Duke Energy reports fourth-quarter and full-year 2021 financial results

- **2021 reported EPS of \$4.94 and adjusted EPS of \$5.24, closing year above the midpoint of updated guidance range**
- **Strong results driven by constructive rate case outcomes and continued customer growth in electric and gas segments**
- **Five-year capital plan increases to \$63 billion with over 80% funding investments in the grid and clean energy transition**
- **Established 2022 adjusted EPS guidance range of \$5.30 to \$5.60, and extended long-term adjusted EPS growth rate of 5% to 7% through 2026, off 2021 original midpoint of \$5.15**

CHARLOTTE, N.C. – Duke Energy (NYSE: DUK) today announced 2021 full-year reported EPS of \$4.94, prepared in accordance with Generally Accepted Accounting Principles (GAAP), and adjusted EPS of \$5.24. This is compared to reported and adjusted EPS of \$1.72 and \$5.12, respectively, for the full-year 2020.

Adjusted EPS excludes the impact of certain items that are included in reported EPS. The difference between full-year 2021 reported and adjusted EPS was primarily due to an impairment charge related to the South Carolina Supreme Court decision on coal ash and insurance proceeds, as well as workplace and workforce realignment costs.

Higher full-year 2021 adjusted results were primarily driven by rate case contributions and higher volumes in the Electric Utilities Infrastructure segment, complemented by growth and rate case contributions in the Gas Utilities and Infrastructure segment. These items were partially offset by higher O&M, the loss of ACP earnings, Texas Storm Uri, fewer Commercial Renewable projects placed in service and share dilution.

“The fourth quarter capped a strong finish to an exceptionally productive 2021, where we made great progress against our strategic and financial goals,” said Lynn Good, Duke Energy chair, president and chief executive officer.

“We’re leading the industry’s largest clean energy transformation with more than 80% of our \$63 billion capital plan funding investments in grid modernization and zero or lower-carbon emitting generation. These investments position us to earn solidly within our 5% to 7% EPS growth range throughout our five-year plan.”

"We also remain focused on ensuring reliable and affordable energy during this transition - delivering value to customers and shareholders in the years ahead."

Quarterly results

Duke Energy's fourth quarter 2021 reported EPS was \$0.93, compared to reported loss per share of \$0.12 for the fourth quarter of 2020. Duke Energy's fourth quarter 2021 adjusted EPS was \$0.94, compared to \$1.03 for the fourth quarter of 2020. Lower adjusted results for the quarter compared to last year were driven by mild weather, fewer renewable projects placed in service and share dilution, partially offset by lower income tax expense.

In addition to the following summary of fourth quarter 2021 business segment performance, comprehensive tables with detailed EPS drivers for the fourth quarter and full-year 2021 compared to prior year are provided at the end of this news release.

The discussion below of fourth-quarter results includes both GAAP segment income and adjusted segment income, which is a non-GAAP financial measure. The tables at the end of this news release present a full reconciliation of GAAP reported results to adjusted results.

Electric Utilities and Infrastructure

On a reported basis, Electric Utilities and Infrastructure recognized fourth quarter 2021 segment income of \$670 million, compared to segment loss of \$170 million in the fourth quarter of 2020. Fourth quarter 2020 reported earnings included impacts of the coal ash settlement in North Carolina for Duke Energy Carolinas and Duke Energy Progress.

On an adjusted basis, Electric Utilities and Infrastructure recognized fourth quarter 2021 and fourth quarter 2020 segment income of \$675 million. Flat quarterly results, excluding share dilution of \$0.03, were primarily driven by lower income tax expense (+\$0.06 per share) and lower depreciation and amortization (+\$0.03 per share), partially offset by mild weather (-\$0.08 per share).

Gas Utilities and Infrastructure

On a reported basis, Gas Utilities and Infrastructure recognized fourth quarter 2021 segment income of \$137 million, compared to \$134 million in the fourth quarter of 2020. In addition to the 2021 drivers outlined below, fourth quarter 2020 results included costs related to the cancellation of ACP.

On an adjusted basis, Gas Utilities and Infrastructure recognized fourth quarter 2021 segment income of \$137 million, compared to \$150 million in the fourth quarter of 2020, a decrease of \$0.02 per share, excluding share dilution of \$0.02. Lower quarterly results were driven by higher O&M (-\$0.02 per share) and higher depreciation and amortization (-\$0.02 per share), offset by rate case contributions (+\$0.03 per share).

