation expense, depreciation expense, amortization and impairments, and other non-cash income and expenses, including pension settlement charges. Adjustments also include changes in working capital that relate primarily to the timing of payments of accounts payable and accrued liabilities, collection of receivables, and payments for Accelerating Aon United Program expenses.

Pension Contributions

Pension contributions were \$54 million for the six months ended June 30, 2025, as compared to \$27 million for the six months ended June 30, 2024. For the remainder of 2025, we expect to contribute approximately \$34 million in cash to our pension plans, including contributions to non-U.S. pension plans, which are subject to changes in foreign exchange rates.

Accelerating Aon United Program Expenses

In the third quarter of 2023, we initiated the Accelerating Aon United Program with the purpose of streamlining our technology infrastructure, optimizing our leadership structure and resource alignment, and reducing the real estate footprint to align to our hybrid working strategy. The Program includes technology-related costs to facilitate streamlining and simplifying operations, headcount reduction costs, and costs associated with asset impairments, including real estate consolidation and technology costs.

Program charges are recognized within the Program's expenses on the accompanying Condensed Consolidated Statements of Income and consists of the following cost activities:

- *Technology and other* – includes costs associated with actions taken to rationalize certain applications and to optimize technology across the Company. These costs may include contract termination fees and other non-capitalizable costs associated with Program initiatives, which include professional service fees.
- *Workforce optimization* – includes costs associated with headcount reduction and other separation-related costs.
- *Asset impairments* – includes non-cash costs associated with impairment of assets, as they are identified, including ROU lease assets, leasehold improvements, and other capitalized assets no longer providing economic benefit.

The changes in the Company's liabilities for the Program as of June 30, 2025 are as follows (in millions):

	Technology and other	Workforce optimization	Asset impairments	Total
Liability Balance as of December 31, 2024	\$ 17	\$ 97	\$ —	\$ 114
Charges	100	100	4	204
Cash payments	(84)	(82)	—	(166)
Foreign currency translation and other	—	5	—	5
Non-cash charges	(2)	(17)	(4)	(23)
Liability balance as of June 30, 2025	\$ 31	\$ 103	\$ —	\$ 134
Total costs incurred from inception to date	\$ 240	\$ 400	\$ 88	\$ 728

The Program is currently expected to result in cumulative costs of \$1.0 billion, consisting of approximately \$0.9 billion of cash charges and approximately \$0.1 billion of non-cash charges. Over the life of the program, our Risk Capital segment is expected to incur approximately \$220 million of charges, while our Human Capital segment is expected to incur approximately \$60 million of charges, with the remaining charges relating to corporate expenses. The Program is estimated to generate annualized expense savings of approximately \$350 million by the end of 2026, largely benefiting Compensation and benefits, Information technology, and Premises on the Condensed Consolidated Statements of Income. For the three and six months ended June 30, 2025, total Program costs incurred were \$94 million and \$204 million, respectively. The Company expects to continue to review the implementation of elements of the Program throughout the course of the Program and, therefore, there may be changes to expected timing, estimates of expected costs and related savings. The Company realized an additional \$35 million and \$75 million of expense savings in the first three and six months of 2025, respectively, from Program actions, the majority of which were recognized within Compensation and benefits on the Condensed Consolidated Statements of Income.

Investing Activities

Cash flows used for investing activities were \$268 million during the six months ended June 30, 2025, a decrease of \$2.0 billion compared to \$2.3 billion of Cash flows used for investing activities in the prior year period. Generally, the primary drivers of cash flows used for investing activities are acquisition of businesses, purchases of short-term investments, capital expenditures, and payments for investments. Generally, the primary drivers of cash flows provided by investing activities are sales of businesses, including collection of deferred consideration in connection with prior year business divestitures, sales of short-term investments, and proceeds from investments. The gains and losses corresponding to cash flows provided by proceeds from investments and used for payments for investments are primarily recognized in Other income (expense) in our Condensed Consolidated Statements of Income.

