Cigna Reports Fourth Quarter and Full Year 2021 Results, Expects Continued Revenue and Attractive Earnings Per Share Growth in 2022

- *Total revenues for 2021 were \$174.1 billion, and adjusted revenues¹ for 2021 were \$174.1 billion*
- *Shareholders' net income for 2021 was \$5.4 billion, or \$15.73 per share*
- *Adjusted income from operations² for 2021 was \$7.0 billion, or \$20.47 per share*
- *Adjusted income from operations^{2,3} is projected to be at least \$6.95 billion in 2022, or at least \$22.40 per share³*
- *Board of Directors declared a 12% increase in the quarterly dividend rate, to \$1.12 per share*

BLOOMFIELD, CT, February 3, 2022 – Global health services company Cigna Corporation (NYSE: CI) today reported 2021 results reflecting continued strong business growth aided by the Company's diversified portfolio.

"We performed well in 2021 as we supported the growing needs of our clients, customers and patients," said David M. Cordani, chairman and chief executive officer. "2022 will be a year of growth across our franchise as we continue innovating and advancing our work to make health care more affordable, predictable, and simple."

Total revenues for 2021 were \$174.1 billion. Adjusted revenues¹ were \$174.1 billion and reflect strong contributions from each of Cigna's ongoing businesses.

Shareholders' net income for 2021 was \$5.4 billion, or \$15.73 per share, compared with \$8.5 billion, or \$22.96 per share, for 2020. Shareholders' net income in 2020 included an after tax gain of \$3.2 billion, or \$8.73 per share, from the sale of the Group Disability and Life business.

Cigna's adjusted income from operations² for 2021 was \$7.0 billion, or \$20.47 per share, compared with \$6.8 billion, or \$18.45 per share, for 2020 reflecting strong earnings contributions across the Company's businesses, led by Evernorth.

Reconciliations of total revenues to adjusted revenues¹ and of shareholders' net income to adjusted income from operations² are provided on the following page and on Exhibit 1 of this earnings release.

CONSOLIDATED HIGHLIGHTS

The following table includes highlights of results and reconciliations of total revenues to adjusted revenues¹ and shareholders' net income to adjusted income from operations²:

Consolidated Financial Results (dollars in millions):

Adjusted Income from Operations ² , per share	\$ 4.77	\$ 3.51	\$ 5.73	\$ 20.47

- In 2021, the Company repurchased 35.2 million shares of common stock for \$7.7 billion. Year to date through February 2, 2022, the Company repurchased 2.5 million shares of common stock for approximately \$580 million.
- In 2021, the Company initiated a quarterly cash dividend and declared quarterly cash dividends of \$1.00 per share of Cigna common stock. On February 3, 2022, the Company's Board of Directors declared a cash dividend of \$1.12 per share of Cigna common stock to be paid on March 24, 2022 to shareholders of record as of the close of trading on March 9, 2022.
- The debt-to-capitalization ratio was 41.7% at December 31, 2021, reflecting higher commercial paper balances and the impact of share repurchases on shareholders equity.
- The SG&A expense ratio⁴ was 7.3% for full year 2021 compared to 8.5% for full year 2020, driven by revenue growth, the repeal of the health insurance industry tax, and continued expense efficiency.
- Fourth quarter 2021 special items include an after-tax charge of \$119 million, or \$0.36 per share, related to a strategic plan to further leverage the Company's ongoing growth to drive operational efficiency through enhancements to organizational structure and increased use of automation and shared services.

CUSTOMER RELATIONSHIPS

The following table summarizes Cigna's medical customers and overall customer relationships:

Customer Relationships (in thousands):

	As of the Periods Ended		
	December 31, 2021	2020	September 30, 2021

Dental	17,731	17,542	17,753
Medicare Part D	3,182	3,291	3,184

- The pharmacy customer base⁵ at the end of 2021 grew to 107.3 million, an organic increase of 8.4 million year to date, driven by strong ongoing retention and new sales.
- The total medical customer base^{5,6} at the end of 2021 grew to 17.1 million, an increase of 431,000 customers year to date, driven by net growth across each business within the Cigna Healthcare segment.

