Intercontinental Exchange (NYSE: ICE), a leading global provider of data, technology, and market infrastructure, today reported financial results for the fourth quarter and full year of 2022. For the quarter ended December 31, 2022, consolidated net income attributable to ICE was \$425 million on \$1.8 billion of consolidated revenues less transaction-based expenses. Fourth quarter GAAP diluted earnings per share (EPS) was \$0.76. Adjusted net income attributable to ICE was \$698 million in the fourth quarter and adjusted diluted EPS was \$1.25.

For the full year of 2022 consolidated net income attributable to ICE was \$1.4 billion on \$7.3 billion of consolidated revenues less transaction-based expenses. Full year 2022 GAAP diluted EPS was \$2.58, down 64% year-over-year, primarily due to net losses from Bakkt during 2022 and the divestment of Coinbase and deconsolidation of Bakkt during 2021. On an adjusted basis, net income attributable to ICE for the year was \$3.0 billion and adjusted diluted EPS was \$5.30, up 5% year-over-year.

Please refer to the reconciliation of non-GAAP financial measures included in this press release for more information on our adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income, adjusted diluted EPS and adjusted free cash flow.

Warren Gardiner, ICE Chief Financial Officer, added: "In 2022, we generated record revenues, record operating income and record operating cash flows. This strong performance, including compounding recurring revenue growth across all three of our business segments, is a testament to the strength of our strategically diversified business model. As we enter 2023, we are well positioned to benefit from numerous near-term cyclical tailwinds as well as longer-term secular trends and remain focused on creating value for stockholders."

2023 Effective Tax Rate	24% - 26%(3)	

(1) 2023 and 1Q23 non-GAAP operating expenses exclude amortization of acquisition-related intangibles and transaction and integration expenses.

(2) Non-operating expense includes interest income, interest expense and net other income/expense. Adjusted non-operating expense excludes equity earnings from unconsolidated investees and net interest on pre-acquisition delated debt.

(3) This represents 2023 full year guidance for both the GAAP and non-GAAP effective tax rates but note that the GAAP effective tax rate is more susceptible to diverging from this guidance based on items outside the normal course of business that are adjusted for to derive our non-GAAP results. Such items can be unknown, unpredictable or uncertain, requiring unreasonable efforts to determine with any precision and which could potentially be confusing or misleading.

Non-GAAP Financial Measures and Reconciliation

We use non-GAAP measures internally to evaluate our performance and in making financial and operational decisions. When viewed in conjunction with our GAAP results and the accompanying reconciliation, we believe that our presentation of these measures provides investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of these measures is useful to investors for period-to-period comparison of results because the items described below as adjustments to GAAP are not reflective of our core business performance. These financial measures are not in accordance with, or an alternative to, GAAP financial measures and may be different from non-GAAP measures used by other companies. We use these adjusted results because we believe they more clearly highlight trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our core operating performance. We strongly recommend that investors review the GAAP financial measures and additional non-GAAP information included in our Annual Report on Form 10-K, including our consolidated financial statements and the notes thereto.

Adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to ICE common stockholders, adjusted diluted earnings per share and adjusted free cash flow for the periods presented below are calculated by adding or subtracting the adjustments described below, which are not reflective of our cash operations and core business performance, and their related income tax effect and other tax adjustments (in millions, except for per share amounts):