Short-term Investments

Short-term investments increased \$160 million to \$379 million at June 30, 2025 compared to December 31, 2024. The majority of our investments carried at fair value are money market funds. These money market funds are held throughout the world with various financial institutions. We are not aware of any market liquidity issues that would materially impact the fair value of these investments.

Acquisitions and Dispositions of Businesses

During the first six months of 2025, we completed nine acquisitions, seven within Risk Capital and two within Human Capital. Cash consideration, net of cash and funds held on behalf of clients acquired, was \$143 million, which relates to cash consideration paid in 2025 for current year acquisitions. The majority of cash consideration for the Griffiths & Armour acquisition, completed in the first quarter of 2025, was recognized as a cash outflow in the fourth quarter of 2024. During the first six months of 2024, we completed eight acquisitions, five within Risk Capital and three within Human Capital. Cash consideration, net of cash and funds held on behalf of clients acquired, was \$2.8 billion, which includes \$3 million related to acquisitions completed in 2023.

During the first six months of 2025, we completed one disposition within Human Capital for an insignificant cash flow impact. During the first six months of 2024, we completed three dispositions, two within Risk Capital and one within Human Capital, for \$270 million, net of cash and funds held on behalf of clients. During the first six months of 2025 and 2024, a \$108 million and \$82 million gain was recognized, respectively, related to the deferred consideration earned for the 2017 sale of the benefits administration and business process outsourcing business. Other than this deferred consideration, there was an insignificant cash flow impact during the first six months of 2025 related to dispositions in prior periods.

Capital Expenditures

Our additions to fixed assets including capitalized software, amounted to \$120 million and \$101 million for the six months ended June 30, 2025 and 2024, respectively, which primarily relate to new build out and the refurbishing of office facilities, software development costs, and computer equipment purchases. In the current period, we continue to support certain technology projects to drive long-term growth and real estate projects to align with our Smart Working strategy, including projects related to our AAU restructuring program.

Financing Activities

Cash flows used for financing activities were \$373 million during the six months ended June 30, 2025 compared to \$2.3 billion of Cash flows provided by financing activities in the prior year period. Generally, the primary drivers of cash flow provided by financing activities are issuances of debt, changes in net fiduciary liabilities, and proceeds from issuance of shares. Generally, the primary drivers of cash flows used for financing activities are repayments of debt, share repurchases, cash paid for employee taxes on withholding shares, dividends paid to shareholders, transactions with noncontrolling interests, and other financing activities, such as payments for deferred consideration in connection with prior year business acquisitions.

Share Repurchase Program

We have a share repurchase program authorized by our Board of Directors. The Repurchase Program was established in April 2012 with \$5.0 billion in authorized repurchases, and was increased by \$5.0 billion in authorized repurchases in each of November 2014, June 2017, and November 2020, and by \$7.5 billion in February 2022 for a total of \$27.5 billion in repurchase authorizations.

The following table summarizes our share repurchase activity (in millions, except per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Shares repurchased	0.7	0.8	1.3	1.6
Average price per share	\$ 361.25	\$ 298.09	\$ 376.76	\$ 304.20
Repurchase costs recorded to accumulated deficit	\$ 250	\$ 250	\$ 500	\$ 500

At June 30, 2025, the remaining authorized amount for share repurchase under the Repurchase Program was approximately \$1.8 billion. Under the Repurchase Program, the Company has repurchased a total of 173.5 million shares for an aggregate cost of approximately \$25.7 billion. For further information regarding the Repurchase Program, see Part II, Item 2 of this report.

Borrowings

Total debt at June 30, 2025 was \$17.3 billion, an increase of \$272 million compared to December 31, 2024. Further, commercial paper activity during the six months ended June 30, 2025 and 2024 is as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Total issuances ⁽¹⁾	\$ 2,295	\$ 324	\$ 3,444	\$ 1,272
Total repayments	(2,409)	(324)	(2,964)	(1,863)
Net issuances (repayments)	\$ (114)	\$ —	\$ 480	\$ (591)

(1) The proceeds of the commercial paper issuances are generally used for short-term working capital needs.

