

## Mastercard Incorporated Reports Fourth Quarter and Full Year 2022 Financial Results

- Fourth quarter net income of \$2.5 billion, and diluted earnings per share (EPS) of \$2.62
- Fourth quarter adjusted net income of \$2.5 billion, and adjusted diluted EPS of \$2.65
- Fourth quarter net revenue of \$5.8 billion, an increase of 12%, or 17% on a currency-neutral basis
- Fourth quarter gross dollar volume up 8% and purchase volume up 11%, on a local currency basis

**Purchase, NY - January 26, 2023** - Mastercard Incorporated (NYSE: MA) today announced financial results for the fourth quarter and full year 2022.

"We closed out the year with strong financial results and notable wins which will help us capitalize on the tremendous secular shift to digital payments," said Michael Miebach, Mastercard CEO. "As we look at the broader economy, we see the continued recovery of cross-border travel, with volumes up 59%<sup>1</sup> versus a year ago and we're encouraged by Asia opening up further. While macroeconomic and geopolitical uncertainty persists, consumer spending has been remarkably resilient. We are well prepared to adjust our investment profile quickly if needed."

## Q4 2022 Key Business Drivers (YoY growth)

Gross dollar volume  
(local currency basis)

up 8%

Cross-border volume  
(local currency basis)

up 31%

Switched  
transactions

up 8%

The following information is provided to aid in understanding Mastercard's fourth quarter 2022 results, versus the year ago period. As a reminder, we suspended our business operations in Russia in March 2022.

- Net revenue increased 12%, or 17% on a currency-neutral basis, which includes a 1 percentage point benefit from acquisitions. Primary drivers of the increase were as follows:
  - Gross dollar volume growth of 8%, on a local currency basis, to \$2.1 trillion.
  - Cross-border volume growth of 31% on a local currency basis.
  - Switched transactions growth of 8%.
  - Other revenues increase of 11%, or 16% on a currency-neutral basis, which includes 1 percentage point of growth due to acquisitions. The remaining growth was driven primarily by the Company's Cyber & Intelligence and Data & Services solutions.
  - Rebates and incentives (contra-revenues) increase of 14%, or 18% on a currency-neutral basis, primarily due to increased volumes and transactions and new and renewed deals.
- Total operating expenses increased 10%. Excluding the impact of Fourth Quarter Special Items, adjusted operating expenses increased 10%, or 13% on a currency-neutral basis. This includes a 3 percentage point increase from acquisitions. The remaining increase was primarily due to higher personnel costs to support our continued investment in our strategic initiatives across payments, services and new network capabilities, partially offset by a decrease in advertising and marketing costs.
- Other income (expense) was unfavorable \$91 million, due to net losses in the current period versus net gains in the prior period related to realized and unrealized fair market value adjustments on marketable and non-marketable equity securities. Adjusted other income (expense) was favorable \$30 million versus the year ago period, primarily due to an increase in our investment income, partially offset by increased interest expense related to our 2022 debt issuances.
- The effective tax rate for the fourth quarter of 2022 was 18.3%, versus 15.7% for the comparable period in 2021. The adjusted effective tax rate for the fourth quarter of 2022 was 18.2%, versus 14.7% for the comparable period in 2021, primarily due to a change in the Company's geographic mix of earnings.
- As of December 31, 2022, the Company's customers had issued 3.1 billion Mastercard and Maestro-branded cards.

### Return of Capital to Shareholders

During the fourth quarter of 2022, Mastercard repurchased 7.4 million shares at a cost of \$2.4 billion and paid \$473 million in dividends. Quarter-to-date through January 23, the Company repurchased 1.6 million shares at a cost of \$590 million, which leaves \$11.6 billion remaining under the approved share repurchase programs.

### Full Year 2022 Key Business Drivers (YoY growth)

Gross dollar volume  
(local currency basis)  
up 12%

Cross-border volume  
(local currency basis)  
up 45%

Switched transactions  
up 12%

The following information is provided to aid in understanding Mastercard's full year 2022 results, versus the year ago period. As a reminder, we suspended our business operations in Russia in March 2022.

- Net revenue increased 18%. Excluding the impact of Full Year Special Items, adjusted net revenue increased 18%, or 23% on a currency-neutral basis, which includes a 1 percentage point benefit from acquisitions. Primary drivers of the increase were as follows:
  - Gross dollar volume growth of 12%, on a local currency basis, to \$8.2 trillion.
  - Cross-border volume growth of 45% on a local currency basis.
  - Switched transactions growth of 12%.
  - Other revenues increase of 16%, or 20% on a currency-neutral basis, which includes 3 percentage point of growth due to acquisitions. The remaining growth was driven primarily by the Company's Cyber & Intelligence and Data & Services solutions.
  - Rebates and incentives (contra-revenues) increase of 19%, or 23% on a currency-neutral basis, primarily due to increased volumes and transactions and new and renewed deals.
- Total operating expenses increased 13%. Excluding the impact of Full Year Special Items, adjusted operating expenses increased 11%, or 14% on a currency-neutral basis. This includes a 4 percentage

point increase from acquisitions. The remaining increase was primarily due to higher personnel costs, travel and meeting costs, and unfavorable foreign exchange activity.