Commercial Renewables

On a reported and adjusted basis, Commercial Renewables recognized fourth quarter 2021 segment income of \$49 million, compared to \$79 million in the fourth quarter of 2020. This represents a decrease of \$0.04 per share, excluding share dilution of \$0.01. Lower quarterly results were primarily driven by fewer renewable projects placed in service.

Other

Other primarily includes interest expense on holding company debt, other unallocated corporate costs and results from Duke Energy's captive insurance company.

On a reported basis, Other recognized a fourth quarter 2021 net loss of \$131 million, compared to a net loss of \$127 million in the fourth quarter of 2020. In addition to the drivers outlined below, fourth quarter 2021 results include workplace and workforce realignment costs.

On an adjusted basis, Other recognized a fourth quarter 2021 net loss of \$125 million, compared to a net loss of \$127 million in the fourth quarter of 2020, an increase of \$0.01 per share, excluding share dilution. Quarterly results were primarily due to lower income tax expense, partially offset by higher contributions to the Duke Energy Foundation.

Effective tax rate

Duke Energy's consolidated reported effective tax rate for the fourth quarter of 2021 was (2.8)% compared to 50.8% in the fourth quarter of 2020. The decrease in the effective tax rate was primarily due to charges as part of the coal ash settlement in North Carolina for Duke Energy Carolinas and Duke Energy Progress in the prior year.

The effective tax rate including impacts of noncontrolling interests and preferred dividends and excluding special items for the fourth quarter of 2021 was (2.4)% compared to the effective tax rate including impacts of noncontrolling interests and preferred dividends and excluding special items of 11.1% in the fourth quarter of 2020. The decrease was primarily due to tax optimization and an increase in the amortization of excess deferred taxes.

The tables at the end of this news release present a reconciliation of the reported effective tax rate to the effective tax rate including noncontrolling interests and preferred dividends and excluding special items.

Earnings conference call for analysts

An earnings conference call for analysts is scheduled from 10 to 11 a.m. ET today to discuss fourth-quarter 2021 financial results. The conference call will be hosted by Lynn Good, chair, president and chief executive officer, and Steve Young, executive vice president and chief financial officer.

The call can be accessed via the investors section (duke-energy.com/investors) of Duke Energy's website or by dialing 800.458.4121 in the United States or 323.794.2093 outside the United States. The confirmation code is 9510910. Please call in 10 to 15 minutes prior to the scheduled start time.

A replay of the conference call will be available until 1 p.m. ET, Feb. 20, 2022, by calling 888.203.1112 in the United States or 719.457.0820 outside the United States and using the code 9510910. An audio replay and transcript will also be available by accessing the investors section of the company's website.

Special Items and Non-GAAP Reconciliation

The following tables present a reconciliation of GAAP reported to adjusted earnings per share for fourth-quarter and full-year 2021 and 2020 financial results:

(In millions, except per share amounts)	After-Tax Amount	4Q 2021 EPS	4Q 2020 EPS
EPS, as reported		\$ 0.93	\$ (0.12)
Adjustments to reported EPS:

Discontinued operations	(7)		(0.01)
Total adjustments		\$ 0.30	\$ 3.40
EPS, adjusted		\$ 5.24	\$ 5.12

Non-GAAP financial measures

Management evaluates financial performance in part based on non-GAAP financial measures, including adjusted earnings, adjusted EPS and effective tax rate including impacts of noncontrolling interests and preferred dividends and excluding special items. Adjusted earnings and adjusted EPS represent income (loss) from continuing operations available to Duke Energy Corporation common stockholders in dollar and per share amounts, adjusted for the dollar and per share impact of special items. The effective tax rate including impacts of noncontrolling interests and preferred dividends and excluding special items is calculated using pretax earnings and income tax expense, both as adjusted for the impact of noncontrolling interests, preferred dividends and special items. As discussed below, special items include certain charges and credits, which management believes are not indicative of Duke Energy's ongoing performance.

Management uses these non-GAAP financial measures for planning and forecasting, and for reporting financial results to the Board of Directors, employees, stockholders, analysts and investors. The most directly comparable GAAP measures for adjusted earnings, adjusted EPS and effective tax rate including impacts of noncontrolling interests and preferred dividends and excluding special items are Net Income (Loss) Available to Duke Energy Corporation common stockholders (GAAP reported earnings (loss)), Basic earnings (loss) per share Available to Duke Energy Corporation common stockholders (GAAP reported earnings (loss) per share), and the reported effective tax rate, respectively.