In May 2025, Aon Global Limited's €500 million (\$585 million at June 30, 2025 exchange rates) 2.875% Senior Notes due May 2026 were classified as Short-term debt and current portion of long-term debt in the Consolidated Statement of Financial Position as the date of maturity is in less than one year. The Company expects to use cash flow from operations and available cash on hand to repay these Senior Notes.

In December 2024, Aon Global Limited's \$750 million 3.875% Senior Notes due December 2025 were classified as Short-term debt and current portion of long-term debt in the Consolidated Statement of Financial Position as the date of maturity is in less than one year. The Company expects to use cash flow from operations and available cash on hand to repay these Senior Notes.

In June 2024, Aon Global Limited's \$600 million 3.50% Senior Notes matured and were repaid in full.

On April 25, 2024, Aon North America, Inc. drew its \$2 billion delayed draw term loan and used proceeds, together with the proceeds of the notes issued on March 1, 2024 described below, to pay a portion of cash consideration in connection with the NFP Transaction, to repay certain debt of NFP, and to pay related fees and expenses. The term loan matures on April 24, 2027 and is prepayable at any time. As of June 30, 2025, Aon North America, Inc. repaid \$1.2 billion of the outstanding balance. The remaining outstanding balance is \$800 million.

On April 2, 2024, Aon plc announced that its wholly owned subsidiary, Randolph Acquisition Corp., commenced cash tender offers for any and all of the outstanding 6.875% Senior Notes due 2028, 4.875% Senior Secured Notes due 2028, 7.500% Senior Secured Notes due 2030 and 8.500% Senior Secured Notes due 2031, each issued by NFP Corp. (together, the "NFP Notes"), upon the terms and subject to the conditions set forth in the Offer to Purchase and Consent Solicitation Statement, dated as of April 2, 2024. The total amount tendered pursuant to the tender offers was approximately \$3.3 billion, excluding premiums. On April 26, 2024, Randolph Acquisition Corp. purchased those NFP Notes that were validly tendered and not validly withdrawn prior to April 15, 2024, effecting the early settlement of the offers (the "Early Settlement"). In addition, on April 16, 2024, NFP Corp. delivered notices of redemption of all NFP Notes not validly tendered pursuant to the offers and purchased at the Early Settlement, at a purchase price equal to the price paid to holders of the NFP Notes in connection with the Early Settlement, with a redemption date of April 26, 2024. As a result of the Early Settlement of the offers and the related redemption which occurred on April 26, 2024, no NFP Notes remain outstanding. Aon plc incurred \$6 million of debt extinguishment charges in the second quarter of 2024 related to costs related to the NFP Transaction.

On March 1, 2024, Aon North America, Inc. issued \$600 million 5.125% Senior Notes due in March 2027, \$1 billion 5.150% Senior Notes due in March 2029, \$650 million 5.300% Senior Notes due in March 2031, \$1.75 billion 5.450% Senior Notes due in March 2034, and \$2 billion 5.750% Senior Notes due in March 2054, totaling to an aggregate amount of \$6 billion. The Company intends to use the net proceeds from the offering for general corporate purposes, including a portion of which was used to pay a portion of the cash consideration in connection with the acquisition of NFP, to repay certain debt of NFP and to pay related fees and expenses.

Other Liquidity Matters

Distributable Profits

We are required under Irish law to have available "distributable profits" to make share repurchases or pay dividends to shareholders. Distributable profits are created through the earnings of the Irish parent company and, among other methods, through intercompany dividends or a reduction in share capital approved by the High Court of Ireland. Distributable profits are not linked to a U.S. GAAP reported amount (e.g., Accumulated deficit). As of June 30, 2025 and December 31, 2024, we had distributable profits in excess of \$30.9 billion and \$29.7 billion, respectively. We believe that we will have sufficient distributable profits for the foreseeable future.

