FOR IMMEDIATE RELEASE

NextEra Energy reports first-quarter 2022 financial results

- NextEra Energy delivers strong first quarter
- FPL continues to focus on delivering clean energy solutions for its customers and an outstanding value proposition of low bills, high reliability and outstanding customer service
- FPL completes 2022 solar build on time and within budget
- NextEra Energy Resources has another strong quarter of renewables and storage origination, adding approximately 1,770 net megawatts to its backlog

JUNO BEACH, Fla. - NextEra Energy, Inc. (NYSE: NEE) today reported 2022 first-quarter net loss attributable to NextEra Energy on a GAAP basis of \$451 million, or \$0.23 per share, compared to net income attributable to NextEra Energy of \$1,666 million, or \$0.84 per share, for the first quarter of 2021. On an adjusted basis, NextEra Energy's 2022 first-quarter earnings were \$1,455 million, or \$0.74 per share, compared to \$1,330 million, or \$0.67 per share, in the first quarter of 2021.

Adjusted earnings for these periods exclude the effects of non-qualifying hedges; NextEra Energy Partners, LP net investment gains; differential membership interests-related; change in unrealized gains and losses on equity securities held in NextEra Energy Resources' nuclear decommissioning funds and other than temporary impairments (OTTI); and an impairment charge.

NextEra Energy's management uses adjusted earnings, which is a non-GAAP financial measure, internally for financial planning, analysis of performance, reporting of results to the board of directors and as an input in determining performance-based compensation under the company's employee incentive compensation plans. NextEra Energy also uses earnings expressed in this fashion when communicating its financial results and earnings outlook to analysts and investors. NextEra Energy's management believes that adjusted earnings provide a more meaningful representation of NextEra Energy's fundamental earnings power. A reconciliation of historical adjusted earnings to net income (loss) attributable to NextEra Energy, which is the most directly comparable GAAP measure, is included in the attachments to this news release.

Florida Power & Light Company completed the regulatory integration of Gulf Power Company under its 2021 base rate settlement agreement and began serving customers under unified rates on Jan. 1, 2022. As a result, Gulf Power will no longer continue as a separate reporting segment within Florida Power & Light and NextEra Energy. For 2022 and beyond, FPL has one reporting segment and, therefore, 2021 financial results and other operational metrics have been restated for comparative purposes.

"NextEra Energy is off to a solid start to meet our overall objectives for the year, delivering strong first-quarter adjusted earnings per share growth of 10.4% year-over-year," said John Ketchum, president and chief executive officer of NextEra Energy. "FPL had a terrific quarter of execution, making smart capital investments and delivering operational efficiencies. During the quarter, FPL placed in service

approximately 450 megawatts of additional cost-effective solar projects and now owns and operates more than 3,600 megawatts of solar, which is the largest solar portfolio of any utility in the country. Florida's economic strength and the rapid growth in FPL's customer base bolsters the company's confidence in its disciplined investment strategy. NextEra Energy Resources had another strong quarter of renewables and storage origination, adding approximately 1,770 net megawatts to its backlog since the release of our fourth-quarter and full-year 2021 financial results in January. Our continued origination success is reflective of our ability to continue leveraging our competitive advantages to deliver clean energy solutions to meet our customers' ongoing demand for low-cost renewables and storage. We remain confident in the long-term growth prospects for NextEra Energy and our underlying core businesses, and we will be disappointed if we are not able to deliver financial results at or near the top end of our adjusted earnings per share expectations ranges in each of 2022, 2023, 2024 and 2025. We remain intensely focused on execution and believe NextEra Energy remains uniquely positioned to drive long-term shareholder value."

FPL

FPL reported first-quarter 2022 net income of \$875 million, or \$0.44 per share, compared to \$777 million, or \$0.39 per share, for the prior-year comparable quarter. As America's largest electric utility, FPL sells more power than any other utility, providing clean, affordable, reliable electricity to more than 5.7 million customer accounts, or more than 12 million people across Florida.

FPL's growth over the prior-year comparable quarter was primarily driven by continued investment in the business. FPL's capital expenditures were approximately \$2.2 billion for the first quarter of 2022 and full-year capital investments are expected to be between \$7.9 billion and \$8.3 billion. Regulatory capital employed increased by approximately 11.3% over the same quarter last year. FPL's average number of customers increased by more than 91,000 from the prior-year comparable quarter.

During the quarter, FPL successfully executed on its strategic initiatives, including placing in service approximately 450 megawatts (MW) of additional cost-effective solar projects to be recovered through base rates as part of its new four-year settlement agreement that became effective on Jan. 1, 2022. As a result, FPL has now completed, on time and within budget, all of its planned solar build with 2022 in-service dates.