Special items included in the periods presented include the following items, which management believes do not reflect ongoing costs:

- Workplace and workforce realignment represents costs attributable to business transformation, including long-term real estate strategy changes and workforce realignment.
- Regulatory settlements represents an impairment charge related to the South Carolina Supreme Court decision on coal ash, insurance proceeds and Duke Energy Carolinas and Duke Energy Progress coal ash settlement and the partial settlements in the 2019 North Carolina rate cases.
- Gas pipeline investments represents costs related to the cancellation of the ACP investment and additional exit obligations.
- Severance represents the reversal of 2018 Severance charges, which were deferred as a result of a partial settlement in the Duke Energy Carolinas and Duke Energy Progress 2019 North Carolina rate cases.

Due to the forward-looking nature of any forecasted adjusted earnings guidance, information to reconcile this non-GAAP financial measure to the most directly comparable GAAP financial measure is not available at this time, as management is unable to project all special items for future periods (such as legal settlements, the impact of regulatory orders or asset impairments).

Management evaluates segment performance based on segment income (loss) and other net loss. Segment income (loss) is defined as income (loss) from continuing operations net of income attributable to noncontrolling interests and preferred stock dividends. Segment income (loss) includes intercompany revenues and expenses that are eliminated in the Condensed Consolidated Financial Statements. Management also uses adjusted segment income (loss) as a measure of historical and anticipated future segment performance. Adjusted segment income (loss) is a non-GAAP financial measure, as it is based upon segment income (loss) adjusted for special items, which are discussed above. Management believes the presentation of adjusted segment income (loss) provides useful information to investors, as it provides them with an additional relevant comparison of a segment's performance across periods. The most directly comparable GAAP measure for adjusted segment income or adjusted other net loss is segment income (loss) and other net loss.

Due to the forward-looking nature of any forecasted adjusted segment income or adjusted other net loss and any related growth rates for future periods, information to reconcile these non-GAAP financial measures to the most directly comparable GAAP financial measures is not available at this time, as the company is unable to forecast all special items, as discussed above.

Duke Energy's adjusted earnings, adjusted EPS and adjusted segment income may not be comparable to similarly titled measures of another company because other companies may not calculate the measures in the same manner.

Duke Energy

Duke Energy (NYSE: DUK), a Fortune 150 company headquartered in Charlotte, N.C., is one of America's largest energy holding companies. Its electric utilities serve 8.2 million customers in North Carolina, South Carolina, Florida, Indiana, Ohio and Kentucky, and collectively own 51,000 megawatts of energy capacity. Its natural gas unit serves 1.6 million customers in North Carolina, South Carolina, Tennessee, Ohio and Kentucky. The company employs 28,000 people.

Duke Energy is executing an aggressive clean energy strategy to create a smarter energy future for its customers and communities - with goals of at least a 50% carbon reduction by 2030 and net-zero carbon emissions by 2050. The company is also a top U.S. renewable energy provider, on track to own or purchase 16,000 megawatts of renewable energy capacity by 2025. The company also is investing in major electric grid upgrades and expanded battery storage, and exploring zero-emitting power generation technologies such as hydrogen and advanced nuclear.

Duke Energy was named to Fortune's 2022 "World's Most Admired Companies" list and Forbes' "America's Best Employers" list. More information about the company is available at [duke-energy.com](https://www.duke-energy.com). The Duke Energy News Center contains news releases, fact sheets, photos and videos. Duke Energy's illumination features stories about people, innovations, community topics and environmental issues. Follow Duke Energy on Twitter, LinkedIn, Instagram and Facebook.

Forward-Looking Information

This document includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are based on management's beliefs and assumptions and can often be identified by terms and phrases that include "anticipate," "believe," "intend," "estimate," "expect," "continue," "should," "could," "may," "plan," "project," "predict," "will," "potential," "forecast," "target," "guidance," "outlook" or other similar terminology. Various factors may cause actual results to be materially different than the suggested outcomes within forward-looking statements; accordingly, there is no assurance that such results will be realized. These factors include, but are not limited to:

