LAS VEGAS, April 23, 2025 - Las Vegas Sands (NYSE: LVS), the leading global developer and operator of Integrated Resorts, today reported financial results for the quarter ended March 31, 2025.

“We continued to execute our strategic objectives during the quarter. We remain enthusiastic about our opportunities to deliver industry-leading growth in both Macao and Singapore in the years ahead as we execute our capital investment programs in both markets,” said Robert G. Goldstein, chairman and chief executive officer.

“In Macao, while market growth has softened in the current environment, our decades-long commitment to making investments that enhance the business and leisure tourism appeal of Macao and support its development as a world center of business and leisure tourism positions us well for future growth.

“In Singapore, Marina Bay Sands continued to deliver outstanding financial and operating performance. Our new suite product and elevated service offerings position us for additional growth as travel and tourism spending in Asia expands.

“Our financial strength and industry-leading cash flow continue to support our ongoing investment and capital expenditure programs in both Macao and Singapore, our pursuit of growth opportunities in new markets and our program to return excess capital to stockholders.

“We repurchased \$450 million of LVS shares under our share repurchase program during the quarter. We look forward to utilizing our share repurchase program to continue to return excess capital to stockholders.”

Net revenue was \$2.86 billion, compared to \$2.96 billion in the prior year quarter. Operating income was \$609 million, compared to \$717 million in the prior year quarter. Net income in the first quarter of 2025 was \$408 million, compared to \$583 million in the first quarter of 2024.

Consolidated adjusted property EBITDA was \$1.14 billion, compared to \$1.21 billion in the prior year quarter.

Sands China Ltd. Consolidated Financial Results

On a GAAP basis, total net revenues for SCL decreased 5.7% to \$1.70 billion, compared to the first quarter of 2024. Net income for SCL was \$202 million, compared to \$297 million in the first quarter of 2024.

Other Factors Affecting Earnings

Interest expense, net of amounts capitalized, was \$174 million for the first quarter of 2025, compared to \$182 million in the prior year quarter. Our weighted average borrowing cost was 4.9% during the first quarter of 2025, compared to 5.0% during the first quarter of 2024.

Our effective income tax rate for the first quarter of 2025 was 13.4%, compared to 2.8% in the prior year quarter. The income tax rate for the first quarter of 2025 was primarily driven by a 17% statutory rate on our Singapore operations.

Stockholder Returns

During the first quarter of 2025, we repurchased \$450 million of our common stock (approximately 10 million shares at a weighted average price of \$44.59). The remaining amount authorized under our share repurchase program was \$1.10 billion as of March 31, 2025. Subsequently, on April 22, 2025, the company's Board of Directors authorized increasing the remaining share repurchase amount of \$1.10 billion to \$2.0 billion. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the company's financial position, earnings, legal requirements, other investment opportunities and market conditions.

We paid a quarterly dividend of \$0.25 per common share during the quarter. Our next quarterly dividend of \$0.25 per common share will be paid on May 14, 2025, to Las Vegas Sands stockholders of record on May 6, 2025.

Balance Sheet Items

Unrestricted cash balances as of March 31, 2025 were \$3.04 billion.

The company has access to \$4.44 billion available for borrowing under our U.S., SCL and Singapore revolving credit facilities, net of outstanding letters of credit. As of March 31, 2025, total debt outstanding, excluding finance leases, was \$13.71 billion.

On February 21, 2025, MBS entered into a new facility agreement, which provides for a 3.75 billion Singapore dollars ("SGD," approximately \$2.80 billion at exchange rates in effect on March 31, 2025) term loan and makes available an SGD 750 million (approximately \$559 million at exchange rates in effect on March 31, 2025) revolving credit facility and an SGD 7.50 billion (approximately \$5.59 billion at exchange rates in effect on March 31, 2025) delayed draw term loan facility. Proceeds from the term loan and delayed draw term loan were used to repay the outstanding balances and associated interest under the 2012 Singapore Credit Facility and pay certain fees associated with the new facility agreement. MBS may draw under the revolving credit facility for general corporate purposes, including payment of dividends. Future proceeds

from the delayed draw term loan facility may be used to finance development and construction costs, expenses, fees and other payments related to the MBS Expansion Project. In connection with entering into the new facility agreement, the commitments under MBS's amended and restated credit facility agreement, the 2012 Singapore Credit Facility, were terminated.