HIGHLIGHTS OF SEGMENT RESULTS

See Exhibit 1 for a reconciliation of adjusted income (loss) from operations² to shareholders' net income.

Evernorth

This segment includes a broad range of coordinated and point solution health services and capabilities, including pharmacy solutions, benefits management solutions, care delivery and care management solutions, and intelligence solutions, which are provided to health plans, employers, government organizations, and health care providers.

Financial Results (dollars in millions):

	Three Months Ended		Year Ended	
	December 31,	September 30,	December 31,	
	2021	2020	2021	2021
Adjusted Revenues ¹	\$ 35,086	\$ 30,533	\$ 33,614	\$ 131,912
Adjusted Income from Operations, Pre-Tax ²	\$ 1,634	\$ 1,589	\$ 1,548	\$ 5,818
Adjusted Margin, Pre-Tax ⁷	4.7%	5.2%	4.6%	4.4%

- Fourth quarter 2021 adjusted revenues¹ increased 15% relative to fourth quarter 2020 reflecting strong organic growth in specialty pharmacy services and increased retail network volumes, including the impact of COVID-19 vaccines.
- Fourth quarter 2021 adjusted income from operations, pre-tax² increased 3% relative to fourth quarter 2020, reflecting continued affordability improvements for the benefit of our clients, customers and patients and business growth, partially offset by strategic investments in expanding partnerships, new businesses and solutions, and technology.
- Evernorth fulfilled 424 million adjusted pharmacy scripts⁸ in fourth quarter 2021, an increase of 9% over fourth quarter 2020 driven by strong organic growth and COVID-19 vaccine volumes.

Cigna Healthcare⁶

This segment includes Cigna's U.S. Commercial, U.S. Government, and International Health businesses that provide comprehensive medical and coordinated solutions to clients and customers. U.S. Commercial products and services include medical, pharmacy, behavioral health, dental, vision, health advocacy programs and other products and services for insured and self-insured customers. U.S. Government solutions include Medicare Advantage, Medicare Supplement, and Medicare Part D plans for seniors, and individual health insurance plans both on and off the public exchanges. International Health solutions include health care coverage in our international markets, as well as health care benefits for globally mobile individuals and employees of multinational organizations.

Financial Results (dollars in millions):

	Three Months Ended		Year Ended	
	December 31,		December 31,	
	2021	2020	2021	2021
Adjusted Revenues ^{1,9}	\$ 11,214	\$ 10,413	\$ 11,222	\$ 44,652
Adjusted Income from Operations, Pre-Tax ²	\$ 472	\$ 285	\$ 1,046	\$ 3,609
Adjusted Margin, Pre-Tax ⁷	4.2%	2.7%	9.3%	8.1%