- The impact of the COVID-19 pandemic;
- State, federal and foreign legislative and regulatory initiatives, including costs of compliance with existing and future environmental requirements, including those related to climate change, as well as rulings that affect cost and investment recovery or have an impact on rate structures or market prices;
- The extent and timing of costs and liabilities to comply with federal and state laws, regulations and legal requirements related to coal ash remediation, including amounts for required closure of certain ash impoundments, are uncertain and difficult to estimate;
- The ability to recover eligible costs, including amounts associated with coal ash impoundment retirement obligations, asset retirement and construction costs related to carbon emissions reductions, and costs related to significant weather events, and to earn an adequate return on investment through rate case proceedings and the regulatory process;
- The costs of decommissioning nuclear facilities could prove to be more extensive than amounts estimated and all costs may not be fully recoverable through the regulatory process;
- Costs and effects of legal and administrative proceedings, settlements, investigations and claims;
- Industrial, commercial and residential growth or decline in service territories or customer bases resulting from sustained downturns of the economy and the economic health of our service territories or variations in customer usage patterns, including energy efficiency efforts, natural gas building and appliance electrification, and use of alternative energy sources, such as self-generation and distributed generation technologies;
- Federal and state regulations, laws and other efforts designed to promote and expand the use of energy efficiency measures, natural gas electrification, and distributed generation technologies, such as private solar and battery storage, in Duke Energy service territories could result in a reduced number of customers, excess generation resources as well as stranded costs;
- Advancements in technology;
- Additional competition in electric and natural gas markets and continued industry consolidation;
- The influence of weather and other natural phenomena on operations, including the economic, operational and other effects of severe storms, hurricanes, droughts, earthquakes and tornadoes, including extreme weather associated with climate change;
- Changing investor, customer and other stakeholder expectations and demands including heightened emphasis on environmental, social and governance concerns;
- The ability to successfully operate electric generating facilities and deliver electricity to customers including direct or indirect effects to the company resulting from an incident that affects the U.S. electric grid or generating resources;
- Operational interruptions to our natural gas distribution and transmission activities;
- The availability of adequate interstate pipeline transportation capacity and natural gas supply;
- The impact on facilities and business from a terrorist attack, cybersecurity threats, data security breaches, operational accidents, information technology failures or other catastrophic events, such as fires, explosions, pandemic health events or other similar occurrences;
- The inherent risks associated with the operation of nuclear facilities, including environmental, health, safety, regulatory and financial risks, including the financial stability of third-party service providers;
- The timing and extent of changes in commodity prices and interest rates and the ability to recover such costs through the regulatory process, where appropriate, and their impact on liquidity positions and the value of underlying assets;

- The results of financing efforts, including the ability to obtain financing on favorable terms, which can be affected by various factors, including credit ratings, interest rate fluctuations, compliance with debt covenants and conditions, an individual utility's generation mix, and general market and economic conditions;
- Credit ratings of the Duke Energy Registrants may be different from what is expected;
- Declines in the market prices of equity and fixed-income securities and resultant cash funding requirements for defined benefit pension plans, other post-retirement benefit plans and nuclear decommissioning trust funds;
- Construction and development risks associated with the completion of the Duke Energy Registrants' capital investment projects, including risks related to financing, obtaining and complying with terms of permits, meeting construction budgets and schedules and satisfying operating and environmental performance standards, as well as the ability to recover costs from customers in a timely manner, or at all;
- Changes in rules for regional transmission organizations, including changes in rate designs and new and evolving capacity markets, and risks related to obligations created by the default of other participants;
- The ability to control operation and maintenance costs;
- The level of creditworthiness of counterparties to transactions;
- The ability to obtain adequate insurance at acceptable costs;
- Employee workforce factors, including the potential inability to attract and retain key personnel;
- The ability of subsidiaries to pay dividends or distributions to Duke Energy Corporation holding company (the Parent);
- The performance of projects undertaken by our nonregulated businesses and the success of efforts to invest in and develop new opportunities;
- The effect of accounting pronouncements issued periodically by accounting standard-setting bodies;
- The impact of U.S. tax legislation to our financial condition, results of operations or cash flows and our credit ratings;
- The impacts from potential impairments of goodwill or equity method investment carrying values;
- Asset or business acquisitions and dispositions, including our ability to successfully consummate the second closing of the minority investment in Duke Energy Indiana, may not yield the anticipated benefits;
- The actions of activist shareholders could disrupt our operations, impact our ability to execute on our business strategy or cause fluctuations in the trading price of our common stock; and
- The ability to implement our business strategy, including its carbon emission reduction goals.

Additional risks and uncertainties are identified and discussed in the Duke Energy Registrants' reports filed with the SEC and available at the SEC's website at sec.gov. In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than described. Forward-looking statements speak only as of the date they are made and the Duke Energy Registrants expressly disclaim an obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Note: Earnings Per Share amounts are calculated using the consolidated statutory income tax rate for all drivers except Commercial Renewables, which uses an effective rate. Weighted average shares outstanding increased from 742 million shares to 769 million.