Additionally, FPL's other major capital investments, including the North Florida Resiliency Connection and highly efficient approximately 1,200-MW Dania Beach Clean Energy Center, are progressing well for completion later this year. By executing on smart capital investments such as these and running the business efficiently, FPL is able to maintain its best-in-class customer value proposition of clean energy, low bills, high reliability and outstanding customer service.

Earlier this month, FPL filed its annual updated Ten-Year Site Plan with the Florida Public Service Commission (PSC), which included plans for roughly 9,500 MW of additional cost-effective solar projects across the FPL service territory over the next 10 years. This planned solar build-out includes nearly 1,200 MW of base rate solar projects, inclusive of the approximately 450 MW placed in service during the first quarter, that FPL plans to build over the next two years. In addition, it includes approximately 1,800 MW under the Solar Base Rate Adjustment (SoBRA) mechanism of FPL's settlement agreement, 1,800 MW of SolarTogether community solar projects that FPL expects to construct over the next four years, as well as roughly 4,700 MW of additional solar after 2025, subject to approval by the PSC. When this plan is completed, FPL expects that nearly 20% of its forecasted energy delivery in 2031 will come from solar generation, reflecting an approximately 65% increase, as compared to current levels, in zero-carbon-emissions electricity produced by the FPL system over the next decade.

NextEra Energy Resources

NextEra Energy Resources, the competitive clean energy business of NextEra Energy, reported a first-quarter 2022 net loss attributable to NextEra Energy on a GAAP basis of \$1,499 million, or \$0.76 per share, compared to net income attributable to NextEra Energy of \$491 million, or \$0.25 per share, in the prior-year quarter. On an adjusted basis, NextEra Energy Resources' earnings for the first quarter of 2022

were \$628 million, or \$0.32 per share, compared to \$598 million, or \$0.30 per share, for the first quarter of 2021.

NextEra Energy Resources delivered another strong quarter of renewables and storage origination, adding approximately 1,770 net MW to its backlog. Since the release of the fourth-quarter and full-year 2021 financial results in January, NextEra Energy Resources added approximately 1,200 net MW of new wind projects for 2022, 2023 and 2024 commercial operations dates to its backlog. NextEra Energy Resources' backlog additions also include approximately 440 MW of solar projects and approximately 130 MW of battery storage projects.

Also during the first quarter, NextEra Energy Transmission, along with its partners, completed the construction of the East-West Tie Transmission Line Project. The 450-kilometer, 230-kilovolt transmission line runs from Wawa to Thunder Bay, Ontario, and is expected to address long-standing regional transmission constraints, thereby increasing much-needed access to energy to support new economic growth in the region for years to come.

NextEra Energy Resources' first-quarter 2022 adjusted results exclude a charge associated with its investment in Mountain Valley Pipeline. Due to the current legal and regulatory challenges involved with the pipeline investment, as well as the substantial delays in reaching commercial operation and increased costs associated with those delays, the business recorded an impairment charge of approximately \$600 million on an after-tax basis, primarily to completely write off NextEra Energy Resources' equity method investment carrying amount.

Corporate and Other

In the first quarter of 2022 on a GAAP basis, Corporate and Other results decreased \$0.11 per share, compared to the prior-year quarter. On an adjusted basis, Corporate and Other results for the first quarter of 2022 were roughly flat, compared to the prior-year quarter.

Outlook

NextEra Energy's long-term financial expectations remain unchanged. For 2022, NextEra Energy continues to expect adjusted earnings per share to be in the range of \$2.75 to \$2.85. For 2023 through 2025, NextEra Energy expects to grow roughly 6% to 8% per year off the expected 2022 adjusted earnings per share. For 2023 through 2025, this translates to adjusted earnings per share ranges for NextEra Energy of \$2.93 to \$3.08, \$3.13 to \$3.33 and \$3.35 to \$3.60, respectively.

NextEra Energy's adjusted earnings expectations exclude the cumulative effect of adopting new accounting standards; the effects of non-qualifying hedges and unrealized gains and losses on equity securities held in NextEra Energy Resources, LLC's nuclear decommissioning funds and other than temporary impairments, none of which can be determined at this time. Adjusted earnings expectations also exclude the effects of NextEra Energy Partners, LP net investment gains, differential membership interests-related and an impairment charge and ongoing costs related to NextEra Energy's investment in Mountain Valley Pipeline, LLC. In addition, adjusted earnings expectations assume, among other things, normal weather and operating conditions; positive macroeconomic conditions in the U.S. and Florida; supportive commodity markets; current forward curves; public policy support for wind and solar development and construction; market demand and transmission expansion to support wind and solar development; market demand for pipeline capacity; access to capital at reasonable cost and terms; divestitures to NextEra Energy Partners, LP; no acquisitions; no adverse litigation decisions; and no changes to governmental policies or incentives. Please see the accompanying cautionary statements for a list of the risk factors that may affect future results.