- Fourth quarter 2021 adjusted revenues^{1,9} grew 8% over fourth quarter 2020, reflecting customer growth, premium increases, increased specialty contributions, and favorable net investment income.
- Fourth quarter 2021 adjusted income from operations, pre-tax² and adjusted margin, pre-tax⁷ increased relative to fourth quarter 2020 primarily due to increased specialty contributions, increased contributions from our International Health business, the repeal of the health insurance industry tax, and favorable net investment income, partially offset by higher medical costs in our U.S. Commercial and U.S. Government businesses.
- The Cigna Healthcare medical care ratio⁴ ("MCR") of 87.0% for fourth quarter 2021 compares to 84.8% for fourth quarter 2020, reflecting higher medical costs in our stop loss and U.S. Commercial insured businesses, including net unfavorable COVID-19 related impacts, and the pricing effect of the repeal of the health insurance industry tax. These impacts were partially offset by favorable contributions from behavioral products.
- The Cigna Healthcare MCR⁴ of 84.0% for full year 2021 compares to 78.3% for full year 2020, reflecting the impact of higher medical costs in our U.S. Commercial and U.S. Government businesses, including net unfavorable COVID-19 related impacts, lower Medicare Advantage risk adjustment revenues, and the pricing effect of the repeal of the health insurance industry tax. These impacts were partially offset by the absence of 2020 premium relief programs in response to the COVID-19 pandemic.
- Full year 2021 adjusted income from operations, pre-tax² for Cigna's U.S. Commercial and U.S. Government businesses combined, which were previously reported as U.S. Medical, was \$3.43 billion¹³. The combined MCR⁴ for these two businesses was 84.9% for full year 2021.
- Cigna Healthcare net medical costs payable¹⁰ was \$4.00 billion at December 31, 2021, \$4.05 billion at September 30, 2021, and \$3.46 billion at December 31, 2020. Favorable prior year reserve development on a gross pre-tax basis was \$219 million and \$144 million through full year 2021 and 2020, respectively.

Corporate and Other Operations^{6, 11}

Corporate reflects interest expense, as well as amounts not allocated to operating segments and includes intersegment eliminations. Additionally, this discussion includes items reported in our Other Operations segment which is comprised of the international life, accident, and supplemental benefits businesses held for sale pending divestiture⁶, Corporate Owned Life Insurance ("COLI"), the Company's run-off operations, and the Group Disability and Life business prior to the divestiture on December 31, 2020.

Financial Results (dollars in millions):

	Three Months Ended		Year Ended	
	December 31,	September 30,	December 31,	
	2021	2020	2021	2021
Adjusted (Loss) from Operations, Pre-Tax ²	\$ (115)	\$ (236)	\$ (83)	(450)

- Fourth quarter 2021 adjusted loss from operations, pre-tax² was favorable to fourth quarter 2020 reflecting higher contributions from our international life, accident, and supplemental benefits businesses, lower interest expense, and lower corporate operating expenses.

2022 OUTLOOK

Cigna's outlook for full year 2022 adjusted revenues^{1,3} is projected to be at least \$177 billion. Cigna's outlook for full year 2022 consolidated adjusted income from operations^{2,3} is projected to be at least \$6.95 billion, or at least \$22.40 per share³. Additionally, this outlook includes the impact of expected future share repurchases, anticipated 2022 dividends, and assumes that the previously announced divestiture of our international life, accident, and supplemental benefits businesses⁶ will close in the second quarter of 2022.

Notes:

- Adjusted revenues is used by Cigna's management because it permits analysis of trends in underlying revenue. The Company defines adjusted revenues as total revenues excluding the following adjustments: special items and Cigna's share of certain realized investment results of its joint ventures reported in the Cigna Healthcare segment using the equity method of accounting. Special items are matters that management believes are not representative of the underlying results of operations due to their nature or size. We exclude these items from this measure because management believes they are not indicative of past or future underlying performance of the business. Adjusted revenues is not determined in accordance with GAAP and should not be viewed as a substitute for the most directly comparable GAAP measure, total revenues. See Exhibit 1 for a reconciliation of consolidated adjusted revenues to total revenues.**
- Adjusted income (loss) from operations is a principal financial measure of profitability used by Cigna's management because it presents the underlying results of operations of Cigna's businesses and permits analysis of trends in underlying revenue, expenses and shareholders' net income. Adjusted income from**

operations is defined as shareholders' net income (or income before income taxes for the segment metric) excluding net realized investment results, amortization of acquired intangible assets and special items. Cigna's share of certain realized investment results of its joint ventures reported in the Cigna Healthcare segment using the equity method of accounting are also excluded. Special items are matters that management believes are not representative of the underlying results of operations due to their nature or size. Adjusted income (loss) from operations is measured on an after-tax basis for consolidated results and on a pre-tax basis for segment results. Consolidated adjusted income (loss) from operations is not determined in accordance with GAAP and should not be viewed as a substitute for the most directly comparable GAAP measure, shareholders' net income. See Exhibit 1 for a reconciliation of consolidated adjusted income from operations to shareholders' net income.