- (a) Electric Utilities and Infrastructure includes the net impact the DEC and DEP North Carolina interim rates, effective August and September 2020 (+\$0.01), respectively, and the DEF SBRA and multiyear rate plan (+0.01). Gas Utilities and Infrastructure includes the net impact of the PNG North Carolina rate case, effective November 2021 (+0.02), and the PNG Tennessee rate case, effective January 2021 (+0.01).
- (b) Primarily due to fewer renewable projects placed in service in the current year.
- (c) Electric Utilities and Infrastructure excludes rate case impacts.
- (d) Electric Utilities and Infrastructure and Other include lower income tax expense. Gas Utilities and Infrastructure is primarily due to an asset impairment in Ohio. Other includes lower income tax expense, partially offset by higher contributions to the Duke Energy Foundation.

Note: Earnings Per Share amounts are calculated using the consolidated statutory income tax rate for all drivers except for Commercial Renewables, which uses an effective rate. Weighted average shares outstanding increased from 737 million shares to 769 million.

- (a) Electric Utilities and Infrastructure includes higher transmission revenues and a disallowance of purchased power at a DEF plant in the prior year. Gas Utilities and Infrastructure includes increases related to the North Carolina and Ohio construction based riders and customer growth.
- (b) Electric Utilities and Infrastructure includes the net impact of DEC and DEP North Carolina interim rates effective August and September 2020, respectively (+0.20), DEI base rate increases, effective August 2020 (+0.10), DEF SBRA and multi-year rate plan (+0.03) and DEK base rates increases, effective April 2020 (+0.01). Gas Utilities and Infrastructure includes the net impact of the PNG North Carolina rate case, effective November 2021, and the PNG Tennessee rate case, effective January 2021.
- (c) Primarily due to higher employee-related expenses.
- (d) Primarily the loss of ACP earnings.
- (e) Primarily due to Texas Storm Uri impacts (-0.04) in February 2021, fewer projects placed in service in the current year (-0.04) and lower wind resource.
- (f) Electric Utilities and Infrastructure excludes rate case impacts. Gas Utilities and Infrastructure is primarily due to a higher depreciable base.
- (g) Electric Utilities and Infrastructure includes higher property tax expense. Gas Utilities and Infrastructure is primarily due to an asset impairment in Ohio. Other includes higher earnings at National Methanol Company, offset by higher contributions to the Duke Energy Foundation.

- (a) Except as indicated in footnote (b), represents non-weather normalized billed sales, with energy delivered but not yet billed (i.e., unbilled sales) reflected as a single amount and not allocated to the respective retail classes.
- (b) Represents weather-normal total retail calendar sales (i.e., billed and unbilled sales).
- (c) Statistics reflect Duke Energy's ownership share of jointly owned stations.
- (d) Generation by source is reported net of auxiliary power.
- (e) Purchased power includes renewable energy purchases.
- (f) Statistics reflect 100% of jointly owned stations.

- (a) Except as indicated in footnote (b), represents non-weather normalized billed sales, with energy delivered but not yet billed (i.e., unbilled sales) reflected as a single amount and not allocated to the respective retail classes.
- (b) Represents weather-normal total retail calendar sales (i.e., billed and unbilled sales).
- (c) Statistics reflect Duke Energy's ownership share of jointly owned stations.
- (d) Generation by source is reported net of auxiliary power.
- (e) Purchased power includes renewable energy purchases.

Average Number of Customers – Piedmont Natural Gas						
Residential	1,021,965	1,010,287	1.2%	1,023,675	1,003,214	2.0%
Commercial	104,788	104,864	(0.1%)	105,430	104,983	0.4%
Industrial	954	968	(1.4%)	960	969	(0.9%)
Power Generation	19	19	—%	19	19	—%
Total Average Number of Gas Customers – Piedmont Natural Gas	1,127,726	1,116,138	1.0%	1,130,084	1,109,185	1.9%
Average Number of Customers – Duke Energy Midwest						
Residential	501,882	497,602	0.9%	500,123	495,688	0.9%
General Service	43,688	43,169	1.2%	43,484	43,320	0.4%
Industrial	1,567	1,567	—%	1,565	1,571	(0.4%)
Other	126	130	(3.1%)	129	131	(1.5%)
Total Average Number of Gas Customers – Duke Energy Midwest	547,263	542,468	0.9%	545,301	540,710	0.8%

- (a) Piedmont has a margin decoupling mechanism in North Carolina, weather normalization mechanisms in South Carolina and Tennessee and fixed-price contracts with most power generation customers that significantly eliminate the impact of throughput changes on earnings. Duke Energy Ohio's rate design also serves to offset this impact.