Revolving Credit Facilities

We expect cash generated by operations for 2025 to be sufficient to service our debt and contractual obligations, finance capital expenditures, and continue to pay dividends to our shareholders. Although cash from operations is expected to be sufficient to service these activities, we have the ability to access the commercial paper markets or borrow under our credit facilities to accommodate any timing differences in cash flows. Additionally, under current market conditions, we believe that we could access capital markets to obtain debt financing for longer-term funding, if needed.

As of June 30, 2025, we had two primary committed credit facilities outstanding: a \$1.0 billion multi-currency U.S. credit facility expiring in September 2027 and a \$1.0 billion multi-currency U.S. credit facility expiring in October 2028. In aggregate, these two facilities provide \$2.0 billion in available credit.

Each of these primary committed credit facilities and the delayed draw term loan includes customary representations, warranties, and covenants, including financial covenants that require us to maintain specified ratios of adjusted consolidated EBITDA to consolidated interest expense and consolidated debt to adjusted consolidated EBITDA, in each case, tested quarterly. We did not have borrowings under either of these primary committed credit facilities as of June 30, 2025 and December 31, 2024, respectively. Additionally, we are in compliance with the financial covenants and all other covenants contained therein during the rolling 12 months ended June 30, 2025 and December 31, 2024, respectively.

Shelf Registration Statement

On June 22, 2023, we filed a shelf registration statement with the SEC, registering the offer and sale from time to time of an indeterminate amount of, among other securities, debt securities, preference shares, class A ordinary shares and convertible securities. Our ability to access the market as a source of liquidity is dependent on investor demand, market conditions, and other factors.

Rating Agency Ratings

The major rating agencies' ratings of our debt at July 25, 2025 appear in the table below.

	Ratings		Outlook
	Senior Long-term Debt	Commercial Paper	
Standard & Poor's	A-	A-2	Negative
Moody's Investor Services	Baa2	P-2	Stable
Fitch, Inc.	BBB+	F-2	Stable

Letters of Credit and Other Guarantees

We have entered into a number of arrangements whereby our performance on certain obligations is guaranteed by a third party through the issuance of a letter of credit. We had total LOCs outstanding of approximately \$126 million at June 30, 2025, compared to \$124 million at December 31, 2024. These LOCs cover the beneficiaries related to certain of our U.S. and Canadian secure non-qualified pension plan schemes, reinsurance obligations related to our own E&O liability insurance program, and secure deductible retentions for our own workers' compensation program. We also have obtained LOCs to cover contingent payments for taxes and other business obligations to third parties, and other guarantees for miscellaneous purposes at our international subsidiaries.

We have certain contractual contingent guarantees for premium payments owed by clients to certain insurance companies. The maximum exposure with respect to such contractual contingent guarantees was approximately \$161 million at June 30, 2025, compared to \$162 million at December 31, 2024.

Aon Corporation, Aon North America, Inc., Aon Global Limited, and Aon Global Holdings plc are indirect wholly owned subsidiaries of Aon plc. Aon plc, Aon Global Limited, Aon Global Holdings plc, Aon North America, Inc., and Aon Corporation together comprise the “Obligor group”. The following tables set forth summarized financial information for the Obligor group, which reflects the financial results of Aon North America, Inc. for the year ended December 31, 2024 and for the period ended June 30, 2025.

Adjustments are made to the tables to eliminate intercompany balances and transactions between the Obligor group. Intercompany balances and transactions between the Obligor group and non-guarantor subsidiaries are presented as separate line items within the summarized financial information. These balances are presented on a net presentation basis, rather than a gross basis, as this better reflects the nature of the intercompany positions and presents the funding or funded position that is to be received or owed. No balances or transactions of non-guarantor subsidiaries are presented in the summarized financial information, including investments of the Obligor group in non-guarantor subsidiaries.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

There have been no changes to our critical accounting policies, which include revenue recognition, pensions, goodwill and other intangible assets, contingencies, share-based payments, income taxes, Accelerating Aon United restructuring charges, and business combinations, as discussed in our Annual Report on Form 10-K for the year ended December 31, 2024.