- Other income (expense) was unfavorable \$757 million, primarily due to net losses in the current year versus net gains in the prior year related to unrealized fair market value adjustments on marketable and non-marketable equity securities. Adjusted other income (expense) was favorable \$26 million versus the prior year, primarily due to an increase in our investment income, partially offset by increased interest expense related to our 2022 debt issuances.
- The effective tax rate for 2022 was 15.4%, versus 15.7% for the comparable period in 2021. The adjusted effective tax rate for 2022 was 15.7%, versus 15.4% for the comparable period in 2021. The adjusted effective tax rate was higher in 2022 primarily due to the recognition of U.S. tax benefits in 2021, the majority of which were discrete, a discrete tax benefit in 2021 related to the remeasurement of the Company's net deferred tax asset in the U.K., and a discrete tax expense related to an unfavorable court ruling in 2022, all of which was partially offset by a discrete tax benefit in the first quarter of 2022 due to final U.S. tax regulations published in the current year.

## **Return of Capital to Shareholders**

During the full year 2022, Mastercard repurchased 25.7 million shares at a cost of \$8.8 billion and paid \$1.9 billion in dividends.

## **Forward-Looking Statements**

This press release contains forward-looking statements pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts may be forward-looking statements. When used in this press release, the words "believe", "expect", "could", "may", "would", "will", "trend" and similar words are intended to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements that relate to Mastercard's future prospects, developments and business strategies. We caution you to not place undue reliance on these forward-looking statements, as they speak only as of the date they are made. Except for the Company's ongoing obligations under the U.S. federal securities laws, the Company does not intend to update or otherwise revise the forward-looking information to reflect actual results of operations, changes in financial condition, changes in estimates, expectations or assumptions, changes in general economic or industry conditions or other circumstances arising and/or existing since the preparation of this press release or to reflect the occurrence of any unanticipated events.

Many factors and uncertainties relating to our operations and business environment, all of which are difficult to predict and many of which are outside of our control, influence whether any forward-looking statements can or will be achieved. Any one of those factors could cause our actual results to differ materially from those expressed or implied in writing in any forward-looking statements made by Mastercard or on its behalf, including, but not limited to, the following factors:

- regulation directly related to the payments industry (including regulatory, legislative and litigation activity with respect to interchange rates and surcharging)
- the impact of preferential or protective government actions
- regulation of privacy, data, security and the digital economy
- regulation that directly or indirectly applies to us based on our participation in the global payments industry (including anti-money laundering, counter financing of terrorism, economic sanctions and anti-corruption, account-based payments systems, and issuer and acquirer practice regulation)
- the impact of changes in tax laws, as well as regulations and interpretations of such laws or challenges to our tax positions
- potential or incurred liability and limitations on business related to any litigation or litigation settlements
- the impact of the global COVID-19 pandemic and measures taken in response
- the impact of competition in the global payments industry (including disintermediation and pricing pressure)
- the challenges relating to rapid technological developments and changes
- the challenges relating to operating a real-time account-based payments system and to working with new customers and end users
- the impact of information security incidents, account data breaches or service disruptions
- issues related to our relationships with our stakeholders (including loss of substantial business from significant customers, competitor relationships with our customers, consolidation amongst our customers, merchants' continued focus on acceptance costs and unique risks from our work with governments)
- exposure to loss or illiquidity due to our role as guarantor and other contractual obligations
- the impact of global economic, political, financial and societal events and conditions, including adverse currency fluctuations and foreign exchange controls
- events and resulting actions related to the Russian invasion of Ukraine
- reputational impact, including impact related to brand perception and lack of visibility of our brands in products and services
- the inability to attract, hire and retain a highly qualified and diverse workforce, or maintain our corporate culture
- issues related to acquisition integration, strategic investments and entry into new businesses
- issues related to our Class A common stock and corporate governance structure

For additional information on these and other factors that could cause the Company's actual results to differ materially from expected results, please see the Company's filings with the Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2021 and any subsequent reports on Forms 10-Q and 8-K.

## Non-GAAP Financial Information

Mastercard discloses the following non-GAAP financial measures: adjusted net revenue, adjusted operating expenses, adjusted operating margin, adjusted other income (expense), adjusted effective income tax rate, adjusted net income and adjusted diluted earnings per share (as well as related applicable growth rates versus the comparable period in the prior year). These non-GAAP financial measures exclude the impact of gains and losses on the Company's equity investments which includes mark-to-market fair value adjustments, impairments and gains and losses upon disposition, as well as the related tax impacts. These non-GAAP financial measures also exclude the impact of special items, where applicable, which represent litigation judgments and settlements and certain one-time items, as well as the related tax impacts. The Company excludes these items because management evaluates the underlying operations and performance of the Company separately from these recurring and nonrecurring items.