Capital Expenditures

Capital expenditures during the first quarter totaled \$379 million, including construction, development and maintenance activities of \$197 million in Macao and \$175 million at Marina Bay Sands.

First Quarter 2025 Results

Non-GAAP Financial Measures

Within the company's first quarter 2025 press release, the company makes reference to certain non-GAAP financial measures that supplement the company's consolidated financial information prepared in accordance with GAAP including "adjusted net income (loss)," "adjusted earnings (loss) per diluted share" and "consolidated adjusted property EBITDA," which have directly comparable GAAP financial measures. The company believes these measures represent important internal measures of financial performance. Set forth in the financial schedules accompanying this press release and presentations included on the company's website are reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures. The non-GAAP financial measure disclosure by the company has limitations and should not be considered a substitute for, or superior to, the financial measures prepared in accordance with GAAP. The definitions of our non-GAAP financial measures and the specific reasons why the company's management believes the presentation of the non-GAAP financial measures provides useful information to investors regarding the company's financial condition, results of operations and cash flows are presented below.

The following non-GAAP financial measures are used by management, as well as industry analysts, to evaluate the company's operations and operating performance. These non-GAAP financial measures are presented so investors have the same financial data management uses in evaluating financial performance with the belief it will assist the investment community in properly assessing the underlying financial performance of the company on a year-over-year and a quarter sequential basis.

Adjusted net income (loss), which is a non-GAAP financial measure, is net income (loss) attributable to Las Vegas Sands excluding pre-opening expense, development expense, gain or loss on disposal or impairment of assets, gain or loss on modification or early retirement of debt, other income or expense and certain nonrecurring corporate expenses, net of income tax. Adjusted net income (loss) and adjusted earnings (loss) per diluted share are presented as supplemental disclosures as management believes they are (1) each widely used measures of performance by industry analysts and investors and (2) a principal basis for valuation of Integrated Resort companies, as these non-GAAP financial measures are considered by many

as alternative measures on which to base expectations for future results. These measures also form the basis of certain internal management performance expectations.

Consolidated adjusted property EBITDA, which is a non-GAAP financial measure, is net income (loss) before stock-based compensation expense, corporate expense, pre-opening expense, development expense, depreciation and amortization, amortization of leasehold interests in land, gain or loss on disposal or impairment of assets, interest, other income or expense, gain or loss on modification or early retirement of debt and income taxes. Management utilizes consolidated adjusted property EBITDA to compare the operating profitability of its operations with those of its competitors, as well as a basis for determining certain incentive compensation. Integrated Resort companies, including Las Vegas Sands, have historically reported adjusted property EBITDA as a supplemental performance measure to GAAP financial measures. In order to view the operations of their properties on a more stand-alone basis, Integrated Resort companies, including Las Vegas Sands, have historically excluded certain expenses that do not relate to the management of specific properties, such as pre-opening expense, development expense and corporate expense, from their adjusted property EBITDA calculations. Consolidated adjusted property EBITDA should not be interpreted as an alternative to income (loss) from operations (as an indicator of operating performance) or to cash flows from operations (as a measure of liquidity), in each case, as determined in accordance with GAAP. The company has significant uses of cash flow, including capital expenditures, dividend payments, interest payments, debt principal repayments and income tax payments, which are not reflected in consolidated adjusted property EBITDA. Not all companies calculate adjusted property EBITDA in the same manner. As a result, consolidated adjusted property EBITDA as presented by Las Vegas Sands may not be directly comparable to similarly titled measures presented by other companies.

The following reflects the impact on Adjusted Property EBITDA for hold-adjusted win percentage:

	Three Months Ended March 31,	
	2025	2024
Macao Operations	\$ 10	\$ 31
Marina Bay Sands ⁽¹⁾	—	(52)
	<u>\$ 10</u>	<u>\$ (21)</u>

Note: These amounts represent the estimated impact of the hold adjustment that would have occurred had the company's current period Rolling Chip win percentage equaled 3.30% for the Macao operations and 3.70% for Marina Bay Sands. Included are the estimated commissions paid, discounts and other incentives rebated directly or indirectly to customers, gaming taxes and bad debt expense that would have been incurred or avoided.

- (1) We revised the expected rolling chip win percentage from 3.30% to 3.70% during the three months ended March 31, 2025, due to the increase in Rolling Chip win percentage experienced over the last several years. The prior year non-GAAP expected rolling chip win percentage for Marina Bay Sands has also been adjusted to conform to the current period presentation.