As previously announced, NextEra Energy's first-quarter 2022 financial results conference call is scheduled for 9 a.m. ET today. Also discussed during the call will be the first-quarter 2022 financial results for NextEra Energy Partners, LP (NYSE: NEP). The listen-only webcast will be available on NextEra Energy's website by accessing the following link: www.NextEraEnergy.com/FinancialResults. The news release and slides accompanying the presentation may be downloaded at www.NextEraEnergy.com/FinancialResults, beginning at 7:30 a.m. ET today. A replay will be available for 90 days by accessing the same link as listed above.

This news release should be read in conjunction with the attached unaudited financial information.

NextEra Energy, Inc.

NextEra Energy, Inc. (NYSE: NEE) is a leading clean energy company headquartered in Juno Beach, Florida. NextEra Energy owns Florida Power & Light Company, which is America's largest electric utility that sells more power than any other utility, providing clean, affordable, reliable electricity to more than 5.7 million customer accounts, or more than 12 million people across Florida. NextEra Energy also owns a competitive clean energy business, NextEra Energy Resources, LLC, which, together with its affiliated entities, is the world's largest generator of renewable energy from the wind and sun and a world leader in battery storage. Through its subsidiaries, NextEra Energy generates clean, emissions-free electricity from seven commercial nuclear power units in Florida, New Hampshire and Wisconsin. A Fortune 200 company, NextEra Energy has been recognized often by third parties for its efforts in sustainability, corporate responsibility, ethics and compliance, and diversity. NextEra Energy is ranked No. 1 in the electric and gas utilities industry on Fortune's 2022 list of "World's Most Admired Companies," recognized on Fortune's 2021 list of companies that "Change the World" and received the S&P Global Platts 2020 Energy Transition Award for leadership in environmental, social and governance. Cautionary Statements and Risk Factors That May Affect Future Results

This news release contains "forward-looking statements" within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy, Inc. (NextEra Energy) and Florida Power & Light Company (FPL) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NextEra Energy's and FPL's control. Forward-looking statements in this news release include, among others, statements concerning adjusted earnings per share expectations and future operating performance. In some cases, you can identify the forward-looking statements by words or phrases such as "will," "may result," "expect," "anticipate," "believe," "intend," "plan," "seek," "potential," "projection," "forecast," "predict," "goals," "target," "outlook," "should," "would" or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance. The future results of NextEra Energy and FPL and their business and financial condition are subject to risks and uncertainties that could cause their actual results to differ materially from those expressed or implied in the forward-looking statements, or may require them to limit or eliminate certain operations. These risks and uncertainties include, but are not limited to, those discussed in this news release and the following: effects of extensive regulation of NextEra Energy's and FPL's business operations; inability of NextEra Energy and FPL to recover in a timely manner any significant amount of costs, a return on certain assets or a reasonable return on invested capital through base rates, cost recovery clauses, other regulatory mechanisms or otherwise; impact of political, regulatory, operational and economic factors on regulatory decisions important to NextEra Energy and FPL; disallowance of cost recovery by FPL based on a finding of imprudent use of derivative instruments; effect of any reductions or modifications to, or elimination of, governmental incentives or policies that support utility scale renewable energy projects of NextEra Energy Resources, LLC and its affiliated entities (NextEra Energy Resources) or the imposition of additional tax laws, tariffs, duties, policies or assessments on renewable energy or equipment necessary to generate it or deliver it; impact of new or revised laws, regulations, interpretations or constitutional ballot and regulatory initiatives on NextEra Energy and FPL; capital expenditures, increased operating costs and various liabilities attributable to environmental laws, regulations and other standards applicable to NextEra Energy and FPL; effects on NextEra Energy and FPL of federal or state laws or regulations mandating new or additional limits on the production of greenhouse gas emissions; exposure of NextEra Energy and FPL to significant and increasing compliance costs and substantial monetary penalties and other sanctions as a result of extensive federal regulation of their operations and businesses; effect on NextEra Energy and FPL of changes in tax laws, guidance or policies as well as in judgments and estimates used to determine tax-related asset and liability amounts; impact on NextEra Energy and FPL of adverse results of litigation; effect on NextEra Energy and FPL of failure to proceed with projects under development or inability