NEW ACCOUNTING PRONOUNCEMENTS

Note 2 “Accounting Principles and Practices” to our Financial Statements contained in Part I, Item 1 of this report contains a discussion of recently issued accounting pronouncements and Securities and Exchange Commission final rules and their future potential impact on our financial results or disclosures, if determinable.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to potential fluctuations in earnings, cash flows, and the fair values of certain of our assets and liabilities due to changes in interest rates and foreign exchange rates. To manage the risk from these exposures, we enter into a variety of derivative instruments. We do not enter into derivatives or financial instruments for trading or speculative purposes.

The following discussion describes our specific exposures and the strategies we use to manage these risks. Refer to Note 2 “Summary of Significant Accounting Principles and Practices” in the Notes to Consolidated Financial Statements in Part II, Item 8 of the Company’s Annual Report on Form 10-K for the year ended December 31, 2024 for a discussion of our accounting policies for financial instruments and derivatives.

Foreign Exchange Risk

We are subject to foreign exchange rate risk. Our primary exposures include exchange rates between the U.S. dollar and the euro, the British pound, the Canadian dollar, the Australian dollar, the Indian rupee, and the Japanese yen. We use over-the-counter options and forward contracts to reduce the impact of foreign currency risk to our financial statements.

Additionally, some of our non-U.S. subsidiaries receive revenue in currencies that differ from their functional currencies. Most significantly, our U.K. subsidiaries earn a portion of their revenue in U.S. dollars, euro, and Japanese yen, but most of their expenses are incurred in British pounds. We generally hedge up to 45% of our U.K. subsidiaries’ expected exposures to transactions denominated in U.S. dollar, euro, and Japanese yen. We generally do not hedge exposures beyond two years.

We also use forward and option contracts to economically hedge foreign exchange risk associated with monetary balance sheet exposures, such as intercompany notes and current assets and liabilities that are denominated in a non-functional currency and are subject to remeasurement.

The translated value of revenues and expenses from our international brokerage operations are subject to fluctuations in foreign exchange rates. A strengthening U.S. dollar has an adverse impact on our Net income attributable to shareholders, which are reported in U.S. dollars in our Condensed Consolidated Financial Statements. If we were to hypothetically translate prior year results at current quarter exchange rates, diluted earnings per share would have no comparable impact and an unfavorable \$0.13 comparable impact during the three and six months ended June 30, 2025, respectively. Further, adjusted diluted earnings per share, a non-GAAP measure as defined and reconciled under the caption “Review of Consolidated Results — Adjusted Diluted Earnings Per Share,” would have a favorable \$0.01 comparable impact and an unfavorable \$0.13 comparable impact during the three and six months ended June 30, 2025, respectively, if we were to hypothetically translate prior year results at current quarter exchange rates.

Interest Rate Risk

Our fiduciary investment income is affected by changes in international and domestic short-term interest rates. We monitor our net exposure to short-term interest rates and, as appropriate, hedge our exposure with various derivative financial instruments. This activity primarily relates to brokerage funds held on behalf of clients in the U.S. and in continental Europe. A decrease in global short-term interest rates adversely affects our fiduciary investment income.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. We have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of June 30, 2025. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures, as of June 30, 2025, were effective at a reasonable assurance level such that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting. There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2025 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

See Note 15 “Claims, Lawsuits, and Other Contingencies” to our Financial Statements contained in Part I, Item 1 of this report, which is incorporated by reference herein.

Item 1A. Risk Factors

The risk factors set forth in the “Risk Factors” section in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2024 reflect certain risks associated with existing and potential lines of business and contain “forward-looking statements” as discussed in “Information Concerning Forward-Looking Statements” elsewhere in this report. Readers should consider them in addition to the other information contained in this report as our business, financial condition or results of operations could be adversely affected if any of these risks actually occur.