3. Management is not able to provide a reconciliation of adjusted income from operations to shareholders' net income (loss) or adjusted revenues to total revenues on a forward-looking basis because it is unable to predict, without unreasonable effort, certain components thereof including (i) future net realized investment results (from equity method investments with respect to adjusted revenues) and (ii) future special items. These items are inherently uncertain and depend on various factors, many of which are beyond Cigna's control. As such, any associated estimate and its impact on shareholders' net income and total revenues could vary materially.

The Company's outlook assumes that the previously announced divestiture of the international life, accident, and supplemental benefits businesses⁶ will close in the second quarter of 2022 but excludes the potential effects of any other business combinations that may occur after the date of this earnings release. The Company's outlook includes the potential effects of expected future share repurchases and anticipated 2022 dividends.

As announced in January 2021, Cigna currently intends to pay regular quarterly dividends, with future declarations subject to approval by its Board of Directors and the Board's determination that the declaration of dividends remains in the best interests of Cigna and its shareholders. The decision of whether to pay future dividends and the amount of any such dividends will be based on the Company's financial position, results of operations, cash flows, capital requirements, the requirements of applicable law and any other factors the Board of Directors may deem relevant.

The timing and actual number of shares repurchased will depend on a variety of factors, including price, general business and market conditions, and alternate uses of capital. The share repurchase program may be effected through open market purchases in compliance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended, including through Rule 10b5-1 trading plans, or privately negotiated transactions. The program may be suspended or discontinued at any time.

4. Operating ratios are defined as follows:
 - The Cigna Healthcare medical care ratio represents medical costs as a percentage of premiums for all U.S. Commercial risk products, including medical, pharmacy, dental, stop loss and behavioral products provided through guaranteed cost or experience-rated funding arrangements, as well as Medicare Advantage, Medicare Part D, Medicare Supplement, individual on and off-exchange products, and healthcare products within our International Health business, within the Cigna Healthcare segment.
 - The medical care ratio for Cigna's U.S. Commercial and U.S. Government businesses combined, which were previously reported as U.S. Medical, includes the same items outlined above for the Cigna Healthcare segment, but excludes healthcare products within our International Health business.
 - SG&A expense ratio represents enterprise selling, general and administrative expenses excluding special items as a percentage of adjusted revenue at a consolidated level.
5. Customer relationships are defined as follows:
 - Total medical customers includes individuals in the Cigna Healthcare segment who meet any one of the following criteria: are covered under a medical insurance policy, managed care arrangement, or service agreement issued by Cigna; have access to Cigna's provider network for

covered services under their medical plan; or have medical claims and services that are administered by Cigna.

- International Health medical customers excludes medical customers served by less than 100% owned subsidiaries and customers that are part of the businesses to be sold pursuant to the previously announced divestiture of the international life, accident, and supplemental benefits businesses⁶. Prior year lives have been restated to conform to this presentation.
- Pharmacy customer relationships. Effective January 1, 2021, Pharmacy lives have been updated to reflect actual eligibility data for benefits provided to Prime Therapeutics. Previously these lives had been estimated based on prescriptions filled during the period. Pharmacy lives for prior periods have been restated to reflect this change.
- Policies issued by the businesses subject to the definitive agreement to sell certain of our international life, accident, and supplemental benefits businesses⁶ have been excluded from customer relationships.