to complete the construction of (or capital improvements to) electric generation, transmission and distribution facilities, gas infrastructure facilities or other facilities on schedule or within budget; impact on development and operating activities of NextEra Energy and FPL resulting from risks related to project siting, planning, financing, construction, permitting, governmental approvals and the negotiation of project development agreements, as well as supply chain disruptions; risks involved in the operation and maintenance of electric generation, transmission and distribution facilities, gas infrastructure facilities, retail gas distribution system in Florida and other facilities; effect on NextEra Energy and FPL of a lack of growth or slower growth in the number of customers or in customer usage; impact on NextEra Energy and FPL of severe weather and other weather conditions; threats of terrorism and catastrophic events that could result from terrorism, cyberattacks or other attempts to disrupt NextEra Energy's and FPL's business or the businesses of third parties; inability to obtain adequate insurance coverage for protection of NextEra Energy and FPL against significant losses and risk that insurance coverage does not provide protection against all significant losses; a prolonged period of low gas and oil prices could impact NextEra Energy Resources' gas infrastructure business and cause NextEra Energy Resources to delay or cancel certain gas infrastructure projects and could result in certain projects becoming impaired; risk to NextEra Energy Resources of increased operating costs resulting from unfavorable supply costs necessary to provide NextEra Energy Resources' full energy and capacity requirement services; inability or failure by NextEra Energy Resources to manage properly or hedge effectively the commodity risk within its portfolio; effect of reductions in the liquidity of energy markets on NextEra Energy's ability to manage operational risks; effectiveness of NextEra Energy's and FPL's risk management tools associated with their hedging and trading procedures to protect against significant losses, including the effect of unforeseen price variances from historical behavior; impact of unavailability or disruption of power transmission or commodity transportation facilities on sale and delivery of power or natural gas by NextEra Energy, including FPL; exposure of NextEra Energy and FPL to credit and performance risk from customers, hedging counterparties and vendors; failure of NextEra Energy or FPL counterparties to perform under derivative contracts or of requirement for NextEra Energy or FPL to post margin cash collateral under derivative contracts; failure or breach of NextEra Energy's or FPL's information technology systems; risks to NextEra Energy and FPL's retail businesses from compromise of sensitive customer data; losses from volatility in the market values of derivative instruments and limited liquidity in over-the-counter markets; impact of negative publicity; inability of FPL to maintain, negotiate or renegotiate acceptable franchise agreements with municipalities and counties in Florida; occurrence of work strikes or stoppages and increasing personnel costs; NextEra Energy's ability to successfully identify, complete and integrate acquisitions, including the effect of increased competition for acquisitions; environmental, health and financial risks associated with NextEra Energy Resources' and FPL's ownership and operation of nuclear generation facilities; liability of NextEra Energy and FPL for significant retrospective assessments and/or retrospective insurance premiums in the event of an incident at certain nuclear generation facilities; increased operating and capital expenditures and/or reduced revenues at nuclear generation facilities of NextEra Energy or FPL resulting from orders or new regulations of the Nuclear Regulatory Commission; inability to operate any of NextEra Energy Resources' or FPL's owned nuclear generation units through the end of their respective operating licenses; effect of disruptions, uncertainty or volatility in the credit and capital markets or actions by third parties in connection with project-specific or other financing arrangements on NextEra Energy's and FPL's ability to fund their liquidity and capital needs and meet their growth objectives; inability of NextEra Energy, FPL and NextEra Energy Capital Holdings, Inc. to maintain their current credit ratings; impairment of NextEra Energy's and FPL's liquidity from inability of credit providers to fund their credit commitments or to maintain their current credit ratings; poor market performance and other economic factors that could affect NextEra Energy's defined benefit pension plan's funded status; poor market performance and other risks to the asset values of NextEra Energy's and FPL's nuclear decommissioning funds; changes in market value and other risks to certain of NextEra Energy's investments; effect of inability of NextEra Energy subsidiaries to pay upstream dividends or repay funds to NextEra Energy or of NextEra Energy's performance under guarantees of subsidiary obligations on NextEra Energy's ability to meet its financial obligations and to pay dividends on its common stock; the fact that the amount and timing of dividends payable on NextEra Energy's common stock, as well as the dividend policy approved by NextEra Energy's board of directors from time to time, and changes to that policy, are within the sole discretion of NextEra Energy's board of directors and, if declared and paid, dividends may be in amounts that are less than might be expected by shareholders; NextEra Energy Partners, LP's inability to access sources of capital on commercially reasonable terms could have an effect on its ability to consummate future acquisitions and on the value of NextEra Energy's limited partner interest in NextEra Energy Operating Partners, LP; effects of disruptions, uncertainty or volatility in the credit and capital markets on the market price of NextEra Energy's common stock; and the ultimate severity and duration of public health crises, epidemics and pandemics, and its effects on NextEra Energy's or FPL's businesses. NextEra Energy and FPL discuss these and other risks and uncertainties in their annual report on Form 10-K for the year ended December 31, 2021 and other Securities and Exchange Commission (SEC) filings, and this news release should be read in conjunction with such SEC filings. The forward-looking statements made in this news release are made only as of the date of this news release and NextEra Energy and FPL undertake no obligation to update any forward-looking statements.