In addition, the Company presents growth rates adjusted for the impact of currency, which is a non-GAAP financial measure. Currency-neutral growth rates are calculated by remeasuring the prior period's results using the current period's exchange rates for both the translational and transactional impacts on operating results as well as removing the related impact of the Company's foreign exchange derivative contracts designated as cash flow hedging instruments. The impact of currency translation represents the effect of translating operating results where the functional currency is different from the Company's U.S. dollar reporting currency. The impact of the transactional currency represents the effect of converting revenue and expenses occurring in a currency other than the functional currency. The impact of the related realized gains and losses resulting from the Company's foreign exchange derivative contracts designated as cash flow hedging instruments is recognized in the respective financial statement line item on the statement of operations when the underlying forecasted transactions impact earnings. The Company believes the presentation of currency-neutral growth rates provides relevant information to facilitate an understanding of its operating results.

The Company believes that the non-GAAP financial measures presented facilitate an understanding of operating performance and provide a meaningful comparison of its results between periods. The Company's management uses non-GAAP financial measures to, among other things, evaluate its ongoing operations in relation to historical results, for internal planning and forecasting purposes and in the calculation of performance-based compensation.

The Company includes reconciliations of the requisite non-GAAP financial measures to the most directly comparable GAAP financial measures. The presentation of non-GAAP financial measures should not be considered in isolation or as a substitute for the Company's related financial results prepared in accordance with GAAP.

### Gains and Losses on Equity Investments

1. Full Year 2022 pre-tax net losses of \$145 million and 2021 pre-tax net gains of \$645 million were primarily related to unrealized fair market value adjustments on marketable and non-marketable equity securities.

### Full Year Special Items

2. Full Year 2022 pre-tax charges of \$356 million as a result of settlements (both final and agreements in principle) with a number of U.K. merchants, and as a result of change in estimate related to the claims of merchants who opted out of the U.S. merchant class litigation.
3. Full Year 2022 pre-tax net charges of \$30 million directly related to imposed sanctions and the suspension of our business operations in Russia. The net charge is comprised of general and administrative expenses of \$67 million primarily related to incremental employee-related costs and reserves on uncollectible balances with certain sanctioned customers, offset by a net benefit of \$37 million in rebates and incentives (contra-revenue) primarily related to a reduction in liabilities as a result of lower estimates of customer performance for certain customer business agreements due to the suspension of our business operations in Russia.
4. Full Year 2021 pre-tax charges of \$94 million related to litigation settlements and estimated attorneys' fees with U.K. merchants and Pan-European merchants.
5. Full Year 2021 pre-tax charges of \$88 million related to the resolution of a foreign indirect tax matter for 2015 through 2021 and the related interest expense.

## Footnote

The tables set forth the gross dollar volume ("GDV"), purchase volume, cash volume and the number of purchase transactions, cash transactions and cards on a regional and global basis for Mastercard™-branded cards. Growth rates over prior periods are provided for volume-based data.

Debit transactions on Maestro® and Cirrus®-branded cards and transactions involving brands other than Mastercard are not included in the preceding tables.

For purposes of the table: GDV represents purchase volume plus cash volume and includes the impact of balance transfers and convenience checks; "purchase volume" means the aggregate dollar amount of purchases made with Mastercard-branded cards for the relevant period; and "cash volume" means the aggregate dollar amount of cash disbursements and includes the impact of balance transfers and convenience checks obtained with Mastercard-branded cards for the relevant period. The number of cards includes virtual cards, which are Mastercard-branded payment accounts that do not generally have physical cards associated with them.

The Mastercard payment products are comprised of credit, charge, debit and prepaid programs, and data relating to each type of program is included in the tables. The tables include information with respect to transactions involving Mastercard-branded cards that are not switched by Mastercard and transactions for which Mastercard does not earn significant revenues.

Information denominated in U.S. dollars is calculated by applying an established U.S. dollar/local currency exchange rate for each local currency in which Mastercard volumes are reported. These exchange rates are calculated on a quarterly basis using the average exchange rate for each quarter. Mastercard reports period-over-period rates of change in purchase volume and cash volume on the basis of local currency information, in order to eliminate the impact of changes in the value of currencies against the U.S. dollar in calculating such rates of change.

The data set forth in the GDV, purchase volume, purchase transactions, cash volume and cash transactions columns is provided by Mastercard customers and is subject to verification by Mastercard and partial cross-checking against information provided by Mastercard's transaction switching systems. The data set forth in the cards columns is provided by Mastercard customers and is subject to certain limited verification by Mastercard. A portion of the data set forth in the cards columns reflects the impact of routine portfolio changes among customers and other practices that may lead to over counting of the underlying data in certain circumstances. All data is subject to revision and amendment by Mastercard or Mastercard's customers. Starting in the first quarter of 2022, data related to sanctioned Russian banks was not reported to us and therefore such amounts are not included. Subsequent to the suspension of our business operations in Russia in March 2022, there is no Russian data to be reported.

Performance information for prior periods can be found in the Investor Relations section of the Mastercard website at [investor.mastercard.com](https://investor.mastercard.com).