6. We entered into a definitive agreement in October 2021 to sell our life, accident, and supplemental benefits businesses in Hong Kong, Indonesia, New Zealand, South Korea, Taiwan, Thailand and our interest in a joint venture in Turkey to Chubb INA Holdings, Inc. (the “Chubb Transaction”). Subject to applicable regulatory approvals and customary closing conditions, we expect to complete this transaction in the second quarter of 2022. In connection with the pending Chubb Transaction, we revised our business reporting structure and, effective in the fourth quarter of 2021, we adjusted our segment reporting so that the results previously reported in the International Markets segment are now reported as follows:

- The businesses to be retained by Cigna are reported in the newly created International Health operating segment that will be aggregated with our existing U.S. Commercial and U.S. Government operating segments in the renamed Cigna Healthcare reporting segment (previously named U.S. Medical).
- The businesses to be sold pursuant to the Chubb Transaction are reported in Other Operations, which is included in “Corporate and Other Operations” in our earnings release and quarterly financial supplement.

Segment results for the periods presented have been restated to conform to the new segment presentation. See Cigna’s Current Report on Form 8-K filed on January 24, 2022 for additional information.

7. Adjusted margin, pre-tax, is calculated by dividing adjusted income (loss) from operations, pre-tax by adjusted revenues for each segment.

Adjusted margin, after-tax, is calculated by dividing consolidated adjusted income (loss) from operations by consolidated adjusted revenues. Adjusted income (loss) from operations is measured on an after-tax basis for consolidated results.

8. For Evernorth adjusted pharmacy scripts, non-specialty network scripts filled through 90-day programs and home delivery scripts are multiplied by three. All other network and specialty scripts are counted as one script.

9. Cigna owns a 50% non-controlling interest in its China joint venture. As such, the adjusted revenues for the Cigna Healthcare segment only include Cigna’s 50% share of the joint venture’s earnings reported in Fees and Other Revenues using the equity method of accounting under GAAP.

10. Medical costs payable within the Cigna Healthcare segment are presented net of reinsurance and other recoverables. The gross medical costs payable balance was \$4.26 billion as of December 31, 2021, \$4.33 billion as of September 30, 2021, and \$3.70 billion as of December 31, 2020.

11. Beginning first quarter 2021, in our earnings release and quarterly financial supplement, “Corporate and Other Operations” combines the results previously reported as “Corporate” and the segment previously reported as “Group Disability and Other”, which is now reported as “Other Operations” in our securities

filings. This change to simplify reporting was enabled by the sale of the Group Disability and Life business.

12. The measure “adjusted tax rate” is not determined in accordance with GAAP and should not be viewed as a substitute for the most directly comparable GAAP measure, “consolidated effective tax rate”. We define adjusted tax rate as the consolidated income tax rate applicable to the Company’s pre-tax income excluding net realized investment results, amortization of acquired intangible assets, and special items. Cigna’s share of certain realized investment results of its joint ventures reported in the Cigna Healthcare segment using the equity method of accounting are also excluded. Management is not able to provide a reconciliation to the consolidated effective tax rate on a forward-looking basis because we are unable to predict, without unreasonable effort, certain components thereof include (i) future net realized investment results and (ii) future special items.
13. The aggregation of adjusted income from operations, pre-tax for Cigna’s U.S. Commercial and U.S. Government businesses is not determined in accordance with GAAP and should not be viewed as a substitute for the most directly comparable GAAP measure, income before income taxes. See footnote 2 for a definition of adjusted income from operations, pre-tax. The reconciliation of income before income taxes to adjusted income from operations, pre-tax for Cigna’s U.S. Commercial and U.S. Government businesses combined, which were previously reported as U.S. Medical, for the year-ended December 31, 2021 is as follows:

Financial Results (dollars in millions):

	Year Ended December 31, 2021
Income before income taxes	<u>\$ 3,646</u>
Pre-tax adjustments required to reconcile to adjusted income from operations	
Net realized investment (gains) losses	(239)
Amortization of acquired intangible assets	<u>25</u>
Adjusted income from operations, pre-tax	<u>\$ 3,432</u>
